The Woman Citizen, 1923

Women's Rights, Racial Integration, and Education from 1850-1920 M. Noraian, 2009-11-09 This historical biography examines Sarah Raymond Fitzwilliam's abolitionist roots growing up on a stop of the Underground Railroad, her training at a normal school, her tenure as a teacher, principal, and the nation's first city school superintendent in Bloomington, Illinois, 1874-1892. **The Woman Teacher**, 1921 The Delta Kappa Gamma Bulletin, 1972 Readers' Guide to Periodical Literature Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919 An author subject index to selected general interest periodicals of reference value in libraries. *Hartford's Ann Plato and the Native Borders of Identity* Ron Welburn, 2015-04-21 Who was Ann Plato? Apart from circumstantial evidence, there's little information about the author of *Essays Including Biographies and Miscellaneous Pieces in Prose and Poetry* published in 1841. Plato lived in a milieu of colored Hartford, Connecticut, in the early nineteenth century. Although long believed to have been African American herself, she may also, as Ron Welburn argues, have been American Indian like the father in her poem *The Natives of America*. Combining literary criticism, ethnohistory, and social history, Welburn uses Plato as an example of how Indians in the Long Island Sound region adapted and prevailed despite the contemporary rhetoric of Indian disappearance. This study seeks to raise Plato's profile as an author as well as to highlight the dynamics of Indian resistance and isolation that have contributed to her enigmatic status as a literary figure. The Woman's Journal, 1921 **Knowledge and Virtue in Teaching and Learning** Hugh Sockett, 2012-03-29 The challenge this book addresses is to demonstrate how, in teaching content knowledge, the development of intellectual and moral dispositions as virtues is not merely a good idea or peripheral to that content but deeply embedded in the logic of searching for knowledge and truth. It offers a powerful example of how philosophy of education can be brought to bear on real problems of educational research and practice, pointing the reader to re-envision what it means to educate children and how we might prepare teachers to take on such a role by developing the person instead of simply knowledge and skills. Connected intimately to the practice of teaching and teacher education, the book sets forth an alternative theory of education where the developing person is at the center of education, set in a moral space and a

political order To this end a framework of public and personal knowledge forms the content to which personal dispositions are integral not peripheral The book s pedagogy is invitational welcoming its readers as companions in inquiry and thought about the moral aspects of what we teach as knowledge *Education and Learning in America* Catherine Reef,2010-06-23 Examines the progress and development of education throughout U S history from the changing theories of education and the differences between urban and rural education to the movements of progressivism and traditionalism to standardized testing **An American Teacher in Argentina** Julyan G. Peard,2016-07-27 An American Teacher in Argentina tells the story of Mary E Gorman who in 1869 was the first North American woman to accept President Domingo F Sarmiento s invitation to set up normal schools in Argentina where she eventually settled An ordinary historical actor whose life only sometimes enters the historical record she moved along the fault lines of some of the greatest historical dramas and changes in nineteenth century US and Argentine history she was a pioneering child on the US Indian frontier she participated in the push for US women s education she was a single woman traveler at a time when few women traveled alone she was a player in an Argentine attempt to expand common school education and a beneficiary of the great primary products export boom in the second half of nineteenth century Argentina and thus well positioned to enjoy the country s Belle poque The book is not a straightforward biographical narrative of a woman s life It charts a life but more important it charts the evolving ideas in a life lived mostly among people pushing boundaries in pursuit of what they considered progress What emerges is a quintessentially transnational life story that engages with themes of gender education religion contact with indigenous peoples in both the US and Argentina natural history and economic and political change in Argentina in the second half of the nineteenth century Because the book tells a good story about one woman s rich and eventful life it will also appeal to an audience beyond academe *Subaltern Citizens and Their Histories* Gyanendra Pandey,2009-09-10 This book explores changing modes of enfranchisement and disenfranchisement and the historical struggles over them in India and the United States Initiating a conversation across very different world areas this book stimulates new conversations about each region and beyond both The Life and Times of T.
