Hon. Sir.), 1810 *David the Invincible Commentary on Porphyry's Isagoge* Gohar Muradyan, 2014-11-27 The Armenian version of David the Invincible's Commentary on Porphyry's Isagoge although extremely literal is shorter by a quarter than the Greek original and contains revised passages The Greek text reproduces Busse's edition 1904 but sometimes preference is given to readings in the apparatus corroborated by the Armenian version The Armenian text is based on Arev atyan's edition 1976 but seven more manuscripts have been consulted and some varia lectiones confirmed by the Greek original have been included in the text The English translation is from the Armenian version The passages of the Greek text without Armenian equivalent are translated into English as well Also the book contains Armenian marginal scholia **The Commonwealth of Nature: Art and Poetic Community in the Age of Dante** , *Signing the Body* Katherine Dauge-Roth, 2019-11-14 The first major scholarly investigation into the rich history of the marked body in the early modern period this interdisciplinary study examines multiple forms uses and meanings of corporeal inscription and impression in France and the French Atlantic from the late sixteenth through early eighteenth centuries Placing into dialogue a broad range of textual and visual sources drawn from areas as diverse as demonology jurisprudence mysticism medicine pilgrimage commerce travel and colonial conquest that have formerly been examined largely in isolation Katherine Dauge Roth demonstrates that emerging theories and practices of signing the body must be understood in relationship to each other and to the development of other material marking practices that rose to prominence in the early modern period While each chapter brings to light the particular histories and meanings of a distinct set of cutaneous marks devil's marks on witches demon's marks upon the possessed devotional wounds Amerindian and Holy Land pilgrim tattoos and criminal brands each also reveals connections between these various types of stigmata links that were obvious to the early modern thinkers who theorized and deployed them Moreover the five chapters bring to the fore ways in which corporeal marking of all kinds

interacted dynamically with practices of writing on imprinting and engraving paper parchment fabric and metal that flourished in the period together signaling important changes taking place in early modern society Examining the marked body as a material object replete with varied meanings and uses Signing the Body Marks on Skin in Early Modern France shows how the skin itself became the register of the profound cultural and social transformations that characterized this era

Ideography and Chinese Language Theory Timothy Michael O'Neill, 2016-07-11 This book is a much needed scholarly intervention and postcolonial corrective that examines why and when and how misunderstandings of Chinese writing came about and showcases the long history of Chinese theories of language Ideography as such assumes extra linguistic trans historical universal ideas which are an outgrowth of Platonism and thus unique to European history Classical Chinese discourse assumes that language and writing is an arbitrary artifact invented by sages for specific reasons at specific times in history Language by this definition is an ever changing technology amenable to historical manipulation language is not the House of Being but rather a historically embedded social construct that encodes quotidian human intentions and nothing more These are incommensurate epistemes each with its own cultural milieu and historical context By comparing these two traditions this study historicizes and decolonializes popular notions about Chinese characters exposing the Eurocentrism inherent in all theories of ideography Ideography and Chinese Language Theory will be of significant interest to historians sinologists theorists and scholars in other branches of the humanities
