Schragger,2016 Reigning theories of urban power suggest that in a world dominated by footloose transnational capital cities have little capacity to effect social change In City Power Richard Schragger challenges this conventional wisdom arguing that cities can and should pursue aims other than making themselves attractive to global capital Using the municipal living wage movement as an example Schragger explains why cities are well positioned to address issues like income equality and how our institutions can be designed to allow them to do so **Healthy Cities** Namir Khan,Willem H. Vanderburg,2001 Modern cities can be designed to constitute a more supportive environment for a great many activities provide a more livable habitat and reduce the burden imposed on the biosphere They can be made healthier in terms of the definition by World Health Organization and more sustainable by means of new and emerging preventive approaches Healthy Cities focuses on those preventive approaches that can make cities healthier and more sustainable This book as well as the two companion volumes Sustainable Energy and Sustainable Production is the result of a twelve year research project carried out at the Center for Technology and Social Development at the University of Toronto The research findings led to the development of a new conceptual framework and strategy aimed at converting technological and economic growth into development that would gradually become more sustainable **Restarting the Future** Jonathan Haskel,Stian Westlake,2022-03-22 From the acclaimed authors of Capitalism without Capital radical ideas for restoring prosperity in today s intangible economy The past two decades have witnessed sluggish economic growth mounting inequality dysfunctional competition and a host of other ills that have left people wondering what has happened to the future they were promised Restarting the Future reveals how these problems arise from a failure to develop the institutions demanded by an economy now reliant on intangible capital such as ideas relationships brands and knowledge In this groundbreaking and provocative book Jonathan Haskel and Stian Westlake argue that the great economic disappointment of the century is the result of an incomplete transition from an economy based on physical capital and show how the vital institutions that underpin our economy remain geared to an outmoded way of doing business The growth of intangible investment has slowed significantly in recent years making the world poorer less fair and more vulnerable to existential threats Haskel and Westlake present exciting new ideas to help us catch up with the intangible revolution offering a road map for how to finance businesses improve our cities fund more science and research reform monetary policy and reshape intellectual property rules for the better Drawing on Haskel and Westlake s experience at the forefront of finance and economic policymaking Restarting the Future sets out a host of radical but practical solutions that can lead us into the future **Disposable Cities** Garth Andrew Myers,2017-03-02 Based on in depth fieldwork in three
