Popular Religion Concilium:

Popular Religion and Liberation Michael R. Candelaria, 1990-01-01 El tema del libro es la ambivalencia de la religiosidad popular para la teología de la liberación y para la liberación misma. Enfoca el asunto en dos posiciones de opuesta apreciación de la religiosidad popular: la de Juan Carlos Scannone y la de Juan Ellwood, 2019-10-08. **Introducing Religion** Robert S. Ellwood, 2019-10-08. *Introducing Religion* explores different ways of looking at religion in the twenty-first century. Providing a broad overview to the discipline of religious studies, this textbook introduces students to engaging and contemporary topics such as sociology of religion, psychology of religion, history of religion, religion and art, religious ethics, popular religion, religion and violence. Thoroughly updated throughout this fifth edition, it includes images, further reading, a detailed glossary, case studies, and key terms for revision. This is the essential textbook for students approaching this subject area for the first time.

Religious Diversity in Ancient Israel and Judah Francesca Stavrakopoulou, John Barton, 2010-04-15. This volume of essays draws together specialists in the field to explain, illustrate, and analyze this religious diversity in Ancient Israel.

Popular Religion, Liberation, and Contextual Theology Jacques van Nieuwenhove, Berma Klein Goldewijk, 1991.

The Cambridge History of Religions in Latin America Virginia Garrard-Burnett, Paul Freston, Stephen C. Dove, 2016-04-11. *The Cambridge History of Religions in Latin America* covers religious history in Latin America from pre-Conquest times until the present. This publication is important first because of the historical and contemporary centrality of religion in the life of Latin America; second, for the rapid process of religious change which the region is undergoing; and third, for the region's religious distinctiveness in global comparative terms, which contributes to its importance for debates over religion, globalization, and modernity. Reflecting recent currents of scholarship, this volume addresses the breadth of Latin American religion, including religions of the African diaspora, indigenous spiritual expressions, non-Christian traditions, new religious movements, alternative spiritualities, and secularizing tendencies.

Introducing Religion Robert Ellwood, 2016-10-14. *Introducing Religion 4e* explores the different ways of looking at religion in the twenty-first century. A broad overview to religious studies as a discipline, it introduces students to the various subjects of religion. *Introducing Religion* teaches readers how to think in academic religious studies and its main areas, including sociology of religion, psychology of religion, history of religion, religion and art, ethics, and more. The fourth edition has been expanded with new chapters exploring topics of contemporary interest: myth, spiritual paths, religion and popular culture, religion in the computer age, religion and war. Contemporary topics engage today's students, relating the topics to the changing world around them.

An Intercultural Theology of Migration Gemma Cruz, 2010-01-15. Migration has long been associated with the social sciences. However, as a phenomenon that provides windows into possibly new forms of oppression and, at the same time, paths toward human liberation, a systematic theological look at contemporary migration is long overdue. Building on the emerging interest on migration in theology, this book presents an intercultural theology of migration drawn from the experience of Filipino

women domestic workers in Hong Kong in dialogue with theological ethics and liberationist theologies The result is a new look at the phenomenon of contemporary migration Official and Popular Religion Pieter Hendrik Vrijhof, Jacques Waardenburg, 2019-10-08 No detailed description available for Official and Popular Religion **Mestizo Christianity** Arturo J. Banuelas, 2004-10-29 Mestizo Christianity is the most comprehensive introduction to the work of the principle figures in U S Hispanic theology Protestant as well as Catholic Other anthologies exist but Mestizo Christianity provides the best and most representative writing by each of the fourteen first generation theologians in their areas of specialization Since by every account the Latino Hispanic church will continue to grow well into the twenty first century Mestizo Christianity provides a grounding in an area of increasing theological and pastoral importance Topics include affirming Hispanic culture and theological identity methodology popular religiosity women s voices social ethics spirituality and ecumenical perspectives Also included is a brief biography of each featured author and a comprehensive bibliography of Hispanic theology the only one of its kind Mestizo Christianity will be an indispensable resource for students clergy and pastoral agents **Laity and Participation** Thomas Hoebel, 2006 Right across denominational boundaries lay theology is dominated by negatives the laity simply defined as the non ordained the alleged exclusion of the laity from full participation the sole focus on what they cannot or should not do and above all the total absence of an ecumenical lay theology In a unique approach this volume sets out to find ways of overcoming these negatives so predominant in current lay theology The author explores positions and perspectives put forward in Roman Catholic theology from Vatican II up to the present These are compared and contrasted with concepts and suggestions of present day Anglican Theology as well as with those of liberative theologies in Latin America and Asia Rethinking the content language and metaphors of lay theology in the final part of this volume the author proposes a new image for discussing the Church a model focusing on the interdependence and collaboration of all the people in the Church This is then used to sketch out the framework for a new type of lay theology Imbedded in ecclesiology in the concept of all believers together being the Church the author endeavours to suggest a lay theology that is indeed positive ecumenical and universal *Global Christianity* , 2007-01-01 In 2002 Philip Jenkins wrote The Next Christendom Over the past half century the centre of gravity of the Christian world has moved decisively to the global South says Jenkins Within a few decades European and Euro American Christians will have become a small fragment of world Christianity By that time Christianity in Europe and North America will to a large extent consist of Southern derived immigrant communities Southern churches will fulfil neither the Liberation Dream nor the Conservative Dream of the North but will seek their own solutions to their particular problems Jenkins book evoked strong reactions a bit to his own surprise as the book contained little new In the United States of America the prospect of a more biblical Christianity caused reactions of alarm in liberal circles In contrast conservatives were delighted by the same prospect In Europe the book landed in the middle of the debate on Europe as an exceptional case It was detested by those who stick to the theory of ongoing and

irreversible secularisation and welcomed by those who see a resurgence of religion also in Europe In the present volume scholars of religion and theologians assess the global trends in World Christianity as described in Philip Jenkins book *It is the outcome of an international conference on Southern Christianity and its relation to Christianity in the North* held in the Conference Centre of Radboud University Nijmegen the Netherlands **Local Worship, Global Church** Mark R.

Francis,2014-02-06 How would the history of Roman Catholic worship look if it were viewed first from the perspective of the people in the pews rather than through the deliberations of popes and church councils or the writings of theologians How did the common people down through the ages understand what they were doing when they came together in worship and was this understanding always the same as the official interpretation of the church authorities In *Local Worship Global Church* Mark Francis explores the history of the liturgy from the bottom up rather than from the top down and comes to conclusions that complement our understanding of the history of the liturgy and its relationship to faithful Christians from the first century CE to our own time *World Christianity* Lalsangkima Pachuau,2018-07-17 Christianity is vibrant and growing in

the non western majority world and Christianity is changing as a result Pachuau surveys the current trending approaches to recognizing and investigating world Christianity and explores the salient features of the demographic changes that mark a measurable shift in the center of gravity from the northwest part of the globe to the southern continents This shift is not just geographical World Christianity is ultimately about the changing and diversifying character of Christianity and a renewed recognition of the dynamic universality of Christian faith itself Christianity is a shared religion in that people of different cultures and societies make it their own while being transformed by it Christianity is translatable and adaptable to all cultures while challenging each with its transformative power Pachuau also charts the theological reestablishment of the missionary enterprise founded on understandings of God s mission in the world mission Dei a mission of cross cultural gospel diffusion for missionary advocates in the majority world but one of near neighbor missional engagement for the contagious

Charismatic Christianity of the majority world This book is both a descriptive study and a thoughtful analysis of world Christianity s demographics life representation and thought The book an also gives an account of the historical emergence of World Christianity and its theological characteristics using a methodology that stresses the productive tension between the universal and particular in understanding a fundamentally adaptable Christian faith Radical Christianity Christopher

Rowland,2004-12-09 At different times and places Christian ideas have had a radical critical role and have served as a basis for programs of social change This concise and clearly written book documents the history of radical Christianity by discussing some of the most important developments and figures from the millenarian movements of early Christianity to the liberation theology of today Christopher Rowland begins by discussing the character and transformation of early Christian ideas and the ongoing patterns of protest against the status quo Subsequent chapters deal with the legacy of the Apocalypse and with the work of Thomas Muenzer and Gerrard Winstanley A final chapter on liberation theology examines the role of

religion in Latin America today where basic Christian communities have emerged as power houses of social and political reform Radical Christianity is a reading of recovery which shows that social criticism and hope for a better world are integral features of the Christian tradition The book will be of great interest to students of religion and to anyone concerned with the role of religious ideas in past and present day societies The Music and Dance of the World's Religions E. Rust,1996-08-23 Despite the world wide association of music and dance with religion this is the first full length study of the subject from a global perspective The work consists of 3 816 references divided among 37 chapters It covers tribal regional and global religions and such subjects as shamanism liturgical dance healing and the relationship of music mathematics and mysticism The referenced materials display such diverse approaches as analysis of music and dance description of context direct experience observation and speculation The references address topics from such disciplines as sociology anthropology history linguistics musicology ethnomusicology theology medicine semiotics and computer technology Chapter 1 consists of general references to religious music and dance The remaining 36 chapters are organized according to major geographical areas Most chapters begin with general reference works and bibliographies then continue with topics specific to the region or religion This book will be of use to anyone with an interest in music dance religion or culture Ethnologia Europaea 26:1 Bjarne Stoklund, Frontiers of Hispanic Theology in the United States Allan Figueroa Deck,2017-01-24 With the emerging vitality of the Hispanic church in the United States the voices of Hispanic theology raise a new and vital challenge A bridge between the North American church and the liberation theology of Latin America Hispanic theology reflects on the experience of faith rooted in the cultures histories and hopes of the Hispanic people here in the U S Frontiers of Hispanic Theology in the United States draws on the key figures and explores the central themes of Hispanic theology including such issues as popular religion spirituality liturgy Hispanic feminist perspectives and the meaning of mestizaje as a source of theological reflection What emerges is a truly contextual theology rooted in the unique cultures and tradition of Hispanic Catholics a theology which also issues a wider challenge to the Anglo church and the world theological community

Cruz,2016-04-30 Offering a theology of migration Cruz reflects on the Christian vision of one bread one body one people in view of the gifts and challenges of contemporary migration to Christian spirituality mission and inculturation and the need for reform of migration policies based on the experience of refugees migrant women and others *God and the Crisis of Freedom* Richard Bauckham,2002-01-01 This book outlines a biblical understanding of freedom and the particular ways in which Christians choose to exercise that freedom in response to major issues confronting the world today Specifically Bauckham constructs a Christian understanding of freedom explores the authority of Scripture in modern and postmodern contexts and also examines themes of tradition ethics oppression and ecology as they relate to issues of freedom and authority **Martyrdom and the Politics of Religion** Anna Lisa Peterson,1997-01-01 Martyrdom and the Politics of Religion explores the ways that Salvadoran Catholics sought to make sense of political violence in their

country in the 1970s and 1980s by constructing a theological ethics that could both explain repression in religious terms and propose specific responses to violence Drawing on extensive fieldwork the book highlights the ways that progressive Catholicism offered a justification and tools for political resistance in the face of extraordinary destruction Using the case of Catholicism in El Salvador the book explores the nature of religious responses to social crisis and the ways that ordinary believers construct and strive to live by ethical systems By highlighting the importance of theological belief of narrative and of religious rationality in political mobilization it touches questions of general interest to readers concerned with the social role of religion and ethics
