Global Prescriptions Rosalind P. Petchesky, 2003-08 Global Prescriptions is a critical yet optimistic analysis of the role of transnational women's groups in setting the agendas for women's health in international and national settings The book reviews a decade of women's participation in UN conferences transnational networks national advocacy efforts and sexual and reproductive health provision assessing both their strengths and weaknesses It critiques the Cairo Beijing and Copenhagen conference documents and World Bank WHO and health sector reform policies It also offers case studies of national level reform and advocacy efforts and appraises the controversy concerning TRIPS trade and essential AIDS drugs The author takes into account the formidable political and ideological forces confronting global justice movements and also offers a sobering reassessment of transnational women's NGOs themselves and such problems as NGOization fragmentation and donor dependency Petchesky argues that the power of women's transnational coalitions is only as great as their organic connection with grassroots social movements

Living with Water Paul Pechan, Gert E. de Vries, 2012-12-12 The factors affecting water quality are many The increasing buying power and health concerns of the world population contribute to the creation of new products whose production and disposal lead to the release of chemicals harmful to the environment the ever growing world population requires a steady food supply which increases the pressure to use even more chemicals to control various crop pests and due to climate change head waters rivers and oceans are becoming increasingly warmer acidic and eutrophic as the result of carbon dioxide overload Using specific examples Water Quality and Resource Management will address the many challenges of providing clean water to the growing world population It will also discuss the new technologies that are being developed for example to treat and reuse waste waters and the innovative monitoring approaches that help scientists to assess water quality risks Such risk assessments are urgently needed to help draft legislations and allow enforcement to ensure accessibility to quality water for all The structure of the book will be the following Each chapter will provide information about a specific water environment and the challenges it faces This will be followed by discussion of the pollution effects and actions taken to redress the situation Finally future trends will be discussed

Ahead of the Curve? Louis Emmerij, Richard Jolly, Thomas G. Weiss, 2001-07-22 Ideas and concepts are arguably the most important legacy of the United Nations Ahead of the Curve analyzes the evolution of key ideas and concepts about international economic and social development born or nurtured refined or applied under UN auspices since 1945 The authors evaluate the policy ideas coming from UN organizations and scholars in relation to such critical issues as decolonization sustainable development structural adjustment basic needs human rights women world employment the transition of the Eastern bloc the role of nongovernmental organizations and global governance The authors find that in many instances UN ideas about how to tackle problems of global import were

sound and far sighted although they often fell on the deaf ears of powerful member states until it was apparent that a different approach was needed The authors also identify important areas where the UN has not stood constructively at the fore

Sustainable Development Goals and the Catholic Church Katarzyna Cichos,Jarosław A. Sobkowiak,Ryszard F. Sadowski,Beata Zbarachewicz,Radosław Zenderowski,Stanisław Dziekoński,2020-11-29 This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nation s UN Sustainable Development Goals SDGs With Pope Francis Laudato si encyclical Catholicism seems to be engaging more than ever with environmental and developmental concerns However there remains the question of how these theological statements will be put into practice The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development Therefore with the use of the comparative method this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN s 17 SDGs are addressed by Catholic Social Teaching Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda

2030 Goals as well as assessing how and if it can contribute to shaping the contemporary concept of global development
Examining the potential level of cooperation between the international community and the Catholic Church in the
implementation of the Agenda 2030 Goals this volume will be of keen interest to scholars of Catholic Studies Religious
