*Making Life Work* Jack Levinson, Group homes emerged in the United States in the 1970s as a solution to the failure of the large institutions that for more than a century segregated and abused people with intellectual and developmental disabilities Yet community services have not for the most part delivered on the promises of rights self determination and integration made more than thirty years ago and critics predominantly portray group homes simply as settings of social control *Making Life Work* is a clear eyed ethnography of a New York City group home based on more than a year of field research Jack Levinson shows how the group home needs the knowledgeable and voluntary participation of residents and counselors alike The group home is an actual workplace for counselors but for residents group home work involves working on themselves to become more autonomous Levinson reveals that rather than being seen as the antithesis of freedom the group home must be understood as representing the fundamental dilemmas between authority and the individual in contemporary liberal societies No longer inmates but citizens these people who are presumed rightly or wrongly to lack the capacity for freedom actually govern themselves Levinson a former group home counselor demonstrates that the group home depends on the very capacities for independence and individuality it cultivates in the residents At the same time he addresses the complex relationship between services and social control in the history of intellectual and developmental disabilities interrogating broader social service policies and the role of clinical practice in the community

**The Genocide Paradox** Anne O'Byrne,2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the genos on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the genos is a group constituted by this generational time the demos was invented as the anti genos with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the demos persists we experience it as a sort of genos for example the democratic nation state As a result democracies are caught in a bind disavowing genos thinking while cherishing the temporal forms of genos life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy s deficits and its struggle to entertain multiple temporalities In addition it leaves us unprepared for understanding the relation between demos and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy

*Getting God Wrong* G. S. Kohler,2023-10-06 Reading a tone of voice into printed words especially the personal experience of an email or text can disconnect two people even friends Having one friend reinterpret the way another heard the words with their own tone of voice may lead them into discovering how Jesus seems to hear God differently even though he read the same Bible In *Getting God Wrong* the reader is invited into a conversation on how they taught themselves to misunderstand the One who loves them best Instructions is the same word that gets translated commandments and guidance is the same word sometimes translated law This shift of translations can affect one s emotional engagement with the ideas People have told themselves for centuries that God marched the people of Israel out of four hundred years of slavery out into the desert to tell them Now you ll be my slaves and live under my commandments What if God used a different tone of voice and not the one people usually hear as they read *Getting God Wrong* suggests that God wants people to hear his heart as clearly as Jesus lived it out in front of them Jesus is God s tone of voice

**Stuck** Steve Shores,2022-03-30 It s a common thought that it s wise to meet people where they are But what if we don t know where we are This book entertains the idea that although humans can dock two fantastically complex machines in space and manage all manner of equally complex coordinates in the process we may not know our own coordinates The machines in space may be secured while we are adrift How is it that we are so skilled at feats of engineering yet so alienated from ourselves that we aren t where we think we are This book aims to shed light on how we arrive at such self estrangement and how to begin clarifying where we actually are The clarity I hope will make it easier for us to connect with one another so that our relationships are less troubled and are more likely to be transformed into sanctuary
