Dark in Sunnyside Joseph T. Willis, 2013-08-21 Dark in Sunnyside is a fictional tale about an organized crime agent named Venom who decides it is time to retire. The reason behind this is because Venom realizes that sooner or later he may have to start killing familiar faces. Here's the thing though: Venom is one of the best field agents, and his employers do not want him to go. However, Venom decides he will not renew his contract and is excited about retirement. All seems to be going well until, after an assignment, Venom meets a very beautiful woman who immediately allures him fully: the bartender named Jewels. Venom's new love is his new obstacle because those in charge decide to use this newfound affection against him. Blackmailed into recanting his contract for continued services, Venom decides to take down the boss with the help and loss of dark-humored characters as well as the creative strategies of a witty killer with wicked charisma.

The Japanese Sentence-final Particles in Talk-in-interaction Hideki Saigo,2011 The Japanese sentence final particles ne yo and yone have proved notoriously difficult to explain and are especially challenging for second language users This book investigates the role of the particles in talk in interaction with the aim of providing a comprehensive understanding that accounts for their pragmatic properties and sequential functions and that provides a sound basis for second language pedagogy This study starts by setting up an original particle function hypothesis based on the figure ground gestalt and then tests its validity empirically with unmarked marked and native non native talk in interaction data The analysis illustrates not only expectable but also unexpected or strategic use of particles as well as the problems posed for native speakers by non native speakers whose use of particles is idiosyncratic The study demonstrates that the proposed hypothesis is capable of accounting for all the uses of particles in the extensive and varied data set examined This book will be of interest to students and scholars in pragmatics and CA and to teachers of Japanese as a foreign language *Jake and the Hot Air Balloon*

Maurice Huffman,2017-10-09 This is the story of an orphan named Jake who finds himself in a hot air balloon with his friend Milton the Mouse The wind carries them through many adventures some very amusing and others quite dangerous The adventures of Jake and Milton originated as bedtime stories which the author told his son This book combines the adventures and were finally written down as advised by his son Miles The illustrations were all done by the author s son Miles Huffman The author hopes the stories will be passed on to Miles s children one day Ways to Talk So Your Children Will Listen and Listen to Them as They Talk J.D. Rockefeller,2015-11-24 The relationship between a child and parent is without a doubt a very private and personal matter The idea of giving parents instructions on how to talk with their kids never sits right However parents should understand that the more they talk about things the more comfortable it will be for them Why not talk with kids in order to make them listen to you and why not listen to kids to make them talk The way parents talk to their kids has a huge impact on their ability to learn and listen Parents need to understand that they are constant examples to their kids on how to behave and act and talking to them fits perfectly in this matter Normally there are 3 different ways

parents communicate with their kids and the first one is the aggressive way This usually involves yelling and putting their kids down by using attacking words This can make children to respond in several ways mainly through acting out ignoring the parent s order yelling back or feeling very fearful The second communication form is commonly seen in passive form Parent who fall under this category mutter softly use very cautious tones and words and even will just walk over their children when they find them fighting Unfortunately when the time comes that they re pushed to their limits they will suddenly burst and eventually turn into an aggressive communication tone The last and the third way that parents use to communicate with their children is the assertive way So far this is the most perfect way to communicate with kids at all time and levels Assertive communication is firm confident warm positive clear and consistent Assertive communication with kids is a skill and it shows to kids that dad and mom know what they are about to say and will make them eventually listen It s also very important for parents to understand that the importance of making their children listen to them is as equal as listening to them In this book parents will learn how to communicate with their kids in the most effective ways in order to make them listen and communicate effectively Also included in this book are the ways to help children deal with their feelings engage in cooperation effective and best alternatives to punishments how to encourage autonomy in children how to praise them and many other things that will make the parent and child relationship even better and closer A parent should understand what is written in this book for a much better parenting experience
