The Muslim Discovery of America Frederick William Dame,2013 Some so called authorities claim that Muslims came to America hundreds of years before Columbus arrived in the New World Are the claims true Columbus expedition represents the first major discovery of the Americas and the first appearance of non Native Americans The conventional wisdom is that Columbus ended tens of thousands of years of near total isolation for the Native Americans Since the Americas had been initially populated probably between 13 000 BC and 11 000 BC there had been no engagement with peoples from any other continent save small ventures by the Norse into Northeastern Canada Did Muslims come to the Americas possibly as early as the 700s These researchers argue that Muslims came from Islamic Spain particularly the port of Delba Pelos during the rule of Caliph Abdullah Ibn Mohammed 888 912 A Muslim historian Abul Hassan Al Masudi c 895 957 added a map of the world to his book one that contained a large area in the ocean of darkness and fog the Atlantic ocean which he referred to as the unknown territory the Americas This book demonstrates that this assertion is important for Muslims because in conjunction with the relevant verses from the Koran and quotes from Mohammed it establishes the claim of Muslims that Allah intended America to be Islamic The book also investigates the lives of selected Muslims in America and organizations from the eighteenth century into the twenty first century It reveals that there was nothing more than a continuation of typical Islamic deception and subversive

jihaad It also documents the lie of the Islamic claim that hundreds of place names in the United States of America and Canada derive from Arabic Islamic roots Finally the book exposes the rewriting of American history by Islamic and pro Islamic media This book is alarming informative interesting and true **History of the Religious House of Pluscardyn** Simeon Ross Macphail,1881 *Placenames of the World* Adrian Room,2024-10-17 A placename is often much more than just a label A name may bespeak the history of a nation the culture of a people or the hopes of an individual Such connections are revealed in this very large reference work on placenames of the world which offers an in depth look at the origins of each First published in 1997 this 2006 edition contains 6 000 entries natural features such as mountains rivers and lakes and human entities such as cities and countries Each entry includes the name of the feature a brief description and its geographical location and the origin of the name with relevant historical biographical and topographical details Appendices give the meanings of common elements of non English placenames e g Abu as in Abu Dhabi means father of major placenames in European languages e g Pays Bas and Paesi Bassi are the French and Italian names respectively for what English speakers call the Netherlands and transcribed Chinese language equivalents for the names of the world s countries and capitals **The English Language in America** George Philip Krapp,1925
