Translations (LOA #70) Ralph Waldo Emerson, 1994-08-01 Emerson's incomparable brilliance as a prose writer has often overshadowed his remarkable gifts as a poet. Gathering both published and unpublished work, this Library of America edition makes available for the first time to general readers the full range of Emerson's poetry, including many poems left in manuscript at his death that have hitherto been available only in drastically edited versions or specialized scholarly texts. Displacing all previous editions in its comprehensiveness and textual authority, this volume reveals the ecstatic, mystical, and private meditative sides of one of the greatest of all American writers. All the poetry Emerson published during his lifetime is included in this single volume. His collections *Poems* 1847, *May Day and Other Pieces* 1867, and *Selected Poems* 1876, as well as other pieces written for magazines, fuse close observations of the New England landscape with far-reaching spiritual explorations. His familiarity with botany and geology, Greek philosophy, Persian poetry, and anti-slavery politics gives his writing an intellectual breadth and a challenging continuity unique among American poets of his time. More than half the volume is devoted to a generous selection of poetry from Emerson's journals and notebooks, ranging from his childhood to his final years as a writer. This work, printed here as Emerson wrote it without the revisions imposed by earlier editors, is a revelation: a bounty of formal experimentation and speculative thought that displays, as in a painter's sketchbook, the creative process at work. Also included are Emerson's little-known poetic translations, chiefly from the Persian poets Hafiz and Saadi, whose fusion of sensuality and mysticism so profoundly influenced his poetic thinking. With them is the complete *La Vita Nuova*, The New Life, Dante's meditation on love that Emerson translated into English for the first time.

Essays and Poems by Ralph Waldo Emerson (with an Introduction by Stuart P. Sherman) Ralph Waldo Emerson, 2017-05. During the 1800s in America, the rise of industrialization reduced the cost of goods, allowing people to have more possessions than ever before. However, a group known as the Transcendentalists believed that possessions created vanity. Instead, they valued the individual's relationship with divinity. One of the movement's most famous members, Ralph Waldo Emerson, wrote prolifically about his beliefs and experiences. A representative selection of his writings is presented here in this volume of the *Essays and Poems by Ralph Waldo Emerson*. In the first essay, *Nature*, Emerson publicly acknowledges the transcendental lifestyle. He describes how that which is man-made detracts from the beauty of the real world. Through nature, Emerson believed, people could find spirituality and wholeness. Emerson also explored the American political spectrum in his essay *Politics*. The author believed that through individual growth and wisdom, it would be possible
