**Handbook of LGBT-Affirmative Couple and Family Therapy** Jerry J. Bigner, Joseph L. Wetchler, 2012-05-04 The editors and contributors of this comprehensive text provide a unique and important contribution to LGBT clinical literature. Spanning 30 chapters they discuss the diverse and complex issues involved in LGBT couple and family therapy. In almost 15 years this book provides the first in depth overview of the best practices for therapists and those in training who wish to work effectively with LGBT clients. Couples and families need to know and is only the second of its kind in the history of the field. The clinical issues discussed include raising LGBT children, coming out, elderly LGBT issues, sex therapy, ethical and training issues. Because of the breadth of the book, its specificity, and the expertise of the contributing authors and editors, it is the definitive handbook on LGBT couple and family therapy.

**Pink Therapy** Dominic Davies, 1996-05-16 A comprehensive British volume on lesbian and gay affirmative psychotherapy has been a while coming. Pink Therapy, however, has arrived. It amply fills this gap and is well worth the wait. The literature reviews are masterful for scholars, and the book offers a comprehensive, thoughtful approach for clinicians. A deft editorial hand is evident in the unusual consistency across chapters, the uniformly crisp, helpful chapter summaries, and the practical appendices, generous resources lists, and well organized bibliographies. I particularly like the contributors' subtle appreciation of theoretical nuance, genuine open-mindedness to diversity of ideas, and willingness to synthesize in a pragmatic and client-oriented manner.

John C. Gonsiorek, PhD, Minneapolis, MN, USA, Diplomate in Clinical Psychology, American Board of Professional Psychology, Past President, Society for the Psychological Study of Lesbian and Gay Issues, Division 44 of the American Psychological Association. Pink Therapy is the first British guide for counsellors and therapists working with people who are lesbian, gay, or bisexual. It provides a much needed overview of lesbian, gay, and bisexual psychology and examines some of the differences between lesbians, gays, and bisexuals and heterosexuals. Pink Therapy proposes a model of gay affirmative therapy which challenges the prevailing pathologizing models. It will help to provide answers to pressing questions such as: what is different about lesbian, gay, and bisexual psychologies? how can I improve my work with lesbian, gay, and bisexual clients? what are the key clinical issues that this work raises? The contributors draw on their wide range of practical experience to provide, in an accessible style, information about the contemporary experience of living as a lesbian, gay, or bisexual person and to explore some of the common difficulties. Pink Therapy will be important reading for students and practitioners of counselling and psychotherapy and will also be of value to anyone involved in helping people with a lesbian, gay, or bisexual orientation.

[The Handbook of Sexuality in Close Relationships](#) John H. Harvey, Amy Wenzel, Susan Sprecher, 2004-04-26 Although sexuality is an integral part of close romantic relationships, research linking these two constructs has been less systematic than other areas pertaining to close relationships. *Handbook of Interpersonal Commitment and Relationship Stability* Jeffrey M. Adams, Warren H. Jones, 2012-12-06 A fundamental assumption underlying the formation of our most important relationships is that they will persist indefinitely into the future As an acquaintanceship turns into a friendship for example both members of this newly formed interpersonal bond are likely to expect that their interactions will become increasingly frequent diverse and intimate over time This expectation is perhaps most apparent in romantically involved couples who through a variety of verbal and symbolic means make explicit pledges to a long lasting relationship In either case it is clear that these relationships represent something valuable to the individuals involved and are pursued with great enthusiasm Virtually all close relationships are formed within the context of mutually rewarding interactions and or strong physical attraction between partners Friends and romantically involved couples alike are drawn to one another because of similarity of attitudes interests and personality and quite simply because they enjoy one another's company This enjoyment coupled with the novelty that characterizes new relationships almost makes the continuation of the relationship a foregone conclusion As relationships progress however their novelty fades conflicts may arise between partners negative life events may occur and the satisfaction that previously characterized the relationships may diminish *Clinical Handbook of Couple Therapy, Fifth Edition* Alan S.
