Salford Docks:

Blitz Britain: Manchester and Salford Graham Phythian, 2015-08-03 In 1940 the Manchester and Salford Blitz saw the city and its surroundings targeted by the German Luftwaffe. The most destructive attack was launched in late December 1940; it is remembered today as the Christmas Blitz. Nearly 800 people lost their lives and thousands more were injured in two nights of raids ending with a devastating Christmas Eve that saw hundreds of tons of high explosive and thousands of incendiaries fall. Attacks continued into 1941 and beyond, and landmarks such as the cathedral, the Free Trade Hall, the Royal Infirmary and the Royal Exchange were all to suffer. At Old Trafford too a bomb wrecked the pitch and demolished the stands. This 75th anniversary narrative, based on first-hand accounts and extensive research, tells the story of how the people of Manchester, Salford, Trafford Park and Stretford endured this dark period in their history: a tale of courage, sacrifice, loss and the unconquerable power of the human spirit. Richly illustrated with contemporary photographs and documents, some of which have never been published before, this book is a valuable addition to the history of Manchester and Salford. **Bradshaw's Canals and Navigable Rivers of England and Wales**, 1904 *British Islands Pilot: The west coast of England and Wales* United States Hydrographic Office, 1917 **Ecology of Industrial Pollution** Lesley C. Batty, Kevin B. Hallberg, 2010-02-18 Written for researchers and practitioners in environmental pollution management and ecology, this interdisciplinary account explores the ecological issues associated with industrial pollution to provide a complete picture of this important environmental problem from cause to effect to solution. Bringing together diverse viewpoints from academia and environmental agencies and regulators, the contributors cover such topics as biological resources of mining areas, biomonitoring of freshwater and marine ecosystems and risk assessment of contaminated land in order to explore important questions such as: What are the effects of pollutants on functional ecology and ecosystems? Do current monitoring techniques accurately signal the extent of industrial pollution? Does existing policy provide a coherent and practicable approach? Case studies from throughout the world illustrate major themes and provide valuable insights into the positive and negative effects of industrial pollution, the provision of appropriate monitoring schemes and the design of remediation and restoration strategies. *The Nautical Magazine and Journal of the Royal Naval Reserve*, 1893 *Parliamentary Debates (Hansard)*.
