Theoretical studies of the determinants of migration by skilled persons and the output and welfare effects of such migration on the migrants and the countries of departure and destination The volume measures the numbers of highly skilled migrants from different countries to the U S and Canada with an analysis of policy alternatives International Migration of Physicians and Nurses Riitta-Liisa Kolehmainen-Aitken,1975 311 references to books journal articles and reports as well as to theses dissertations and other unpublished documents Concerns movement of physicians and nurses between 65 countries Mostly English language materials Arrangement by authors under 6 major headings e g Impact of migration Entry gives bibliographical information and annotations Author geographical indexes **Sub-Saharan African Migration** Mr.Jesus R Gonzalez-Garcia,Mr.Ermal Hitaj,Mr.Montfort Mlachila,Arina Viseth,Mustafa Yenice,2016-11-02 Amid rapid population growth migration in sub Saharan Africa has been increasing briskly over the last 20 years Up to the 1990s the stock of migrants citizens of one country living in another country was dominated by intraregional migration but over the last 15 years migration outside the region has picked up sharply In the coming decades sub Saharan African migration will be shaped by an ongoing demographic transition involving an enlargement of the working age population and migration outside the region in particular to advanced economies is set to continue expanding This note explores the main drivers of sub Saharan African migration focusing on migration outside the region as this has greater global spillovers It finds that the economic impact of migration for the region occurs mainly through two channels First the migration of young and educated workers brain drain takes a toll as human capital is already scarce in the region although some recent studies suggest that migration may have also a positive effect brain gain Second remittances represent an important source of foreign exchange and income in a number of sub Saharan African countries contribute to the alleviation of poverty and help smooth business cycles

Contemporary Challenges for Caribbean Economies Terence M. Yhip,Brian Alagheband,2024-09-30 The COVID 19 pandemic laid bare economic weaknesses throughout the Caribbean region and humane standards of living are at risk This book highlights the retooling that must be done to promote economic stability in this important area of the world It contributes to ongoing discourse regarding Caribbean economies and highlights the long term economic challenges that must be addressed to move forward In this book economists Terence M Yhip and Brian Alagheband offer ideas and proposals to reinvigorate economic growth through the adoption of technology and investment in human capital The book explains how to diversify economies by increasing the complexity of exports With a shift in priorities nations will need to raise total factor productivity and potential output The book offers strategies to diversify the production and export of complex goods and services The authors note that the necessary capabilities can take nations decades to build Such investment will require

trade offs and sacrifice Progress cannot and will not be immediate but such modifications will produce meaningful economic returns Contemporary Challenges for Caribbean Economies includes a chapter on the oil future for Guyana a rising economic superstar due to the nation's oil riches that portend either blessing or curse It also includes a chapter written by Tawfik Ramtoolah about the impressive dynamism of the Mauritius economy which transformed from sugar cane monoculture to industrial and financial services diversification

**The Global Dimension of Economic Evolution** Kurt Dopfer, 2012-12-06

This volume on evolutionary approaches to economic development and growth is a member of a family of special volumes that Springer has published on Evolutionary Economics recently The present volume has excellent predecessors There is a special volume on Evolution in Markets and Institutions edited by Ulrich Witt and another on Evolutionary and Neoclassical Perspectives on Market Structure and Economic Growth edited by Yannis Katsoulacos And there are more in the pipeline The volumes already published reflect the broad ranging interests of evolutionary economists and within the scope delineated they are devoted to major research areas of the discipline The editorial intention behind the venture of special volumes has been to bundle together some of the research areas in order to sharpen the problem focus and to generate research synergies within major research fields We may somewhat obviously define a research field by its research topics For the present purpose however we may wish to conceive the research conducted by evolutionary economists as belonging to either a research area that is inspired in its problem perspective by neoclassical economics or to one that is not The very success of the critique of the neoclassical paradigm relied on a preoccupation with its research scope and questions Evolutionary economics has scored marvelously in challenging major neoclassical stands and neoclassical economics may never be quite the same in the future

**Servants in Husbandry in Early Modern England** Ann Kussmaul, 1981-11-12

This book explores servants in husbandry and considers the wider historiographical implications

*World Economic Outlook, October 2016* International Monetary Fund. Research Dept., 2016-10-04 According to the October 2016 World Economic Outlook global growth is projected to slow to 3.1 percent in 2016 before recovering to 3.4 percent in 2017 The forecast revised down by 0.1 percentage point for 2016 and 2017 relative to April's report reflects a more subdued outlook for advanced economies following the June U.K. vote in favor of leaving the European Union Brexit and weaker than expected growth in the United States These developments have put further downward pressure on global interest rates as monetary policy is now expected to remain accommodative for longer Although the market reaction to the Brexit shock was reassuringly orderly the ultimate impact remains very unclear as the fate of institutional and trade arrangements between the United Kingdom and the European Union is uncertain Financial market sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies reduced concern about China's near term prospects following policy support to growth and some firming of commodity prices But prospects differ sharply across countries and regions with emerging Asia in general and India in particular showing robust growth and sub-Saharan Africa experiencing a sharp slowdown In advanced

economies a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent with anti integration policy platforms gaining more traction Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices These worrisome prospects make the need for a broad based policy response to raise growth and manage vulnerabilities more urgent than ever *Testing Global Interdependence* Natalia E. Dinello, Ernest Aryeetey, 2007-01-01 While many countries may embrace globalization at the conceptual level the specifics of implementation vary greatly from country to country This book includes diverse narratives which suggest how to limit globalization s negative aspects and ensure constructive engagement in the global community *The Pervasive Role of Science, Technology, and Health in Foreign Policy* National Research Council, Policy and Global Affairs, Office of International Affairs, Committee on Science, Technology, and Health Aspects of the Foreign Policy Agenda of the United States, 1999-12-09 Issues involving science technology and health STH have moved to the forefront of the international diplomatic agenda Other vital issues linked to technological developments pervade longer range foreign policy concerns Thus STH considerations are often central to the Department of State s bilateral and multilateral interactions with other governments STH aspects play a large role in discussions of such critical topics as nuclear nonproliferation use of outer space population growth adequate and safe food supply climate change infectious diseases energy resources and competitiveness of industrial technologies In addressing these issues expert STH knowledge is essential to the anticipation and resolution of problems and to the achievement of foreign policy goals The Department recognizing that it requires strengthened capabilities to address such an array of topics asked for suggestions by the National Research Council as to how it could better deal with foreign policy issues with STH content **Through the Eyes of Tiger Cubs** Mark L. Clifford, Janet Pau, 2011-12-20 What will Asia look like ten years from now Find out by taking a look through the eyes of the Asia s next generation of leaders Following economic booms in Hong Kong Singapore South Korea and Taiwan the four Asian Tigers attention has shifted to success stories in other Asian economies However a number of challenges have also emerged that could threaten the region s development over the next decade Through the Eyes of Tiger Cubs offers a unique glimpse into the younger generation s view of Asia s future It draws on the perspective of more than 80 visionary young Asians who have identified the key issues and who see innovative solutions for areas as diverse as education and labor markets demographics and healthcare energy and the environment and governance and geopolitics The book s insights are based on a collection of think pieces from a broad range of young Asians the result of a competition organized by the Asia Business Council Time magazine the Lee Kuan Yew School of Public Policy at the National University of Singapore as well as additional research by the Council The book is unique in that it Provides a viewpoint in contrast to the usual perspective of businesses governments economists and journalists Brings together the responses of almost a hundred young Asian thinkers to the questions What is the biggest challenge facing Asia over the next ten years Why and What should be done about it Offers policy makers business leaders

and others who are concerned about the future of Asia a unique glimpse into the younger generation's vision The next generation has a high stake in ensuring Asia's long term growth Gain a unique perspective on how the leaders of tomorrow see the future

**The Economics of Immigration** Örn B. Bodvarsson, Hendrik Van den Berg, 2013-05-17 The Economics of Immigration is written as both a reference for researchers and as a textbook on the economics of immigration It is aimed at two audiences 1 researchers who are interested in learning more about how economists approach the study of human migration flows and 2 graduate students taking a course on migration or a labor economics course where immigration is one of the subfields studied The book covers the economic theory of immigration which explains why people move across borders and details the consequences of such movements for the source and destination economies The book also describes immigration policy providing both a history of immigration policy in a variety of countries and using the economic theory of immigration to explain the determinants and consequences of the policies The timing of this book coincides with the emergence of immigration as a major political and economic issue in the USA Japan Europe and many developing countries

*Reforming the United Nations [electronic resource]* Joachim Müller, 2006 The United Nations is in need of reform There has always been widespread agreement that this is the case indeed throughout the 60 year history of the Organization Differences over the best cure reflect the political confrontation between its 191 member states The institution has been criticized to lack legitimacy to need accountability and to be inefficient with a bloated bureaucracy Recently allegations of mismanagement and corruption in the Oil for Food Program have led to a crisis of confidence The public debate followed reform initiatives for enlarging the Security Council achieving the Millennium Development Goals and establishing new collective mechanisms to protect human rights counter terrorism and respond to crimes against humanity Strengthening oversight governance and management practices aimed at introducing fundamental institutional changes The publication describes the reform process leading to the United Nations Summit in September 2005 The achievements remain disappointing with the failure to approve a grand bargain A number of recommendations are put forward to facilitate the reform process in the United Nations realising however that this will remain cumbersome and a lengthy step by step effort

*UN Millennium Development Library: Overview* UN Millennium Project, 2019-06-27 This book presents the findings recommendations of the UN Millennium Project to achieve the Millennium Development Goals MDGs It describes the importance of the MDGs and gives an explanation of the progress The book provides recommendations to be implemented at the country level

**Auszug Des Geistes** G. Beijer, 1972-01-01 In 1967 S Dedijer and L Svenningsson published their famous bibliography Brain Drain and Brain Gain Lund 1968 index of authors countries and regions It contained 415 items from 40 countries and appeared at a time when the debate about the advantages and disadvantages of the brain drain was at its most intense But the brain drain is still not a thing of the past certainly not for Europe The European countries and those of the rest of the world are in different stages of transition Industrialization has generally been associated on the one hand with

ever more rapid forms of transportation and other forms of communication a long range rise in the per capita income the exodus from the countryside to the cities and an enormous urbanization process and the demand for improved social and economic security on the other But these characteristics tend to be more relative than absolute It is not possible to make a distinct division between developed nations and countries in various stages of development All countries are constantly undergoing change and are in transition with respect to development The constant migration of skilled workers and especially the search for better training and working conditions on the part of academically trained people is inseparable from this process of transition i e from the phenomenon of long range permanent change Fortunately this is not as deplorable as some observers would make it appear to be

**Globalization and International Development** H.E. Baber, Denise Dimon, 2013-08-19 This new anthology offers a wide selection of readings addressing the contemporary moral issues that arise from the division between the Global North and South the problem of the color line that W E B Du Bois identified at the beginning of the twentieth century and which on a scale that Du Bois could not have foreseen is the problem of the twenty first The book is interdisciplinary in scope In addition to standard topical essays in ethical theory by philosophers such as Anthony Appiah Martha Nussbaum and Peter Singer it contains essays from economists such as Amartya Sen Joseph Stiglitz and Thomas DeGregori as well as current empirical data from the World Bank IMF United Nations and other sources

*The Executive Guide to Implementing Quality Systems* Peter Mears, Frank Voehl, 2022-01-26 Presenting an unusual and unique system for Continuous Quality Improvement CQI this new book is geared for executives who want or need to support quality improvement in their organizations It is the contributions made by CEO s and upper management that moves the quality process forward and because of this structure *The Executive Guide to Implementing Quality* focuses on the concepts thinking and systems necessary for management to operationalize the CQI philosophy Because quality is not a management problem but rather a problem that involves and requires all people working together at all levels to participate and cooperate management must engage the organization in the processes that will improve the quality of their goods or services It is however management s job to lead organize structure motivate and involve the organization in those strategies and systems that will ensure quality improvement This book explains how to do that Readers are given a series of exercises and explanations that will help them master the skills and understanding required to identify the management systems they need to support their quality improvement After reading about a concept they are asked to contribute to exercises designed to inspire creative and innovative thinking and the exploration of multi functional options And because it is the job of management to initiate the quality movement this book shows how to change defensive thoughts like that won t work for me into what is there that will work here In addition to showing management how to take the lead in installing CQI in their organization it also shows how to install the concepts through leadership teams how to bring out the best in people how to get top performance from employees and become a world class organization and how to reinforce the behaviors necessary to

achieve the visions and goals of the organization This workbook is an easy and quick to use guide that shows how to identify the support systems that generate desirable outcomes and reinforces them through positive actions      The Other Hong Kong Report 1994 Donald McMillen, Si-wai Man, 1994
