

SALT II

The Salt II nuclear weapons treaty was signed on June 18, 1979 by Leonid Breznev of the Soviet Union and United States President Jimmy Carter. The goal was to have an eventual halt of the development of strategic nuclear weapons. The Salt II was designed to discourage the Soviets from arming their missiles with new nuclear technology. The treaty also banned new missile programs from being created. The agreement signaled the understanding that nuclear war was not a reasonable or acceptable option for either side.

Force Reductions in Vienna and British policy towards the Soviet Union and its satellites British reactions to detente between the superpowers are charted *The Soviet Union and Arms Control* Paul R. Bennett,1989-12-11 In an age of nuclear arms diplomacy Westerners still lack a deep understanding of how the Russians negotiate Much has been written about Soviet negotiating tactics especially in light of the recent INF Treaty but there has been no systematic way of analyzing the Soviet record The Soviet Union and Arms Control provides a coherent penetrating model for understanding Soviet negotiating tactics strategies and modes based not merely on impressions but on carefully analyzed case studies Through this analysis Westerners can begin to understand the different types of Soviet negotiating behavior and the factors that influence Soviet decision making This book systematically sorts and organizes the existing literature on Soviet tactics supplemented by interviews with former U S negotiators into a coherent theory The book s first two chapters examine Soviet negotiating modes strategies and tactics and two different models of the Soviet process of decision making The final two chapters explore two case studies The Brezhnev Era SALT II 1972 1974 and The Gorbachev Era Nuclear and Space Talks 1985 1988 that provide a practical test of the theories These two case studies trace Soviet diplomacy stage by stage and issue by issue demonstrating that internal politics in the Soviet Union has a lesser effect on negotiations than considerations of the Soviet national interest **The Nuclear Confrontation in Europe** Jeffrey H. Boutwell,Paul Doty,Gregory F. Treverton,2020-11-19 Originally published in 1985 this book explores the nuclear confrontation between East and West in Europe where we stand how we got there and what the future may hold Its concluding chapter outlines the prospects for nuclear arms control in Europe and it frames the debate over NATO strategy and the role of nuclear weapons in the years ahead Can NATO reduce its reliance on nuclear weapons Can it cope with the issues at all The chapters on NATO theatre nuclear forces and doctrine provide a rich background to current policy issues The public debate over NATO s 1979 decision to deploy new American cruise and Pershing nuclear missiles in Europe was hardly unprecedented in NATO s history similar controversy surrounded NATO deliberations in the late 1950s and early 1960s That debate however subsided in the mid 1960s the nuclear question in Europe was relegated to the wilderness though efforts largely unavailing continued within official circles to define more clearly the role of nuclear weapons in NATO s defense Against this backdrop the nuclear debate emerged again in the 1970s This title unravels the military and political considerations at play in that debate and maps the European politics surrounding it Today it can be read in its historical context *Bulletin of the Atomic Scientists* ,1983-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Current Policy** United States. Department of State. Bureau of Public Affairs, *International Negotiations* Michael O. Wheeler,Glen Segell,2006 Examining arms control and non proliferation both during and after the Cold War this text examines the lessons which have been learned both for today and for the future *Arms Control Policy, Planning, and Negotiating* United States.
