National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1984 **India's Perception, Society, and Development** Arup Maharatna, 2013-05-09 There has been of late a growing realisation that the pace and pattern of economic development of a country can hardly be understood and explained comprehensively in terms of the straitjacket of economics discipline alone India is a prime example of the importance of the part played by a country's history culture sociology and socio cultural religious norms values and institutions in its development process This book with its assorted essays of varying depths of scholarship and insightful reflections attempts to drive home this point more forcefully than ever before In its search for the non economic roots of India's overall sloth and murky progress in its broad based economic and human development the book illuminates major oddities deep inside a unique mental make up full of perceptual and ideational dilemmas many of which are arguably shaped by the long lasting and dominant influence of what could be called the Brahminical lines of thinking and discourse With India's hazy and dodgy world of perceptions as a backdrop the book also addresses through its intelligent essays the deep and sometimes dire ramifications of the historic advent and the dramatic advance of neoliberal market ideology today **Sustainable Livelihoods in Kalahari**

Environments Deborah Sporton, David S. G. Thomas, 2002 This edited collection provides a comprehensive overview of the dynamics of contemporary natural resource based livelihoods and implications for their sustainability in the context of the Kalahari environment of southern Africa a region subject to marked spatial and temporal natural variability Each chapter is

written by an active Kalahari researcher and addresses from an environmental or a social perspective the implications of different policies for rural livelihoods and coping strategies In each chapter one or more of the key tenets of environment policy and structural land use change provides the central element around which the sustainable livelihoods theme is considered Although the focus of the book is the Kalahari introductory and concluding chapters in turn contextualise the research and discuss key enviro development issues which resonate across the individual chapters with relevance for wider global debates Medical Geography (Routledge Revivals) Michael Pacione,2014-06-17 Geographers have for a long time contributed much valuable detailed data on the geographical patterns of disease and health care delivery to the medical world On its first publication in 1985 this edited collection addressed the need for a review of progress in the field of medical geography that could also shape further developments Topics under discussion include national systems of health care the utilisation of health services medical planning and medical geography in the developing world This is a comprehensive volume that is it still of great relevance to today s students of medical geography health care and demography

Anthropology of Breast-Feeding Vanessa Maher,2024-11-01 On the whole the debates surrounding the issues of breast feeding often reflecting ethnographic and ill informed medical and demographic approaches have failed to treat the deeper issues The significance of breast feeding reaches far beyond its biological function in fact the authors of this volume argue there is nothing natural about breast feeding itself On the contrary attitudes and practices are socially determined and breast feeding has to be seen as an essential element in the cultural construction of sexuality This volume offers an ethnography of breast feeding by examining cultural norms and practices in a number of European and non European societies thus presenting valuable and often astonishing empirical material that is not otherwise readily available The highly original focus of this volume therefore throws new light on gender and on social relationships in general **Population And**

Environment Lourdes Arizpe,M. Priscilla Stone,David Major,Priscilla Stone,2019-06-04 This ambitious interdisciplinary volume places population processes in their social political and economic contexts while it considers their environmental impacts Examining the multi faceted patterns of human relationships that overlay alter and distort our ties to urban and rural landscapes the book focuses especially on the essential experi **The Ecosystem Approach in Anthropology** Emilio F.

Moran,1990 A reassessment of the ecosystem concept for anthropology *Culture and the Changing Environment* Michael J. Casimir,2009 Today human ecology has split into many different sub disciplines such as historical ecology political ecology or the New Ecological Anthropology The latter in particular has criticised the predominance of the Western view on different ecosystems arguing that culture specific world views and human environment interactions have been largely neglected However these different perspectives only tackle specific facets of a local and global hyper complex reality In bringing together a variety of views and theoretical approaches these especially commissioned essays prove that an interdisciplinary collaboration and understanding of the extreme complexity of the human environment interface s is possible **Is Violence**

Inevitable in Africa? ,2005-06-01 This volume is an attempt to analyse the causes of violent conflict in Africa to review the various approaches to conflict prevention and conflict resolution and to discuss some of the practical difficulties in ending violence It brings together a wide range of scholars and practitioners with specialist knowledge of a large number of African countries The intention here is to provide a survey of the various approaches to conflict in Africa a systematic discussion of some of the root causes of violence as well as case studies on the consequences of violence and the effects of conflict resolution

Economic Spaces of Pastoral Production and Commodity Systems Richard Le Heron,2016-04-29 Pastoralism as a land use system is under recognized in terms of its contribution to food provision livelihoods as well as to human security This book is the first attempt to explore the dynamics of economic spaces of pastoral production and commodity systems for explicit South and North positionings It develops and applies a new approach in combining agri food market and commodity chain perspectives with livelihood approaches This enables new understandings of re aligning exchange relations between the global south and the global north The case studies presented open up new empirical insights in largely under researched areas such as Afghanistan Chad Tibet and Siberia and very recent changes in industrialized economies with major pastoral sectors The book reveals new evidence and theoretical insights about significant changes in established producer consumer relations in agriculture and food

Promoting Rural Livelihoods Through Agrobiodiversity ,2001 Animal Husbandry in Ancient Israel Aharon Sasson,2016-04-08 Animals have been used to human advantage for thousands of years Animal Husbandry in Ancient Israel presents an analysis of caprines and cattle husbandry in the Southern Levantine Bronze and Iron Age The book employs key methodological approaches comparative analysis taphonomy Geographic Information System spatial analysis and ethnographic studies to challenge prevalent views on the Southern Levantine ancient economy Animal Husbandry in Ancient Israel argues that the key concern of nomadic rural and urban populations was survival the common household maintained a self sufficient economy rather than profit specialization or trade The book will be of value to all those interested in the dynamic relationship between humans and animals in ancient Israel
