J. Girardot, 1988 Myth and Meaning in Early Daoism examines some of the earliest texts associated with the Daoist tradition primarily the Daode jing Zhuangzi and Huainanzi from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of hundun the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as creatio continua in cosmic social and individual life Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive

perspective this work when it was written challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions While controversial and at times playfully provocative the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world

Ely, 2018-01-15 Adam and Eve in Scripture Theology and Literature Sin Compassion and Forgiveness is an extended consideration of the narrative of Adam and Eve first seen in the Hebrew Bible but given new life by St Paul in the New Testament Paul s treatment of Adam and Eve especially his designation of Christ as a second Adam has had an enormous influence in Christianity Peter Ely follows this rich narrative as it develops in history providing the basis of the doctrine of original sin in Christianity giving rise in modern times to theological speculation and entering thematically into mysticism and literature The power of the adamic narrative can only be realized if one treats it as a true but non historical myth The truth of the myth lies in its ability to stimulate thinking and so reveal the depths of human experience Augustine understood that so did Julian of Norwich and even the Belgian author of mystery stories Georges Simenon who had a deep sense of the universality of human weakness and the possibilities of redeeming what was lost Simenon s detective Maigret saw himself as a mender of destinies The doctrine of original sin the notion that human beings share a common vulnerability can open the way to compassion and forgiveness As Shakespeare illustrates in Measure for Measure the awareness of weakness in ourselves should move us to compassion for others The recognition of a kind of democracy of sin can keep us from considering ourselves better than others unlike them in their weakness and entitled to stand in judgment of them Thus compassion opens the door to forgiveness The progress from sin to compassion to forgiveness forms the heart of this work **Cosmic Genesis: The First Gods of Sumer and the Anunnaki of Nibiru** Ishmael Ningishzida, 2025-08-24 Before the Bible before Egypt s pyramids before the myths of Olympus there was Sumer Cosmic Genesis The First Gods of Sumer takes readers deep into the cradle of civilization to uncover the rich haunting and awe inspiring mythology of the world s first pantheon Drawing from ancient texts temple inscriptions archaeological findings and poetic hymns this volume resurrects the primordial deities who shaped the cosmos crafted the human condition and ruled the forces of nature with terrifying beauty and divine intent From the enigmatic waters of Nammu to the divine lovers An and Ki from Enlil s stormy decrees to Enki s secretive magic this book explores the intricate web of Sumerian theology

with depth and wonder Here the reader journeys through the great descent of Inanna the luminous paths of the sun god Utu and the moon god Nanna and the underworld realms ruled by the implacable Ereshkigal Each chapter is devoted to a divine figure or theme weaving together myth ritual and cosmic symbolism in a sweeping narrative that is both scholarly and immersive Written in evocative flowing prose this is not merely a reference book it is a mythopoeic reconstruction a resurrection of the lost voices of gods kings lovers and monsters who once roamed the Mesopotamian imagination Cosmic Genesis is the definitive starting point for anyone seeking to understand the religious imagination of Sumer the oldest known civilization and the mythic patterns that would echo through Babylon the Bible Greece and beyond *Myths, Models and Paradigms* Ian G. Barbour, 2013-03-19 Scientist and philosophers have more in common than might first appear especially when the language used in the two disciplines receives a closer scrutiny Ian G Barbour treats three scientific view points that can clarify the specific nature of religious language The first theme is the diverse function of language Science and religion each has its own task and its own applicable logic and language Religious symbols and their expression in myths imply a perspective and interpretation of human history and experience directing attention to particular patterns in events The second theme is the role of models in both scientific and religious language What the billiard ball model of a gas and the biblical model of personal God both achieve is an interpretation of experience a restructuring of how one sees the world The third area in which science and religion have a common stake is the role of paradigms Paradigms are standard examples of scientific investigation which embody a set of assumptions and becomes a research tradition until replaced by other assumptions Religions has its paradigms like the covenant of Sinai which have issued in traditions Dr Barbour concludes that scientific and religious language both offer knowledge of reality based on experience In determining the appropriate data and criteria for this experience the philosopher of religion can profit greatly from the work of the scientist *Ancient Chinese Gods* Samuel Shepherd, 2011-01-01 Ancient Chinese Gods Jade Emperor Fuxi Guandi Shennong Discover the timeless legends and profound wisdom of ancient China with Ancient Chinese Gods a captivating book series that delves into the lives and legacies of four pivotal deities This beautifully crafted collection takes you on an enlightening journey through the mythological and cultural heritage of China offering a deep understanding of the values and beliefs that have shaped one of the world's oldest civilizations Book 1 The Jade Emperor Sovereign Of Heaven And Earth Embark on a celestial journey with the Jade Emperor the ultimate ruler of the heavens and earth This volume explores his divine authority his role in maintaining cosmic order and the timeless principles of justice and benevolence Discover the stories that depict the Jade Emperor as the epitome of moral governance guiding both gods and mortals with wisdom and compassion Book 2 Fuxi The First Sage And The Origins Of Civilization Uncover the origins of Chinese civilization with Fuxi the First Sage This enlightening book delves into Fuxi's monumental contributions from creating the Eight Trigrams and inventing writing to establishing societal norms Fuxi's legacy is a testament to human ingenuity and the transformative power of knowledge
