Making a Home Better Homes and Gardens Books, Linda Hallam, 2001-09-01 Collected from universities trade associations federal agencies and experts provides tips for economically effectively and safely cleaning furnishing and maintaining a home    **Good Housekeeping** ,1895    **Good Housekeeping Magazine** ,1894    *The Home, how to Make and Keep it* Mrs. H. W. Beecher, 1883    Real Life at the White House John Whitcomb, Claire Whitcomb, 2002 An irresistible chronological overview of daily life in the presidential residence Divided into 42 chapters representing each succeeding administration this survey is brimming with fun facts tantalizing tidbits and memorable anecdotes detailing two centuries of domestic bliss and strife in the White House From George Washington who chose the sight and initiated work on the presidential mansion to Bill Clinton whose well documented White House escapades titillated and scandalized the nation each individual president has contributed to the mystique of the most readily recognized home in the U S Together with scores of drawings portraits and photographs the breezy text chronicles the significant physical social and emotional changes wrought by each First Family as they sought to personalize daily life in the White House    **Everyday Housekeeping** ,1899

*Broome County Farm & Home Bureau News* ,1922    **The Making of Home** Judith Flanders, 2014-10-01 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in this revealing book home is a relatively new concept When in 1900 Dorothy assured the citizens of Oz that There is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change In *The Making of Home* Flanders traces the evolution of the house across northern Europe and America from the 16th to the early 20th century and paints a striking picture of how the homes we know today differ from homes through history The transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution Without home the modern world as we know it would not exist and as Flanders charts the development of ordinary household objects from cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family As full of fascinating detail as her previous bestsellers *The Making of Home* is also a book teeming with original and provocative ideas    **Commercial and Financial Chronicle** ,1915    **Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal** ,1915    **The Herald of Asia** ,1921    The Eugenic Marriage, Volume 3 W. Grant

Hague, 2016-01-07 **THE BEST AGE AT WHICH TO MARRY** In order to determine the best age at which to marry we must be guided by certain fixed standards We must find out from statistics the average age of the parents of the best babies We must determine and analyse the qualifications of what constitutes the best babies according to the eugenic ideal We should give heed to the fixity of temperamental characteristics in order to determine their adaptability to conditions that prevail at

certain ages We should select an age in advance of the period at which science has determined individuals to have outlived any hereditary tendencies We have abundant proof that the best babies are born of parents between the twenty third and the twenty sixth years We know also that the age which responds with the fullest degree of plasticity to temperamental characteristics is in the early twenties We know likewise that inherited tendencies may be said to have been outlived at or about the twenty second year The ideal marrying age therefore is for both male and female approximately the twenty third year The physical mental and moral development of both men and women at this period evidence a high degree of adaptability and are responsive to the institution of marriage Their hereditary traits if any previously existed assume a dormant form at this age They have cultivated the temperamental qualities which they will retain with few modifications throughout life On the other hand their dispositions are responsive to reason and are capable of readjustment Their temperamental characteristics are plastic and under favorable conditions it is possible for both to evidence a degree of sympathy and toleration that bespeaks future harmony and success No marriage can result in mutual happiness and success if one of the participants is temperamentally incapable of changing his or her convictions      **Co-operative Bulletin** Pratt Institute.
