Population Growth and Policies in Mega-cities, 1987 **Population Growth and Policies in Mega-Cities :**
Madras Nations Unies. Département des affaires économiques et sociales internationales, 1987 **Mega-city Growth and the Future** Roland J. Fuchs, 1994 This book examines a range of issues related to the mega city phenomenon Part one deals with the growth of mega cities and explores demographic issues labour force change in the big cities of Asia the effect of macroeconomic forces on the world city system and the relations between technology and the city In part two the discussion focuses on the economic and social consequences of mega city growth Part three looks at the crucial issue of the management of mega cities taking up such issues as infrastructure financing land and shelter needs transportation and environmental management The final chapter examines priority urban management issues in developing countries and derives a research agenda for the 1990s Adapt du r sum de l diteur **Mega Urban Regions of Southeast Asia** Ira M. Robinson, 2011-11-01 A distinguishing feature of recent urbanization in the ASEAN countries of Thailand Malaysia the Philippines Singapore and Indonesia is the outward extension of their mega cities Bangkok Jakarta Manila Singapore and Kuala Lumpur beyond the metropolitan borders resulting in the establishment of new towns industrial estates and housing projects in previously rural areas This process has both positive and negative effects On one side household incomes and employment opportunities are increasing but on the other the growth often causes serious problems in terms of environmental deterioration conflicting land uses and inadequate housing and service provisions Mega Urban Regions of Southeast Asia is the first comprehensive work on the subject of ASEAN mega urban regions The contributors review T G McGee's original idea of desakota zones and offer arguments both for and against this concept making a significant contribution to our understanding of the true face of ASEAN cities The book brings together authors from around the world and will be of interest to a wide audience including demographers urban planners geographers sociologists economists civil servants and development consultants *Third World Cities* John D. Kasarda, Allan M. Parnell, 1993 Gathering an internationally renowned group of scholars in urbanization and development studies this work explores the impact of internal and international migration on cities in the Third World Vital issues such as demographic trends economic development environmental impact welfare and housing policy are examined across a variety of geographic locations The book will be an invaluable resource for anyone engaged in policy or programme work in Third World development **International Handbook of Urban Policy** H. S. Geyer, 2011 This important Handbook reveals that most urban growth takes place in the less developed world and much of it represents over urbanization that is urbanization in which most migrants cannot effectively compete for employment cannot find adequate shelter and do not have the means to feed themselves properly Yet compared to rural poverty urban poverty is widely regarded as the lesser of the two evils H S Geyer and his contributors highlight the enormous challenges posed by urbanization to decision makers at all levels of government This final volume in a

series of three original reference works covers four broad themes including urban growth patterns spatial issues policy issues and urban growth determinants The chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers interested in international urban development issues
