racial issues who consults on race politics and economics in Washington DC In this book he uses the Obama Haters as an appropriate jumping off point to consider what strategies might begin to reduce racial animosity in the United States a real concern considering that demographic trends are likely to exacerbate and escalate race based hatred in our society Austin sets the stage for the discussion by establishing that President Obama is hardly liberal in the eyes of liberal political activists raising the question of why Obama is so intensely hated by some conservatives He then compares the views of the Obama Haters estimated to be some 25 million strong with conservatives moderates and liberals who are not Obama Haters The author shows how the Obama Haters are distinctly more xenophobic Islamophobic and racist than political conservatives who are not Obama Haters underscoring the fact that the Obama Haters are motivated by more than just conservatism

Congressional Anti-gerrymandering Act of 1979 United States. Congress. Senate. Committee on Governmental Affairs,1979 **The Faces of Poverty in North Carolina** Gene R. Nichol,2018-11-02 These are the faces of poverty in North Carolina scores of homeless men women and children take refuge in makeshift camps barely hidden in the woods near some of our most affluent neighborhoods Hundreds wait in lines hours long to receive basic health care at underfunded free clinics In large cities and small towns children especially children of color rely on meals at their schools to keep hunger at bay while parents struggle in jobs that fail to pay living wages While many in the Tar Heel State enjoy unparalleled prosperity those born into poverty have lower odds than ever of climbing the ladder of economic upward mobility Today more than 15 million North Carolinians live in poverty More than one in five are children Behind these sobering statistics are the faces of our fellow citizens This book tells their stories Since 2012 Gene R Nichol has traveled the length of North Carolina conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances Here their voices challenge all of us to see what is too often invisible to look past partisan divides and preconceived notions and to seek change Only with a full commitment as a society Nichol argues will we succeed in truly ending poverty which he calls our greatest challenge **Black Enterprise** ,1993-02 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance

Committee on the Judiciary,1993 *Entrepreneurship and Self-Help among Black Americans* John Sibley Butler,2012-02-01 Since its publication in 1991 *Entrepreneurship and Self Help among Black Americans* has become a classic work influencing the study of entrepreneurship and more importantly revitalizing a research tradition that places new ventures at the very center of success for black Americans This revised edition updates and enhances the work by bringing it into the twenty first century John Sibley Butler traces the development of black enterprises and other community organizations among black Americans from before the Civil War to the present He compares these efforts to other strong traditions of self help among groups such as Japanese Americans Jewish Americans Greek Americans

and exciting new research on the Amish and the Pakistani He also explores how higher education is already a valued tradition among black self help groups such that today their offspring are more likely to be third and fourth generation college graduates Butler effectively challenges the myth that nothing can be done to salvage America's underclass without a massive infusion of public dollars and offers a fresh perspective on those community based organizations and individuals who act to solve local social and economic problems

African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades Correcting this imbalance African American Urban History since World War II features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real

estate industry's discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies Another group of contributors examines these themes through the lens of gender chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations
