Portraits From Memory:

Portraits from Memory Bertrand Russell, 2020-11-29 I have come to think that one of the main causes of trouble in the world is dogmatic and fanatical belief in some doctrine for which there is no adequate evidence Bertrand Russell *Portraits from Memory* *Portraits from Memory* is one of Bertrand Russell's most self-reflective and engaging books Whilst not intended as an autobiography it is a vivid recollection of some of his celebrated contemporaries such as George Bernard Shaw Sidney and Beatrice Webb and D H Lawrence Russell provides some arresting and sometimes amusing insights into writers with whom he corresponded He was fascinated by Joseph Conrad with whom he formed a strong emotional bond writing that his *Heart of Darkness* was not just a story but an expression of Conrad's philosophy of life There are also some typically pithy Russellian observations H G Wells derived his importance from quantity rather than quality whilst after a brief and fraught friendship Russell thought D H Lawrence had no real wish to make the world better but only to indulge in eloquent soliloquy about how bad it was This engaging book also includes some of Russell's customary razor sharp essays on a rich array of subjects from his ardent pacifism liberal politics and morality to the ethics of education the skills of good writing and how he came to philosophy as a young man These include *A Plea for Clear Thinking* *A Philosophy for Our Time* and *How I Write* *Portraits from Memory* is Russell at his best and will enthrall those new to Russell as well as those already well acquainted with his work This Routledge Classics edition includes a new foreword by the Russell scholar Nicholas Griffin editor of *The Selected Letters of Bertrand Russell*

Centre and Periphery, Roots and Exile Friedemann Sallis, Robin Elliott, Kenneth DeLong, 2012-08-06 This book examines the impact

place and displacement can have on the composition and interpretation of Western art music using as its primary objects of study the work of István Anhalt 1919–2012 György Kurtág 1926 and Sándor Veress 1907–92. Although all three composers are of Hungarian origin their careers followed radically different paths. Whereas Kurtág remained in Budapest for most of his career, Anhalt and Veress left the former in 1946 and immigrated to Canada and the latter in 1948 and settled in Switzerland. All three composers have had an extraordinary impact in the cultural environments within which their work took place. In the first section Place and Displacement contributors examine what happens when composers and their music migrate in the culturally complex world of the late twentieth century. The past one hundred years produced record numbers of refugees and this fact is now beginning to resonate in the study of music. As Anhalt himself forcefully asserts, however, not all composers who emigrate should be understood as exiles. The first chapters of this book explore some of the problems and questions surrounding this issue. Essays in the second section Perspectives on Reception Analysis and Interpretation look at how performing acts of interpretation on music implies bringing the time, place and identity of the musician, the analyst and the teacher to bear on the object of study. Like Kodály, Kurtág considers his work to be naturally embedded in Hungarian culture, but he is also a quintessentially European artist. Much of his production, he is one of the twentieth century's most prolific composers of vocal music, involves the setting of Hungarian texts, but in the late 1970s his cultural horizons expanded to include texts in Russian, German, French, English and ancient Greek. The book explores how musicologists' divergent cultural perspectives impinge on the interpretation of this work. The final section The Presence of the Past and Memory in Contemporary Music examines the impact time and memory can have on notions of place and identity in music. All living art taps into the personal and collective past in one way or another. The final four chapters look at various aspects of this relationship.

Memory and Identity in the Learned World Koen Scholten, Dirk van Miert, Karl A.E. Enenkel, 2022-03-16. Memory and Identity in the Learned World offers a detailed and varied account of community formation in the early modern world of learning and science. The case studies in this book analyse how learned communities and individuals presented and represented themselves, for example in letters, biographies, histories, journals, opera omnia, monuments, academic travels and memorials. By bringing together the perspectives of historians of
