Popular Narratives:

Narratives in Popular Culture, Media, and Everyday Life Arthur Asa Berger, 1996-09-18 Arthur Asa Berger's newest work *Narratives in Popular Culture Media and Everyday Life* elucidates narrative theory and applies it to the reader's everyday experience with popular forms of mass media. Many professionals in the social sciences today have developed great interest in narratives and the insights they can provide about people. This one-of-a-kind book helps to interpret narratives while bringing the analysis down to an accessible level. The first part of the volume defines and examines narrative theorists and narrative techniques; a glossary in chapter four defines key terms and concepts. The second half considers the narrative elements of dreams, fairy tales, comics, television, novels, radio, film, and everyday life. Berger's conversational style and illuminating application of narrative technique encourage readers to recognize how narratives shape the media as well as one's own perceptions. Students and professionals in popular culture, media studies, mass communication, and film studies will enjoy *Narratives in Popular Culture Media and Everyday Life*'s treatment of popular texts and films as well as its easy-to-read format.

Narrative Economics Robert J. Shiller,2020-09 In a world in which internet troll farms attempt to influence foreign elections can we afford to ignore the power of viral stories to affect economies In this groundbreaking book Nobel Prize winning economist and New York Times bestselling author Robert Shiller offers a new way to think about the economy and economic change Using a rich array of historical examples and data Shiller argues that studying popular stories that affect individual and collective economic behavior what he calls narrative economics has the potential to vastly improve our ability to predict prepare for and lessen the damage of financial crises recessions depressions and other major economic events Spread through the public in the form of popular stories ideas can go viral and move markets whether it s the belief that tech stocks can only go up that housing prices never fall or that some firms are too big to fail Whether true or false stories like these transmitted by word of mouth by the news media and increasingly by social media drive the economy by driving our decisions about how and where to invest how much to spend and save and more But despite the obvious importance of such stories most economists have paid little attention to them Narrative Economics sets out to change that by laying the foundation for a way of understanding how stories help propel economic events that have had led to war mass unemployment and increased inequality

Spanish New York Narratives 1898-1936 David Miranda-Barreiro,2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of Pruebas de Nueva York 1927 by Jose Moreno Villa 1887 1955 El crisol de las razas 1929 by Teresa de Escoriaza 1891 1968 Anticipolis 1931 by Luis de Oteyza 1883 1961 and La ciudad automatica 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the

crisis of Spanish national identity triggered by the end of the empire in 1898 **Sinophone Studies** Shu-mei Shih, Chien-hsin Tsai, Brian Bernards, 2013-01-22 This definitive anthology casts Sinophone studies as the study of Sinitic language cultures born of colonial and postcolonial influences Essays by such authors as Rey Chow Ha Jin Leo Ou fan Lee Ien Ang Wei ming Tu and David Wang address debates concerning the nature of Chineseness while introducing readers to essential readings in Tibetan Malaysian Taiwanese French Caribbean and American Sinophone literatures By placing Sinophone cultures at the crossroads of multiple empires this anthology richly demonstrates the transformative power of multiculturalism and multilingualism and by examining the place based cultural and social practices of Sinitic language communities in their historical contexts beyond China proper it effectively refutes the diasporic framework It is an invaluable companion for courses in Asian postcolonial empire and ethnic studies as well as world and comparative literature

Narrative, Emotion, and Insight Noël Carroll, John Gibson, 2011 A collection of essays written for this volume by leaders in the field that study the emotional and cognitive significance of narrative and its implications for aesthetics and the philosophy of art Provided by publisher **Colonial Discourse and Post-Colonial Theory** Patrick Williams, Laura Chrisman, 2015-08-12 This popular text provides an in depth introduction to debates within post colonial theory and criticism The readings are drawn from a diverse selection of thinkers both historical and contemporary **Arabic Literature in the Post-Classical Period** Roger Allen, D. S. Richards, 2006-04-13 The final volume of the series explores the Arabic literary heritage of the little known period from the twelfth to the beginning of the nineteenth century Even though it was during this time that the famous Thousand and One Nights was composed very little has been written on the literature of the period generally and Roger Allen and Donald Richards bring together some of the most distinguished scholars in the field The volume is divided into parts with the traditions of poetry and prose covered separately within both their elite and popular contexts The last two sections are devoted to drama and the indigenous tradition of literary criticism *Muslims Ritualising Death in the Netherlands* Claudia Venhorst, 2013 This study on the common practice of Islamic death rites in the Netherlands affords valuable insights in the lived religion of Muslims Particularly in a small town context marked by migration and diversity Muslims are challenged to re imagine and re invent their ritual repertoire This results in dynamic ritual practices that are the product of vibrant negotiation processes in which rites interact with ritual actors and their changing contexts The emerging ritual repertoire and their dynamics are widely overlooked in an institutionalized and traditional religion like Islam Series Death Studies Nijmegen Studies in Thanatology Vol 3 **Christianity and the Mass Media in America** Quentin J. Schultze, 2005-11-09 The mass media and religious groups in America regularly argue about news bias sex and violence on television movie censorship advertiser boycotts broadcast and film content rating systems government regulation of the media the role of mass evangelism in a democracy and many other issues In the United States the major disputes between religion and the media usually have involved Christian churches or parachurch ministries on the one hand and the

so called secular media on the other Often the Christian Right locks horns with supposedly liberal Eastern media elite and Hollywood entertainment companies When a major Protestant denomination calls for an economic boycott of Disney the resulting news reports suggest business as usual in the tensions between faith groups and media empires Schultze demonstrates how religion and the media in America have borrowed each other's rhetoric In the process they have also helped to keep each other honest pointing out respective foibles and pretensions Christian media have offered the public as well as religious tribes some of the best media criticism better than most of the media criticism produced by mainstream media themselves Meanwhile mainstream media have rightly taken particular churches to task for misdeeds as well as offered some surprisingly good depictions of religious life The tension between Christian groups and the media in America ultimately is a good thing that can serve the interest of democratic life As Alexis de Tocqueville discovered in the 1830s American Christianity can foster the habits of the heart that ward off the antisocial acids of radical individualism And as John Dewey argued a century later the media offer some of our best hopes for maintaining a public life in the face of the religious tribalism that can erode democracy from within Mainstream media and Christianity will always be at odds in a democracy That is exactly the way it should be for the good of each one

How to Read Like an Anti-Fascist Annette

Wannamaker, 2025-06-03 On the urgent need to promote critical reading skills amidst rising authoritarianism Children's author Philip Pullman famously said that There are some themes some subjects too large for adult fiction they can only be dealt with adequately in a children's book While the recent rise of fascist ideology in the United States might seem a subject too large and adult to be dealt with in literature for children or teens Annette Wannamaker proposes in *How to Read Like an Anti-Fascist* that there are books aimed at future generations which critique and counter fascist propaganda and mythmaking Works of literature can reflect fascist ideology and promote it as well but Wannamaker proposes that some books also offer tools for understanding it Books written for beginners can introduce readers to complex concepts break big ideas into manageable parts and teach readers how to read the world outside of the book Antifascist books are ones that analyze fascistic rhetoric and storytelling educate about America's long history of authoritarianism and highlight various facets of fascism such as scapegoating others and reasserting patriarchal power From *The Emperor's New Clothes* and the tales of Superman to Mildred Taylor's *Roll of Thunder Hear My Cry* the 1619 Project and contemporary works such as *All Boys Aren't Blue* and *Donald Builds the Wall* Wannamaker shows how the ethos of authoritarianism is characterized by a strict hierarchy that places children at its very bottom In doing so she argues convincingly that books written for young people can provide a particular view from the bottom a perspective well suited to interrogating systems of power

The Arabic Literary

Heritage Roger Allen, 2005-10-17 Roger Allen here offers an account of the cultural tradition of literary texts in Arabic from their unknown beginnings in the fifth century AD to the present day Allen's organising principle is not that of traditional literary histories but is rather based on an account of the major genres of Arabic literature After introductory chapters on

principles and contexts there are chapters devoted to the Qur'an as literature poetry belletristic prose drama and criticism Within each chapter the emphasis is on the texts themselves and those who created and commented on them but Allen also demonstrates his awareness of recent Western theoretical and critical approaches The volume as a whole which contains extensive quotations in English translation a chronology and a guide to further reading makes a major non Western literary tradition newly accessible to students and scholars of the West

Materialist Feminism Rosemary Hennessy, Chrys Ingraham, 1997 During the 1980s capitalism triumphantly secured its global reach anti communist ideologies hammered home socialism's inherent failure the New Left increasingly moved into the professional middle class and many of feminism's earlier priorities were marginalized Identity politics often formulated in terms of social reconstructionism or multiculturalism has increasingly suppressed materialist feminism's systematic perspective replacing it with discourse analysis or cultural politics

Materialist Feminism A Reader argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning making practices in highly industrialized social sectors the exploitation of women's labor and the appropriation of women's bodies that continues to undergird the scramble for profits and state power in multinational capitalism

Play It Again, Sam Andrew Horton, Stuart Y. McDougal, 2024-03-29 This title was originally published in 1998. *Play It Again, Sam* is a timely investigation of a topic that until now has received almost no critical attention in film and cultural studies: the cinematic remake. As cinema enters its second century, more remakes are appearing than ever before, and these writers consider the full range of Hollywood films that have been recycled by Hollywood, such as *The Jazz Singer*, *Cape Fear*, and *Robin Hood*; foreign films including *Breathless* and *Three Men and a Cradle*, which Hollywood has reworked for American audiences; and foreign films based on American works, among them Yugoslav director Emir Kusturica's *Time of the Gypsies*, which is a makeover of Coppola's *Godfather* films. As these essays demonstrate, films are remade by other films. Alfred Hitchcock went so far as to remake his own *The Man Who Knew Too Much*, and by other media as well. The editors and contributors draw upon narrative film and cultural theories and consider gender, genre, and psychological issues, presenting the remake as a special artistic form of repetition with a difference and as a commercial product aimed at profits in the marketplace. The remake flourishes at the crossroads of the old and the new, the known and the unknown. *Play It Again, Sam* takes the reader on an eye-opening tour of this hitherto unexplored territory. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1998.
