Exploring the American Civil War through 50 Historic Treasures Julie L. Holcomb, 2021-05-15 *Exploring the American Civil War through 50 Historic Treasures* brings together historic objects documents artwork and the natural and built environments to tell the full story of this important event in American history

The American Civil War still matters. It matters because the war, its causes and its consequences continue to influence America as a nation. At its core, the Civil War was about slavery. Began as a fight to secure the future of slavery, the Civil War resulted instead in the abolition of slavery. The complex racial issues at its core, however, remain with us today. Exploring the American Civil War through 50 Historic Treasures begins with the causes of the war, examining objects that tell the story of slavery and its expansion in the nineteenth century. Cultural treasures representing the war years explore the battlefield and the homefront and the men and women caught up in the war, as well as the ways in which the scale of the war forced technological innovations. Given the centrality of slavery, race, and emancipation in the story of the Civil War, one section presents objects that detail how free and enslaved blacks transformed the war effort and were in turn transformed by the war. In the final section, the historic treasures trace the ongoing impact of the war, including the dramatic increase in the removal of Confederate monuments in the summer of 2020. Each object's story is detailed with color photos that draw readers into the story of the American Civil War. Many of these objects appear here in print for the first time.

William Wells Brown William Wells Brown, 2010-01-25 Born into slavery in Kentucky, William Wells Brown (1814-1884) was kept functionally illiterate until after his escape at the age of nineteen. Remarkably, he became the most widely published and versatile African American writer of the nineteenth century, as well as an important leader in the abolitionist and temperance movements. Brown wrote extensively as a journalist but was also a pioneer in other literary genres. His many groundbreaking works include *Clotel*, the first African American novel; *The Escape; or, A Leap for Freedom*, the first published African American play; *Three Years in Europe*, the first African American European travelogue; and *The Negro in the American Rebellion*, the first history of African American military service in the Civil War. Brown also wrote one of the most important fugitive slave narratives and a striking array of subsequent self-narratives, so inventively shifting in content, form, and textual presentation as to place him second only to Frederick Douglass among nineteenth-century African American autobiographers. Ezra Greenspan has selected the best of Brown's work in a range of fields, including fiction, drama, history, politics, autobiography, and travel. The volume opens with an introductory essay that places Brown and his work in a cultural and political context. Each chapter begins with a detailed introductory headnote, and the contents are closely annotated; there is also a selected bibliography. This reader offers an introduction to the work of a major African American writer who was engaged in many of the important debates of his time.

[The Race for America](#) R. J. Boutelle, 2023-09-13 As Manifest Destiny took hold in the national consciousness, what did it mean for African Americans who were excluded from its ambitions for an expanding American empire that would shepherd the Western Hemisphere into a new era of civilization and prosperity? R. J. Boutelle explores how Black intellectuals like Daniel Peterson, James McCune Smith, Mary Ann Shadd, Henry Bibb, and Martin Delany engaged this cultural mythology to theorize and practice Black internationalism. He uncovers how their strategies for challenging Manifest Destiny's white nationalist ideology and expansionist political agenda constituted a form of

disidentification a deconstructing and reassembling of this discourse that marshals Black experiences as racialized subjects to imagine novel geopolitical mythologies and projects to compete with Manifest Destiny Employing Black internationalist hemispheric and diasporic frameworks to examine the emigrationist and solidarity projects that African Americans proposed as alternatives to Manifest Destiny Boutelle attends to sites integral to US aspirations of hemispheric dominion Liberia Nicaragua Canada and Cuba In doing so Boutelle offers a searing history of how internalized fantasies of American exceptionalism burdened the Black geopolitical imagination that encouraged settler colonial and imperialist projects in the Americas and West Africa Rites of August First Jeffrey R. Kerr-Ritchie, 2007-08 In Rites of August First J R Kerr Ritchie provides the first detailed analysis of the origins nature and consequences of August First Day the most important annual celebration of the emancipation of colonial slavery throughout the British Empire Spanning the Western hemisphere Kerr Ritchie successfully unravels the cultural politics of emancipation celebrations analyzing the social practices informed by public ritual symbol and spectacle designed to elicit feelings of common identity among blacks in the Atlantic world
