Sailing Made Simple:

Sailing Made Easy American Sailing, 2010-01-01 Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called best in class upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard ASA 101. Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user-friendly spreads in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter-end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology. Sailing Made Simple Shirley H. Reekie,

Coastal Cruising Made Easy American Sailing, 2010-01-01 Coastal Cruising Made Easy is not only the official textbook for the ASA Basic Coastal Cruising Standard ASA 103 but also the definitive go-to resource for all sailors who enjoy cruising and destination-oriented sailing. The text is published in full color and contains striking sailing photography from well-known photographer Billy Black and world-class illustrations from award-winning illustrator Peter Bull. One of the text's most distinguishing features is its user-friendly spreads in which instructional topics are self-contained on opposing pages throughout the book. This easy-to-read learning tool follows the critically acclaimed Sailing Made Easy, which Sailing Magazine called best in class upon its release in 2010. Sailing Made Easy is the 1 resource in basic sailing education and Coastal Cruising Made Easy is poised to become the industry standard in intermediate sailing education. **Tactics Made Simple** Jon Emmett, 2019-03-05 Olympic gold medalist and multiple world champion Paul Goodison explains why this book is important if you want to win races. He says, "To win sailboat races you need to sail the boat fast. This comes down to hours on the water training and tuning; there are few shortcuts to hours of practising on the water. To consistently win races you need to sail fast and smart, making the right decisions to sail the best course. If you are not the fastest boat, you are still able to win races and regattas by managing risk and sailing smart. This is where good tactics come in. But unlike boatspeed, tactics may be learnt by thinking about each leg of the course and different situations from the comfort of your own home." Jon Emmett's new book, Tactics Made Simple, is a great tool to help fast-track this learning. This book explains simply through hundreds of diagrams what tactics can be applied around the race track. Individual boats in each scenario are given names so that you can easily understand what they are doing. Individual chapters take you around the race course from before you get on the water through the pre-start, start, different legs, and manoeuvres. Each section contains detailed advice for the beginner, intermediate, and advanced sailor so you can just look at the level of tactics relevant to you. Ideal for dinghy sailors, there is also a wealth of advice that will benefit yachtsmen. This is a practical way to improve your racing results, whether starting out, moving up the club circuit, or competing at national level and beyond.
