destruction of the Reformation Medieval angel roofs timber structures with spectacular and ornate carvings of angels with a
peculiar preponderance in East Anglia were simply too difficult for Reformation iconoclasts to reach Angel roof carvings
comprise the largest surviving body of major English medieval wood sculpture Though they are both masterpieces of
sculpture and engineering angel roofs have been almost completely neglected by academics and art historians because they
are inaccessible fixed and challenging to photograph The Angel Roofs of East Anglia is the first detailed historical and
photographic study of the region s many medieval angel roofs It shows the artistry and architecture of these inaccessible and
little studied medieval artworks in more detail and clarity than ever before and explains how they were made by whom and
why Michael Rimmer redresses the scholarly neglect and brings the beauty craftsmanship and history of these astonishing
medieval creations to the reader The book also offers a fascinating new answer to the question of why angel roofs are so
