1. I live in a rural part of the country. There are a lot of trees and rivers and even some small mountains where I live. I love the natural beauty here. There is this one very _____ place that is near my house. It has a river and a lot of green space. The local people like to go fishing and swimming in the river there. And many families even go on picnics there during the summer. It's really peaceful and a lot of fun. There's a lot of discussion about this place right now. Some people want to build a factory on the river. I don't understand how anyone would want to do that. I'm very worried about what is going to happen to the _____—the river, the animals, the trees. I have learned that the factory will probably create a lot of _____ in the area. People probably won't be able to swim or fish in the river anymore. And a lot of the trees will be cut down. I guess I'm a _____ because I don't want to see the area destroyed. Some people want the factory because they say that it will _____ jobs and more money for the area. They say that the factory is going to be a big _____ to everyone in our town. I don't agree.

Would you choose for the factory or against it? _____

2. Daniel is a very social person. He likes having friends and enjoys hanging out with them. He is intelligent, but sometimes he has too many things to do at one time. For example, next week he has extra football practice, he has to volunteer at the youth center, and he wants to hang out with his friends and go skiing. That is already a lot to do, but he also has a very important test in history. He needs to get a good grade on it. Daniel likes to _____ with his friends, so hanging out with them, wearing the right clothes, and playing sports are important. But getting into a good college is important, too, so he needs to _____ on studying more and getting better grades. He just can't do everything, but he thinks he can. He got a crazy idea—to create a study _____ for his history test. If he does that, he thinks that he'll be able to _____ it.

If Daniel tells his friends about his idea, what will they say? _____

imperial rule Likewise the tribal experience of living at the margins inspires a tribal reader to look at the narrative from the underside from the perspective of those who are sidelined ignored belittled or forgotten Tribal biblical interpretation presented here follows a process of conversation between tribal worldview and Matthew's narrative Such a method animates the text for the tribal reader and makes the biblical narrative not only more intelligible to the tribal reader but allows the text to speak directly to the tribal context
