Tunisia Christopher Alexander, 2010-03-02 This book gives a concise yet comprehensive overview of Tunisia's political and economic development from the mid nineteenth century to the present Written specifically for a non specialist audience the book examines the factors that make Tunisia one of the Arab world's most stable and prosperous countries and one of its hardest authoritarian orders The author explores these themes in a way that sheds light on the political dynamics of the broader Arabic speaking Muslim world Christopher Alexander draws on extensive primary and secondary research and on comparison with other countries in the region to provide the most up to date introduction to Tunisia's post independence politics Challenging the notion that Tunisia's stability is rooted in a unique political culture he argues that Tunisia's stability reflects the pragmatic interests of a wide range of actors and the skillful maneuvering of the country's two presidents Concisely written chapters cover topics such as state formation domestic politics economic development foreign relations colonialism An essential inclusion on courses on Middle Eastern politics African politics and political science in general this accessible introduction to Tunisia will also be of interest to anyone wishing to learn more

about this significant region      *Ruling But Not Governing* Steven A. Cook,2007-05-01 *Ruling But Not Governing* highlights the critical role that the military plays in the stability of the Egyptian Algerian and until recently Turkish political systems This in depth study demonstrates that while the soldiers and materiel of Middle Eastern militaries form the obvious outer perimeter of regime protection it is actually the less apparent multilayered institutional legacies of military domination that play the decisive role in regime maintenance Steven A Cook uncovers the complex and nuanced character of the military s interest in maintaining a facade of democracy He explores how an authoritarian elite hijack seemingly democratic practices such as elections multiparty politics and a relatively freer press as part of a strategy to ensure the durability of authoritarian systems Using Turkey s recent reforms as a point of departure the study also explores ways external political actors can improve the likelihood of political change in Egypt and Algeria *Ruling But Not Governing* provides valuable insight into the political dynamics that perpetuate authoritarian regimes and offers novel ways to promote democratic change

**Democracy without Associations** Pradeep K. Chhibber,2010-05-18 India s party system has undergone a profound transformation over the last decade The Congress Party a catch all party that brought independence in 1947 and governed India for much of the period since then no longer dominates the electoral scene Political parties which draw support from particular caste and religious groups are now more powerful than ever before *Democracy Without Associations* explains why religious and caste based political parties come to dominate the electoral landscape in 1990s India and why catch all parties have declined Arguing that political parties and state policy can make some social divisions more salient than others and also determine how these divisions affect the political system the author offers an explanation for the relationship between electoral competition and the politicization of social differences in India He notes that the relationship between social cleavages and the party system is not axiomatic and that political parties can influence the links they have to social cleavages The argument developed for India is also used to account for emergence of class based parties in Spain and the electoral success of a religious party in Algeria *Democracy Without Associations* will interest scholars and students of Indian politics and party politics as well as those interested in the impact of social divisions on the political system Pradeep K Chhibber is Assistant Professor of Political Science and Associate Director Center for South and Southeast Asian Studies University of Michigan

*The Virtues of Violence* Kevin Duong,2020-03-19 If democracy liberates individuals from their inherited bonds what can reunite them into a sovereign people In *The Virtues of Violence* Kevin Duong argues that one particular answer captivated modern French thinkers popular violence as social regeneration In this tradition of political theory the people s violence was not a sign of anarchy or disorder Instead it manifested a redemptive power capable of binding and repairing a society on the cusp of social disintegration This was not a fringe view of French democracy at the time but central to its momentous

development Duong analyzes the recurring role of the people's redemptive violence across four historical moments: the French Revolution, the imperial conquest of Algeria, the Paris Commune, and the years leading up to World War I. Bringing together democratic theory and intellectual history, he reveals how political thinkers across the spectrum proclaimed that violence by the people could repair the social fabric even as they experienced democratization as social disintegration. The path from an anarchic multitude to an organized democratic society required the virtuous expression of violence by the people, not its prohibition. Duong's book urges us to reject accounts that view redemptive violence as an antidemocratic pathology. It challenges the long-held view that popular violence is a sign of anarchy or disorder. As shocking and unsettling as redemptive violence could be, it appealed to thinkers across the spectrum because it answered a fundamental dilemma of political modernity: how to replace the severed bonds of the old regime with a superior democratic social bond. *The Virtues of Violence* argues we do not properly understand modern democracy unless we can understand why popular redemptive violence could be invoked on its behalf.

**Resurrecting the Granary of Rome** Diana K. Davis, 2007-09-11 Publisher description **The Killer Trail**, 2009-10-22 The Killer Trail tells the tale of one of the most notorious atrocities to take place during the European scramble for Africa: a real-life story of insane violence in the heart of an exotic continent that eerily prefigures fictional accounts such as *The Heart of Darkness* and *Apocalypse Now*. The Voulet-Chanoine mission left Dakar in 1898 for the centre of Africa and the region of Lake Chad with the aim of establishing effective borders between the French and British empires while pacifying a notoriously belligerent region. Wreaking havoc as it went along, the mission degenerated into an extraordinary display of colonial violence and cruelty, leaving a trail of pillage, murder, and enslavement of the local inhabitants in its wake. When the story of its outrages reached Paris in 1899, there was a public uproar, and a second mission was dispatched to investigate. Eventually, on July 14, 1899, the two missions met and confronted each other in a dramatic shootout which led Voulet and Chanoine to declare their independence from France and their desire to establish an African kingdom under their own rule. But their mad dreams of kingship were soon cut short when they fell prey to a mutiny among the African soldiers under their command, in which they were both killed. The whole bizarre tale of Voulet and Chanoine's mission sharply divided opinion back home in France but was eventually explained away as the action of two deranged minds. Yet as Bertrand Taithe shows, it was not simply a tale of individual insanity. In many ways, the actions of Voulet and Chanoine and their men simply took the violence of European colonialism to a logical extreme, while the way in which the whole affair was soon forgotten is highly revealing of western attitudes to imperial excess in Africa and elsewhere.

 Bordeaux Champagne The names of these and other French regions bring to mind time honored winemaking practices Yet  
 the link between wine and place in French known as *terroir* was not a given In *The Sober Revolution* Joseph Bohling inverts  
 our understanding of French wine history by revealing a modern connection between wine and place one with profound ties  
 to such diverse and sometimes unlikely issues as alcoholism drunk driving regional tourism Algeria s independence from  
 French rule and integration into the European Economic Community In the 1930s cheap mass produced wines from the  
 Languedoc region of southern France and French Algeria dominated French markets Artisanal wine producers worried about  
 the impact of these inferior products on the reputation of their wines created a system of regional appellation labeling to  
 reform the industry in their favor by linking quality to the place of origin At the same time the loss of Algeria once the world s  
 largest wine exporter forced the industry to rethink wine production Over several decades appellation producers were joined  
 by technocrats public health activists tourism boosters and other dynamic economic actors who blamed cheap industrial wine  
 for hindering efforts to modernize France Today scholars food activists and wine enthusiasts see the appellation system as a  
 counterweight to globalization and industrial food But as *The Sober Revolution* reveals French efforts to localize wine and  
 integrate into global markets were not antagonistic but instead mutually dependent The time honored winemaking practices  
 that we associate with a pastoral vision of traditional France were in fact a strategy deployed by the wine industry to meet  
 the challenges and opportunities of the post 1945 international economy France s luxury wine producers were more market

savvy than we realize      Taking Power John Foran,2005-11-17 Taking Power analyzes the causes behind some three dozen revolutions in the Third World between 1910 and the present It advances a theory that seeks to integrate the political economic and cultural factors that brought these revolutions about and links structural theorizing with original ideas on culture and agency It attempts to explain why so few revolutions have succeeded while so many have failed The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910 China 1949 Cuba 1959 Iran 1979 and Nicaragua 1979 the anticolonial revolutions in Algeria Vietnam Angola Mozambique and Zimbabwe from the 1940s to the 1970s and the failed revolutionary attempts in El Salvador Peru and elsewhere It closes with speculation about the future of revolutions in an age of globalization with special attention to Chiapas the post September 11 world and the global justice movement      **Interpreting Islamic Political Parties** M. Salih,2009-09-28 Interpreting Islamic Political Parties offer a critical analysis and explanation of the evolution institutionalization and current developments of Islamic political parties The volume contains case studies of Islamic political parties in Algeria Egypt Indonesia Kuwait Lebanon Malaysia Maldives Mauritius Somalia South Africa and Sudan      **State and Society in Mid-Nineteenth-Century Egypt** Ehud R. Toledano,2003-02-13 Previous studies of nineteenth century Egypt have often been premature in identifying the existence of an independent nation state In a way which will permanently affect our view of Egyptian history this book argues that in the mid nineteenth century period Egypt was still an Ottoman province with a provincial Ottoman elite which was only gradually becoming Egyptian Part one discusses the creation of a dynastic order in Egypt especially under Abbas Pasa 1848 1854 and the formation of an Ottoman Egyptian ruling class Part two deals with the non elite groups the vast majority of Egypt s population A final chapter offers a convincing picture of the social and cultural life of the period in a way which has never before been attempted in a Middle East context The author s valuable knowledge of Ottoman and Arabic as well as European documents and his use of a wide variety of sources including police and court records chronicles and travel literature have enabled him to make an important contribution to a neglected period of Egyptian history and indeed to our understanding of other provinces and dependencies in the region      **Islam and Resistance in Afghanistan** Olivier Roy,1990 This history of the Afghan resistance movement has been expanded and updated to mid 1989 to include its evolution over the last years of Soviet occupation as well as its relations with Islamic fundamentalist movements      The Algerian Civil War, 1990-1998 Luis Martínez,2000 The civil war in Algeria shows no sign of imminent resolution Yet little has been written about the conflict its various participants and the opinions of Algerians indeed even about what exactly is being fought over Rather than presenting a historical account of the conflict The Algerian Civil War focuses on the strategies employed by the war s main combatants      *North Africa* Phillip C. Naylor,2009-12-03 North Africa has been a vital crossroads throughout history serving as a connection between Africa Asia and Europe Paradoxically however the region s historical significance has been chronically underestimated In a book that may lead scholars to reimagine the concept of

Western civilization incorporating the role North African peoples played in shaping the West Phillip Naylor describes a locale whose transcultural heritage serves as a crucial hinge politically economically and socially Ideal for novices and specialists alike North Africa begins with an acknowledgment that defining this area has presented challenges throughout history Naylor s survey encompasses the Paleolithic period and early Egyptian cultures leading readers through the pharonic dynasties the conflicts with Rome and Carthage the rise of Islam the growth of the Ottoman Empire European incursions and the postcolonial prospects for Egypt Libya Tunisia Algeria Morocco and Western Sahara Emphasizing the importance of encounters and interactions among civilizations North Africa maps a prominent future for scholarship about this pivotal region
