Population Under Duress Geodemography Of Post Soviet Russia:

Population Under Duress George J Demko, 2018-03-05 The demographic history of twentieth century Russia has been marked by a series of tragedies Calamitous wars revolutions civil strife and political murders have resulted in unparalleled mortality rates depressed fertility rates and sadly unprecedented demographic patterns of all types This volume explores the most recent problems afflicting the Russian population in the post Cold War era The demise of the Soviet Union has brought new hardships the collapse of the health care system internal strife and economic disruptions to the people and has deeply affected demographic processes throughout Russia The contributors explore key trends from increasing mortality rates and decreasing birth rates to refugee flows into Russia and the brain drain out of Russia Problems of aging increased infant mortality and urban and rural population change are discussed in detail for each major region Rarely has there been a better opportunity to examine the spatial economic psychological and political factors contributing to demographic stress in a current setting These demographic processes are not only unique as a domestic social phenomenon but are also immensely significant in their global impact influencing international migration and foreign aid

Population Under Duress George J Demko, Steven K Pontius, Zhanna Zaionchkovskaya, 1999-04-09 The demographic history of twentieth century Russia has been marked by a series of tragedies Calamitous wars revolutions civil strife and political murders have resulted in unparalleled mortality rates depressed fertility rates and sadly unprecedented demographic patterns of all types This volume explores the most recent problems afflicting the Russian population in the post Cold War era The demise of the Soviet Union has brought new hardships the collapse of the health care system internal strife and economic disruptions to the people and has deeply affected demographic processes throughout Russia The contributors explore key trends from increasing mortality rates and decreasing birth rates to refugee flows into Russia and the brain drain out of Russia Problems of aging increased infant mortality and urban and rural population change are discussed in detail for each major region Rarely has there been a better opportunity to examine the spatial economic psychological and political factors contributing to demographic stress in a current setting These demographic processes are not only unique as a domestic social phenomenon but are also immensely significant in their global impact influencing international migration and foreign aid

Gendering Post-Soviet Space Tatiana Karabchuk, Kazuhiro Kumo, Kseniia Gatskova, Ekaterina Skoglund, 2021-02-01 This volume combines approaches from three disciplines economics sociology and demography and empirically analyzes the key aspects of the labor market and social demography processes in post Soviet transitional societies while focusing on the gender perspective Here readers will find empirical studies on such countries as Armenia Azerbaijan Belarus Estonia Georgia Kazakhstan Kyrgyzstan Russia Tajikistan Ukraine and Uzbekistan The volume contributes to the literature by addressing the lack of academic empirical research on gender difference issues in the labor markets of post Soviet countries as well as gender inequalities in fertility preferences gender disparities among the youth and elderly the gender pay gap gender differences in employment and female voices The

book brings together researchers of different disciplines from a variety of countries distinguishing this project as international and interdisciplinary The authors use the quantitative survey micro data approach as well as the qualitative methods of interview data analysis to provide a comprehensive and detailed overview of the economic and social developments in the region regarding gender differences The volume consists of three parts tackling the following topics 1 gender differences and demography family formation and fertility youth and elderly employment 2 gender differences and labor market gender wage gap motherhood wage penalty gender differences among freelancers and women in STEM science and 3 gender differences well being and gender equality attitudes women s voices women s collective actions gender equality attitudes and spending patterns of housewives

Political Organization in Central Asia and Azerbaijan Vladimir Babak, Demian Vaisman, Aryeh Wasserman, 2004-11-23 This work contains a selection of annotated documents including party platforms and declarations of the major political groupings in the Islamic republics of the former Soviet Union The book covers primarily the period from 1991 to 1994 which can be characterized as the first stage in the formation of a pluralistic society in these emerging states Two divergent trends of developments can be identified from the sources the first is a tendency toward the creation of independent states based on traditional models the other towards independent states with Western style democracies and pro Russian orientation

Urban Growth in Emerging Economies Gordon McGranahan, George Martine, 2014-04-29 Along with globalization urban transitions have been central in the southward shift in economic power towards the newly emerging economies As this book shows however these transitions have not been painless and it is important for the rest of the urbanizing world to learn from the mistakes It examines the role of urbanization and urban growth in the emerging economies taking the BRICS countries Brazil Russia India China and South Africa as case studies Their different approaches towards urbanization have shaped their historical development paths and assisted or constrained their futures Several of the BRICS bear heavy burdens from past failures to accommodate urban growth inclusively and efficiently and many other urbanizing countries in Asia and Africa are in danger of replicating their mistakes The overriding lesson of the book is that cities and nations must anticipate urbanization and accommodate urban growth pro actively so as not to be left with an enduring legacy of inequalities and lost opportunities This book is aimed at students and researchers in urban studies and development studies It will also be of interest to policy advisors concerned with urbanization and the role of cities in a country s development

Global Ageing in the Twenty-First Century Zachary Zimmer, 2016-04-22 Population ageing a growth in the proportion of a population that is in older age is now occurring in every region and nearly every country of the world Indeed the growth of older populations is among the important global phenomena of the twenty first century It poses both opportunities and challenges for societies and policy makers but these are far from uniform worldwide Dynamic factors are at work impacting on how ageing will influence people places and policies and there are large variations in the rate and timing of population ageing across countries owing to

differing social health and economic circumstances and a variety of policy options from which to choose Given this variation in the context of global ageing as a backdrop this edited book focuses on three overarching themes that are among the most critical to understand if societies are to age successfully in the twenty first century and beyond Healthy ageing and health care the ageing workforce retirement and the provision of pensions shifting intergenerational relations These three themes are cross cut by other dimensions that are intertwined with the dynamic processes of ageing such as immigration emigration contrasting policy regimes and global and national economic forces This ground breaking book will be of interest to all scholars students and policy makers working within this area of study Fragile Migration Rights Matthew

Light,2016-03-10 The Soviet Union comprehensively governed the mobility of its citizens by barring emigration and strictly regulating internal migration In the aftermath of the Soviet collapse the constitution and laws of the new Russian Federation appeared to herald a complete break with the repressiveness of the previous government Russian law now proclaims the right of Russian citizens and residents to move around their country freely This book examines how and why this post Soviet legal promise of internal freedom of movement has been undermined in practice by both federal and regional policies It thereby adds a new dimension to scholarly understanding of the nature of rights citizenship and law enforcement in contemporary Russia Most contemporary works focus on the attempts of developed Northern countries to regulate migration from the global South to the global North here Matthew Light examines the restriction of migration within Soviet and post Soviet Russia providing a comprehensive view into an area rarely explored within migration scholarship Fragile Migration Rights develops a comprehensive theoretical framework to analyse this complex subject It is essential reading for students and academics from a range of disciplines including criminology human rights migration studies and political science

Small-town Russia Anne White,2004 This book examines a number of key questions about social change in contemporary Russia issues such as how people survive when they are not paid for months on end the New Poor the falling birth rate why so many Russian men die in middle age whether regional identities are becoming stronger and how people s sense of Russianness has developed since the creation of the Russian Federation in 1992 It examines these issues by looking at actual experiences in three small Russian towns It includes a great deal of original ethnographic research and by looking at real places overall provides a good sense of how different aspects of social change are interlinked and how they actually affect real people s lives *Dire Demographics* Julie DaVanzo,Clifford Anthony Grammich,2001 Presents a Rand study of

Engelmann,2016-04-18 Rural Development in Eurasia and the Middle East Land Reform Demographic Change and Environmental Constraints **Unmaking Russia's Abortion Culture** Michele Rivkin-Fish,2024-11-25 As the predominant

form of birth control in Soviet society abortion reflected key paradoxes of state socialism women held formal equality but lacked basic needs such as contraceptives With market reforms Russians enjoyed new access to Western contraceptives and

new pressures to postpone childbearing until economically self sufficient But habits of family planning did not emerge automatically they required extensive physician retraining public education and cultural transformation In *Unmaking Russia's Abortion Culture* author Michele Rivkin Fish examines the creative strategies of Russians who promoted family planning in place of routine abortion Rather than emphasizing individual rights they explained family planning's benefits to the nation its potential to strengthen families and prevent the secondary sterility that resulted when women underwent repeat poor quality abortions Still fierce debates about abortion and contraceptives erupted as declining fertility was framed as threatening Russia's demographic sovereignty Although Russian family planners embraced a culturally meaningful liberalism that would rationalize public policy and reenchant relations nationalist opponents cast family planning as suspicious for its association with the individualistic child free West This book tells the story of how Russian family planners developed culturally salient frameworks to promote the acceptability of contraceptives and help end routine abortion It also documents how nationalist campaigns for higher fertility denounced family planning and ultimately dismantled its institutions By tracing these processes *Unmaking Russia's Abortion Culture* demonstrates the central importance of reproductive politics in the struggle for liberalizing social change that preceded Russia's 2022 descent into war repression and global marginalization *The Russian Far East and Pacific Asia* M. J. Bradshaw, 2013-07-04 This major study assesses prospects for economic recovery in the Russian Far East evaluating foreign trade and investment political and economic forces patterns of resource supply and needs in Pacific Asia and potential competitors It concludes that this unfulfilled potential has as much to do with conditions in Russia as the downturn caused by the Asian crisis *ECSM 2020 8th European Conference on Social Media* Dr Christos Karpasitis, 2020-07-01 These proceedings represent the work of contributors to the 7th European Conference on Social Media ECSM 2020 supported by UCLan Cyprus Larnaca on 2-3 July 2020 The Conference Chair is Dr Christos Karpasitis and the Programme Chair is Mrs Christiana Varda from the University of Central Lancashire Cyprus UCLan Cyprus ECSM is a relatively new but well established event on the academic research calendar Now in its 7th year the key aim remains the opportunity for participants to share ideas and meet The conference was due to be held at UCLan Cyprus but unfortunately due to the global Covid 19 pandemic it was moved online to be held as a virtual event The scope of papers will ensure an interesting conference The subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research **The European Culture Area** Terry G. Jordan-Bychkov, Bella Bychkova Jordan, 2002 Now in its fourth edition this leading text has been extensively revised to reflect the sweeping changes the past decade have brought to Europe and to incorporate new research in the field Employing a richly topical rather than a mechanistic region by region approach the book simultaneously presents the overarching unity of Europe as a human entity and its underlying internal diversity Inclusive intellectual rich in ideas lively controversial humanistic and above all interesting *The European Culture Area* is the text of choice for courses on the geography of Europe Visit our website for sample chapters *Women's Health*
