Postmodernism: Foundational essays Victor E. Taylor, Charles E. Winquist, 1998 **The Inner Reaches of Outer Space** Joseph Campbell, 2002 Suggests that the laws of physics that govern the universe are also at play within the human consciousness Myth, History, and Metaphor in the Hebrew Bible Paul K.-K. Cho, 2019-02-07 Explores the influence of the sea myth at the structural and conceptual foundations of the Hebrew Bible History and Anti-History in Philosophy Victorino Tejera, 2017-07-05 History and Anti History in Philosophy demonstrates the viability of the idea of the unity of philosophic thinking and the reflective practice of the history of philosophy It is a concise in depth history of the deconstructive turn in philosophy and of the styles of historical and interpretive contextualization afforded by diverse schools of thought Thematic unity arises from the focus of contributors on the historical dimension of reflection in philosophy History of philosophy and intellectual history come together when they are forced to practice foundational analysis namely when they feel the need to uncover indubitables of society Indubitables are deeply held usually unnoticed premises upon which a society or group acts builds and speaks By foundational analysis the editors do not mean the search for acceptable starting points of intellectual exploration but the ongoing criticism of all such postulates of faith For those interested in contextual analysis of Kant Hegel Marx Dewey Mannheim Husserl Dilthey Heidegger and Gadamer this is an invaluable guide The editors make plain their belief that not using history as have past philosophies is unphilosophic ideas in personal construction to a text that

cannot supply reasons for being taken seriously in history This volume illuminates the achievements of present day social science insights It merits a close reading by those for whom the history of ideas is a living entity Allegories of the Anthropocene Elizabeth M. DeLoughrey,2019-06-28 Elizabeth M DeLoughrey traces how indigenous and postcolonial peoples in the Caribbean and Pacific Islands grapple with the enormity of colonialism and anthropogenic climate change through art poetry and literature by using allegorical narratives **Literature and Theology** Dr Heather Walton,2013-06-28 This book explores current trends in the interdisciplinary study of literature and theology an area of academic activity that has developed dramatically in the past twenty years The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have become increasingly unstable This book brings together the work of leading scholars in the field with that of emerging voices Offering an important resource for the growing number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging configurations Metaphors, Narratives, Emotions Stefán Snævarr,2010-01-01 This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor narrative and emotions They share a number of important similarities and connections In the first place all three are constituted by aspect seeing the seeing as or perception of Gestalts Secondly all three are meaning endowing devices helping us to furnish our world with meaning Thirdly the threesome constitutes a trinity Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other s terms Further the concept of narratives can partly be analysed in the terms of emotions And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors But there is more Metaphors especially poetic ones are important tools for the understanding of the tacit sides of emotions perhaps because of the metaphoric structure of emotions The notion that narrations can be tools for understanding emotions follows from two facts narrations are devices for explanation and emotions have a narrative structure Fourthly the threesome has an impact on our rationality It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held a rationality enlivened with metaphoric narrative and emotive qualities *Language in Literature* Jonathan Locke Hart,2024-10-15 Language in Literature examines the overlap and blurring boundaries of English comparative and world poetry and literature Questions of language literature translation and creative writing are addressed

as befitting an author who is a poet literary scholar and historian The book begins with metaphor which Aristotle thought in Poetics was the key gift of the poet and discusses it in theory and practice it moves from the identity of metaphor to identity in translation and culture it examines poetry in a comparative and world context it looks at image and text it explores literature and culture in the Cold War it explores the role of the poet and scholar in translating poetry East and West it places creative writing in theory and practice in context East and West it concludes by summing up and suggesting implications of creation in language translating and interpreting and its expression in literature especially in poetry

Metaphors of Economy, 2016-08-01 In recent years the metaphor of economy has proved to have an immense explanatory power in literary and cultural criticism Everything can be expressed and analysed in terms borrowed from political economy Language texts social structures and cultural relationships can be construed in the dynamic terms made available by the metaphor of economy and more specifically the economy of the metaphor The metaphor of economy allows to show the dynamic processes of exchange circulation and interested negotiation The essays in this volume display approaches to cultural and discursive practices derived from the methods and texts of

economics They provide a body of literary and cultural criticism founded upon economic paradigms which makes apparent the genealogy of our economic thought and the suggestion that looking at human exchange can enrich our understanding of culture The interest of this volume is manifold it gives a historical account of the development of economics elucidates the emergence of theories governed by economic metaphors and clarifies the impact of the metaphor on theories of textuality It also provides an exchange between economists and literary and cultural critics by combining literary and cultural criticism with economics and covers a wide range of topics which are of interest to scholars from various disciplines This volume provides a critical exchange which hopes to enrich both economics and literature **Psyche** Jacques Derrida,2007 A twenty eight essay collection that is published in two volumes This work includes translations of seminal essays such as *Psyche* *Invention of the Other* *The Retrait of Metaphor* *At This Very Moment in This Work Here I Am* *Tours de Babel* and *Racism's Last Word* as well as three essays that appear in English **In the Name of Friendship: Deguy, Derrida and Salut** ,2017-11-20 *In the Name of Friendship* Deguy Derrida and Salut centres on the relationship between poet Michel Deguy and philosopher Jacques Derrida Translations of two essays *Of Contemporaneity* by Deguy and *How to Name* by Derrida allow Christopher Elson and Garry Sherbert to develop the implications of this singular intellectual friendship In these thinkers efforts to reinvent secular forms of the sacred such as the singularity of the name and especially poetic naming Deguy by adopting a Derridean programme of the impossible and Derrida by developing Deguy's ethics of naming through the word salut situate themselves at the forefront of contemporary debates over politics and religion alongside figures like Alain Badiou and Jean Luc Marion John Caputo and Martin Hagglund **The Modern Philosophical Revolution** David Walsh,2008-09-08 *The Modern Philosophical Revolution* breaks new ground by demonstrating the continuity of European philosophy from Kant to Derrida Much of the literature on European philosophy has emphasised the breaks that have occurred in the course of two centuries of thinking But as David Walsh argues such a reading overlooks the extent to which Kant Hegel and Schelling were already engaged in the turn toward existence as the only viable mode of philosophising Where many similar studies summarise individual thinkers this book provides a framework for understanding the relationships between them Walsh thus dispels much of the confusion that assails readers when they are only exposed to the bewildering range of positions taken by the philosophers he examines His book serves as an indispensable guide to a philosophical tradition that continues to have resonance in the post modern world **Translating Literatures, Translating Cultures** Kurt Mueller-Vollmer,Michael Irmscher,1998 This volume has a dual purpose to acquaint American readers and academic communities with some of the most important trends in European and Israeli translation studies and to bring together this work with that of American scholars who have begun to participate in this field **Conceptual Conflicts in Metaphors and Figurative Language** Michele Prandi,2017-07-06 This innovative volume provides a comprehensive integrated account of the study of conceptual figures demonstrating the ways in which figures and in
