Making English Official Katherine S. Flowers, 2024-01-18 In communities across the US people wrestle with which languages to use and who gets to decide Despite more than 67 million US residents using a language other than English at home over half of the states in the US have successfully passed English only policies Drawing on archives and interviews this book tells the origin story of the English only movement as well as the stories of contemporary language policy campaigns in four Maryland county governments giving a rare glimpse into what motivates the people who most directly shape language policy in the US It demonstrates that English only policies grow from more local levels rather than from nationalist ideologies where they are downplayed as harmless community initiatives but result in monolingual approaches to language remaining increasingly pervasive This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
