Hoy Steele, 1971 Multiculturalism in the United States John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work Co editors Ratner and Buenker have revised and updated the first edition of Multiculturalism in the United States to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool Seven new ethnic groups are included Arabs Haitians Vietnamese Koreans Filipinos Asian Indians and Dominicans New essays on the Irish Chinese and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition The contribution to American culture by people of these diverse origins reflects differences in class occupation and religion The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants Changes over time that both of the cultures brought to America and of the culture that received them is also discussed Essays on representative ethnic groups include African Americans American Indians Arabs Asian Indians Chinese Dominicans Filipinos Germans Haitians Irish Italians Jews Koreans Mexicans Poles Scandinavians and the Vietnamese **Sourcebook of Family Theories and Methods** Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production *Majority-minority Relations* John E. Farley, 1988 This book is designed to develop readers understanding of the principles and processes that shape the patterns of relations between racial ethnic and other groups in society A wide variety of information is provided about a number of such groups with an emphasis on the relationships between dominant majority and subordinate minority racial and ethnic groups in the United States and abroad Coverage includes discussions on the latest African American perspectives the Census Bureau s decision to allow people to check more

than one race in the 2000 census the influence of the culture of poverty perspective on welfare reform legislation interracial relationships Neil Foley's award winning book *The White Scourge* the debate over Hemstein and Murray's *The Bell Curve* how diversity programs helped an insurance company become more profitable the rising debate over race ethnicity and language race ethnicity in our schools race ethnicity only affirmative action welfare reform wage and labor laws minorities and the growing income gap the war on drugs and more For those interested in majority minority relations or race and ethnic relations

Sociology in Today's World Brian Furze, Cengage Learning Australia, Pauline Savy, 2014 *Sociology in Today's World* explores why sociology is important and relevant to everyday life It teaches students how to think sociologically not just what to think and shows how sociology can help us make sense of our lives It comprehensively covers key aspects and current issues in Australian and New Zealand society whilst emphasising the importance of diversity and a global perspective

Multicultural Education in a Pluralistic Society Donna M. Gollnick, Philip C. Chinn, 1990 An overall goal of multicultural education is to help all students develop their potential for academic social and vocational success This text is designed to examine group memberships and ways in which the educator can develop educational programs to meet the needs of those groups and the nation Pref *Men in Color* Josep M. Armengol, 2011-01-18 Comprising seven different chapters the collection *Men in Color* attempts to analyze and revisit the representation of ethnic masculinities both white and non white in and through contemporary U S literature and cinema If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities *Men in Color* attempts to provide an introductory perspective on different racialized masculinities simultaneously including African American Asian American Chicano Arab American and also white masculinity which is analyzed as another ethnic and gendered construct rather than as a paradigm of normalcy and universality By exploring several ethnic masculinities in relation to each other the present volume aims to highlight both the differences and the similarities between different patterns of masculinity showing how even as gender is inflected by race certain aspects or features of masculinity remain unchanged across the ethnic board Ultimately the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes such as the hypersexualization and or the feminization of ethnic males which recur in and across several ethnicities The constant tension and intersection between gender and race is the subject of this book which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st century world **Race and Class in American Society** H. Edward Ransford, 1994

Undergraduate Announcement University of Michigan--Dearborn, 1997 *Partners or Rivals?* Betina Cutaia Wilkinson, 2015-11-30 The emerging demographic and political presence of Latinos in the United States has moved the discussion of race relations beyond the terms of black and white Using a variety of theoretical approaches Betina Cutaia Wilkinson assesses Latinos blacks and whites perceptions of commonality and opposition in order to reach a more nuanced

understanding of the factors affecting political competition versus cooperation among these groups In the most comprehensive analysis of Latino black and white relations to date Wilkinson explores the extent to which these groups regard each other as partners or rivals and uncovers the motivations that contribute to those views Relying on national survey and focus group data the author examines how social interaction feelings of identification with members of their own group and others and individuals sense of power as established by their racial economic and political surroundings impact interracial attitudes Her findings like the complex racial dynamics she studies are not easily reducible to simple formulae yet they have strong implications for the formation of interracial coalitions For example even if social contact generally decreases racial and ethnic hostility the disadvantaged status of Latinos and blacks tends to impede cooperation and ramp up rivalry leaving members of both groups more inclined to form coalitions with whites than with each other Yet contextual factors in particular jurisdictions such as the availability of quality education and higher wages overall can mitigate antagonism and increase the likelihood of cooperation Ultimately Partners or Rivals provides a timely account of contemporary race relations and the prospects for interracial and interethnic cooperation pinpointing the sometimes surprising factors that have a realistic chance of improving those prospects

Gedalof,2005-08-02 *Against Purity* confronts the difficulties that white Western feminism has in balancing issues of gender with other forms of difference such as race ethnicity and nation This pioneering study places recent feminist theory from India in critical conversation with the work of key Western thinkers such as Butler haraway and Irigaray and argues that through such postcolonial encounters contemporary feminist thought can begin to work against purity in order to develop more complex models of power identity and the self ultimately to redefine women as the subject of feminism Theoretically grounded yet written in an accessible style this is a unique contribution to ongoing feminist debates about identity power and difference Multicultural Education, Critical Pedagogy, and the Politics of Difference Christine E. Pettigrew,1980-03 These readings chronicle the triumphs and failures of race relations in our nation unfolding the tensions and struggles of racial conflict through the analyses of sociologists writing since the late nineteenth century The forty five articles gathered here are drawn from four of the most respected journals in the field American Journal of Sociology American Sociological Review Social Forces and Social Problems Together they document the problem of the color line providing for various eras the contemporary rationale for the status quo as well as farsighted calls for change Thus the readings reveal how sociological thought reflected racial tensions in this century while simultaneously serving as a force for reform *The Sociology of Race Relations* covers seven historical periods each introduced by an incisive discussion of the racial milieu of the time It begins with the era of Jim Crow laws and the great black migration from the South and proceeds to the reappearance of the Ku Klux Klan in the 20s the Depression years the Japanese American internment during the Second World War the deceptively quiet 50s that culminated in the civil rights movement of the 60s It concludes with a look at desegregation in the 70s the aftermath of the policies of the preceding decade Although the majority of selections deal with the problems of black Americans articles on Mexican Americans and Japanese Americans as well as on prejudice in general broaden the scope of the book The editor s introduction places the entire volume in historical and sociological context A time

capsule for viewing race relations and the development of sociological understanding of race relations The Sociology of Race Relations illustrates two of the discipline's major contributions to American life its ability to heighten our sensitivity to unnoticed relationships and to debunk simplistic beliefs

Stubborn Roots Prudence L. Carter, 2012-05-01 What are the features of the school environment that make students of color incorporation greater at some schools than at others Prudence L. Carter seeks to answer this basic but bedeviling question through a rich comparative analysis of the organizational and group dynamics in eight schools located within four cities in the United States and South Africa two nations rebounding from centuries of overt practices of racial and social inequality Stubborn Roots provides insight into how school communities can better incorporate previously disadvantaged groups and engender equity by addressing socio cultural contexts and promoting cultural flexibility It also raises important and timely questions about the social political and philosophical purposes of multiracial schooling that have been greatly ignored by many and cautions against narrow approaches to education that merely focus on test scores and resources There are simply not enough texts that look comparatively at the two foremost experiments with questions of race culture and class in the English speaking world the United States and South Africa Prudence Carter's work is simultaneously scholarly and compassionate It helps us see in these two benighted but globally important societies how easily things break but also how well when structures are in place and when human agency takes flight individuals and the groups to which they belong flourish and grow Crain Soudien Professor of Education University of Cape Town In this ambitious mixed method study Carter analyzes the social and symbolic boundaries that account for disparate educational experiences by race in the United States and South Africa Resources are only part of the answer equally important she argues are the cultural and institutional conditions that make students feel they are valued contributors of the community Thus school policies about hairstyle dress codes tracking extracurricular activities and language use are among the important dimensions that enable or discourage engagement in students Educators policymakers and scholars alike have much to learn from this agenda setting work Michele Lamont Harvard University Author of The Dignity of Working Men Morality and the Boundaries of Race Class and Immigration Prudence Carter's remarkable book shines a light on the often invisible patterns that perpetuate educational disparity in both the United States and South Africa Stubborn Roots reveals how racial and ethnic divides are often reinforced even in supposedly integrated schools and even when many people of good will try to eradicate them Carter's insights illuminate how educators and schools can address these issues by becoming increasingly attuned to the socio cultural worlds in which their students live This book paves the way for the changes needed for historically disadvantaged groups to receive equitable high quality educations Linda Darling Hammond Charles Ducommun Professor of Education Stanford University
