Crippled at the Starting Gate Robert Leslie Fisher, 2009-11-16 In Crippled at the Starting Gate Robert Leslie Fisher argues that the United States needs an education bill much like the G I Bill passed after World War II to send more Americans to graduate school in the sciences and engineering Equally important the graduate schools need to change their culture not only to recruit more women African Americans and Latinos into science but to promote them to senior faculty positions Accomplishing these changes in university science and engineering departments will be challenging since the institutions have a strong propensity to recruit white males similar to the overwhelmingly white male senior faculty In Making Science Fair 2007 Fisher urged new productivity metrics to assure that more women can advance in science Now Fisher urges ending burdensome educational practices including requiring women and foreign graduate students to teach under graduates which adversely affects both the graduate students and the undergraduates
