Historiography in Saudi Arabia Jörg Matthias Determann,2013-10-25 Saudi Arabia is generally and justifiably viewed as a country with some of the fewest democratic institutions and the weakest traditions of pluralism It is therefore surprising to learn that at least in one corner of the Saudi world there can be found a plurality of opinions and lively debate Jorg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia historical writing Since the 1920s local tribal Shi i and dynastic histories have contributed to a growing plurality of narratives Paradoxically

this happened because of the expansion of the Saudi state including state provision of mass education It was also due to globalizing processes such as the spread of the internet In challenging the widely held perception of Saudi Arabia as an irredeemably closed and monolithic society Historiography in Saudi Arabia provides a deeper understanding of modern Arab historiography the Saudi state and education and scholarship in the Middle East **The Medical Missionary** ,1898
