Long Range Planning Of Japanese Corporat:

Long-Range Planning of Japanese Corporations Toyohiro Kono, 2015-02-06 This book tries to describe the formal long range planning process of Japanese corporations to analyze the formal strategic decision making process and to find theories through this analysis *Strategy and Structure of Japanese Enterprises* Toyohiro Kono, 2016-01-07 *Routledge Handbook of Japanese Business and Management* Parissa Haghirian, 2016-01-29 The Routledge Handbook of Japanese Business and Management provides a comprehensive overview of management and business processes and practices in Japanese companies The contributors combine theoretical findings and research results with a practical and contemporary view on how corporations and firms are managed in Japan The handbook is divided into eight sections covering historical perspectives on Japanese management structure and theory of the Japanese firm the corporate environment in Japan the Japanese work environment the Japanese market manufacturing and logistics interaction and communication the future of Japanese management This book is an essential reference resource for students and scholars working on Japanese companies the Japanese market place Japanese consumers or management processes in the Japanese firm The book also provides an interesting and informative read for managers who need to deepen their knowledge on Japanese business processes

Transformations of Corporate Culture Toyohiro Kono, Stewart R. Clegg, 2017-03-06 No detailed description available for Transformations of Corporate Culture **Transforming Japanese Business** Anshuman Khare, Hiroki Ishikura, William W. Baber, 2019-12-06 This book explores how the business transformation taking place in Japan is influenced by the digital revolution Its chapters present approaches and examples from sectors commonly understood to be visible arenas of digital transformation 3D printing and mobility for instance as well as some from not so obvious sectors such as retail services and fintech Business today is facing unprecedented change especially due to the adoption of new digital technologies with a noticeable transformation of manufacturing and services The changes have been brought by advanced robotics the emergence of artificial intelligence and digital networks that are growing in size and capability as the number of connected devices explodes In addition there are advanced manufacturing and collaborative connected platforms including machine to machine communications Adoption of digital technology has caused process disruptions in both the manufacturing and services sectors and led to new business models and new products While examining the preparedness of the Japanese economy to embrace these changes the book explores the impact of digitally influenced changes on some selected sectors from a Japanese perspective It paints a big picture in explaining how a previously manufacturing centric successful economy adopts change to retain and rebuild success in the global environment Japan as a whole is embracing yet also avoiding innovating but also restricting various forms of digitalization of life and work The book with its 17 chapters is a collaborative effort of individuals contributing diverse points of view as technologists academics and managers *Local Insights, Global Ethics for Business* Daryl Koehn, 2021-11-08 This book evaluates strategies for managing ethical conflict Macro approaches

that attribute select values to entire peoples and claim supremacy for these values are suspect A micro approach focusing on the ethics of individual thinkers is better The study uses the ethics of Confucius and Tetsuro Watsuji to derive a process based universal ethic that respects local differences yet is not relativistic *Cultural Influences on Strategic Planning* Peter R. Haiss, 2013-11-09 This book challenges the universal applicability of strategic management concepts It argues that it is necessary to pay attention to contextual facets of the environment in particular to societal culture It also depicts the current planning situation in the banking industry The culture boundness of strategy formulation and implementation is challenged and advocated through discussing planning systems processes and heuristics and contextual influences both on a theoretical basis and with empirical research The book is based on my doctoral dissertation which was completed at the Marketing and Banking Departments of the Vienna University of Economics under the auspices of Fritz Scheuch and Gustav Raab Their teaching constructive criticism and encouragement provided the intellectual stimulation for bringing this dissertation to completion This applies equally to several professors at the University of Illinois at Urbana Champaign Harry Triandis and Anant Negandhi introduced me to cross cultural research and international management Howard Thomas Marjorie Lyles and Irene Duhaime helped me to crystallize thoughts Hanns Martin Schriefel Seymour Sudman and Gerald Salancik challenged my thoughts about organizational behavior and methodology Richard Watson University of Georgia and Louis Flores of Northern Illinois University were very helpful in providing address material for Australia and Latin America as well as through assistance with translations Norihiro Suzuki of International Christian University Tokyo and Hiro Matsusaki of Tokyo University helped with Japanese translations *Japan Challenges America* Harrison M Holland, 2021-02-27 With the US Japan alliance in jeopardy former diplomat Harrison Holland argues that both sides must take bold steps to avert a catastrophe that could destabilize economic political and security conditions in Asia Taking advantage of his insider's perceptions the author illuminates those aspects of life in Japan that influence behaviour shape policy and affect public opinion in an inwardly directed society Holland evaluates the obstacles to better economic relations the security dilemmas facing Japan and the rigid Japanese political structure which has been slow to adapt to the surge of modern technology the demands of rapid international change and the internal and external calls for a more responsible Japanese role in world affairs Can the alliance survive the present turmoil Despite the daunting obstacles the author concludes that solutions must and will be found *The Embedded Corporation* Sanford M. Jacoby, 2018-06-05 Is there one best way to run the modern business corporation What is the appropriate balance between shareholders executives and employees These questions are being vigorously debated as layoffs scandals and restructurings rattle companies around the world The common assumption is that globalization is merging the varieties of corporate capitalism Yet as this book shows corporations in Japan and the United States are responding differently to the pressures unleashed by globalization In *The Embedded Corporation* Sanford Jacoby traces this diversity to national differences in economic history and social norms and paradoxically to global

competition itself The book's vantage point for exploring the varieties of capitalism is the human resource departments of large corporations where changes in markets and technology turn into corporate labor policies affecting millions of workers Despite some cross fertilization Japanese and American corporations maintain distinctive approaches to human resource management which has important consequences for how firms compete for corporate governance and even for the level of inequality in Japan and the United States The Embedded Corporation is a major contribution to our understanding of comparative management and the relationship between business society and the global economy

Strategic Planning and Modeling in Property-Liability Insurance J. David Cummins, 2012-12-06 The Geneva Association and Risk Economics The Geneva Association The Geneva Association International Association for the Study of Insurance Economics commenced its activities in June 1973 on the initiative of twenty two members in eight European countries It now has fifty four members in sixteen countries in Europe and in the United States The members of the association are insurance companies which provide financial support for its activities The aims and strategy of the Geneva Association were clearly defined in 1971 by the founding committee They were set forth in the first report to the Assembly of Members in 1974 To make an original contribution to the progress of insurance by objective studies on the interdependence between economics and insurance In pursuit of this objective the Association strives to place insurance problems in the context of the modern economy and to overcome the antagonism between different groups and institutions by showing that they all have a common interest in tackling the problem of risk in a changing world In consequence the studies made by the Association had to move away from the subjects familiar to insurance professionals

and explore related fields dealing with opinions and behavior falling outside the profession s vii FOREWORD viii traditional framework of analysis It is in this direction that the Association s preoccupations have been directed from the beginning towards areas in which insurance activities come into contact with those of other economic sectors such as government banking manufacturing and households

Japanese Political Economy Revisited David Chiavacci, Sébastien Lechevalier, 2020-11-25 During the last 30 years the Japanese political economy system has experienced significant changes that are usually not well understood or analysed because of their complexity and contradictions This book provides new analyses and insights on the process of evolving Japanese political economy including Japan s current economic policy known as Abenomics The first three chapters look at evolutions at the corporate level characterised in recent years by increasing firm heterogeneity The authors apply theoretically driven analyses to the complex subject of corporate governance human resource management and corporate reporting by discussing new developments in context of their economic opportunities as well as of their institutional contradictions with continuities in Japanese business practices The second group of chapters deals with institutional changes and evolving economic reforms on the macro level of political economy The two chapters focus on the financial system regulation and economic growth policies as two central elements of Japan s political economy and key drivers in the evolution of its economy Their analysis allows us to better understand the interplay between reforms and change in consumption credit and to reinterpret Abenomics as a manifestation of ongoing contradictions within the Japanese political economy The chapters were originally published in a special issue in *Japan Forum*

Global Comparative Management Ralph B. Edfelt, 2009-02-10 Taking an integrative interdisciplinary approach to the coverage of managerial issues functions practices and problems the text provides a view of international management beyond intercultural issues

Narrative Management in Corporate Japan Chie Yorozu, 2015-11-19 Scandals and failures in some of the best known international Japanese owned companies have shown that there is sometimes a considerable difference between the public and internal narratives of Japanese firms This book explores the extent to which Japanese firms public claims reflect wider reality Exploring how and why corporate narrative

management is accepted or rejected by external and internal audiences in Japan the book clarifies what narrative management means for Japanese organizations It argues that the role of narrative management has become much more prevalent in Japan in recent years but that it does not serve quite the same role as it does in the Western environments where the theory and practice first emerged The author presents interview based case studies within four very different large Japanese organisations all of which have deployed and loudly announced new restructuring plans based largely on Western models of corporate best practice The book aims to describe and account for these Japanese corporate narratives and asks what they are why they are deployed and who believes in them As the first narrative related work in the Japanese context this volume provides an insight into the development of Japanese narrative management It will appeal to students and scholars of Japanese Business International Business and Organizational Studies Global Business Erdener Kaynak, Kam-Hon Lee, 2018-10-26 This book first published in 1989 examines the practice of international business in the Asia Pacific region It examines the factors which have influenced its growth and dissemination and analyses particular elements in a transnational cross cultural and comparative way By relating its conclusions to research findings from elsewhere the Asia Pacific area is placed in the context of the global business scene By synthesizing the established body of knowledge and offering managerial insights the book has much to offer the researchers and policy makers of today
