Book jacket

**Tactics Made Simple** Jon Emmett, 2019-03-05 Olympic gold medallist and multiple world champion Paul Goodison explains why this book is important if you want to win races. He says To win sailboat races you need to sail the boat fast. This comes down to hours on the water training and tuning there are few shortcuts to hours of practising on the water. To consistently win races you need to sail fast and smart making the right decisions to sail the best course. If you are not the fastest boat you are still able to win races and regattas by managing risk and sailing smart. This is where good tactics come in. But unlike boatspeed tactics may be learnt by thinking about each leg of the course and different situations from the comfort of your own home. Jon Emmett's new book *Tactics Made Simple* is a great tool to help fast track this learning. This book explains simply through hundreds of diagrams what tactics can be applied around the race track. Individual boats in each scenario are given names so that you can easily understand what they are doing. Individual chapters take you around the race course from before you get on the water through the pre start start different legs and manoeuvres. Each section contains detailed advice for the beginner intermediate and advanced sailor so

you can just look at the level of tactics relevant to you Ideal for dinghy sailors there is also a wealth of advice that will benefit yachtsmen This is a practical way to improve your racing results whether starting out moving up the club circuit or competing at national level and beyond Originally published by Wiley Nautical as Be Your Own Tactics Coach

sailing together or a skipper with a novice crew he may have lots of people onboard but in terms of the sailing he is probably short handed They soon discover that there is so much more to short handed sailing than a lack of crew It demands a different approach a new mindset The skipper has a much greater workload but there are also fewer people sometimes no one at all to consult during the decision making process Under these circumstances fatigue can be as dangerous as heavy weather it creeps up on you often unnoticed destroying your morale and ability to make rational decisions And when short handed the crew s limited physical resources must be watched over and zealously guarded In this heavily illustrated book Alastair Buchan passes on the lessons of his hard won experience gained short and single handed sailing in coastal offshore and ocean waters It will show you everything you need to know about handling a boat alone or short handed from choosing a suitable craft to passage planning manoeuvring sleep management and watch keeping      **Start to Win** Eric Twine, 2009-08-21 A sailing classic this is the unequalled book on simple racing principles Back in print by high demand with a new design and updated artwork there is nothing else that sets out the techniques of sailing in such a clear understandable manner      **Training to Win** Jon Emmett, 2019-03-05 Gold medal winning coach Jon Emmett works with sailors and coaches around the world and is frequently asked things like What is a good exercise to improve this Why do we do this exercise How do we make the exercise more or less difficult This book is the answer to those frequently asked questions It contains training exercises for each element of a sailing race As well as describing and illustrating the exercise it tells you what skills you are trying to improve why and how to make the exercise harder or easier The book will enable coaches to deliver better more focussed training sessions but it will also help sailors who don t have the benefit of a coach to practise and improve their sailing skills The exercises are marked as to whether they are suitable for solo boats groups of boats or those with a coach boat As Aristotle said We are what we repeatedly do Excellence then is not an act but a habit Armed with this book get out do some training and improve your sailing skills      **Sailing to Win** R.N.
