Introduction to TikTok Gilad James, PhD, TikTok is a social media platform that allows users to create and share short form videos typically set to music It has become increasingly popular among younger audiences with over 800 million active users worldwide The app s algorithmic feed shows users content that is tailored to their interests and behavior making it an addictive and highly engaging platform TikTok has also become a hub for creativity and self expression with users often showcasing their talent in music dance and comedy The app has also faced controversy over its handling of user data and potential security risks leading to calls for greater regulation and oversight Despite these concerns TikTok remains one of the most popular social media platforms in the world today with a growing influence on modern youth culture National Geographic Traveler: France Rosemary Bailey,2007 From central Paris to the farthest reaches of the provinces this new edition presents up to date guidance for visiting the Loire Valley Mont St Michel Normandy s battlefields and other popular destinations along with lesser known attractions such as the charming vine striped Var region of Provence and tiny Mirepoix in the Pyrenees *Pseudocereals and Less Common Cereals* Peter S. Belton,John R.N. Taylor,2013-03-14 Today at the beginning of the third millenium just three cereal grains wheat rice and maize dominate the world s food supply accounting for some 75 % of all grains produced This food oligoculture poses some risks for the future of humankind The risk of catastrophic food crop failure through insect pests or fungal diseases is ever greater as genetic diversity is reduced The introduction of genetically modified cereals may exacerbate this situation as different speeies will share the same genes conferring resistance to pests The intensive cultivation practices needed to produce the required high yields of these highly developed cereals the so called Green Revolution is leading to environmental degradation through denudation of the soil and pollution of the environment due to pestieide and fertilizer runoff In addition the undoubted benefits brought about for many by the Green Revolution with its use of intensive agricultural practises cannot be shared by all Such cultivation practises are often inappropriate in the developing world where farmers simply do not have the income to purchase the required agricultural machinery inorganic fertilizers and pestieides Also the environmental con ditions in much of the developing world characterised by frequent droughts interspersed with short periods of very high rainfall are espeeially dam aging to the large areas of unprotected soil which result from mechanised agriculture Reliance on so few different grains for our nutrition also appears to be detri mental to our long term health
