Making Sense of Marx Jon Elster, 1985-05-09 A critical examination of the social theories of Karl Marx **Marxism and the Making of China** J. Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship *The Making of Chicana/o Studies* Rodolfo Acuña, 2011 The Making of Chicana o Studies traces the philosophy and historical development of the field of Chicana o studies from precursor movements to the Civil Rights era to today focusing its lens on the political machinations in higher education that sought to destroy the discipline As a renowned leader activist scholar and founding member of the movement to establish this curriculum in the California State University system which serves as a model for the rest of the country Rodolfo F Acu a has for more than forty years battled the trend in academia to deprive this group of its academic presence The book assesses the development of Chicana o studies an area of studies that has even more value today than at its inception myths about its epistemological foundations have remained uncontested Acu a sets the record straight challenging those in the academy who would fold the discipline into Latino studies shadow it under the dubious umbrella of ethnic studies or eliminate it altogether Building the largest Chicana o studies program in the nation was no easy feat especially in an atmosphere of academic contention In this remarkable account Acu a reveals how California State University Northridge was instrumental in developing an area of study that offers more than 166 sections per semester taught by 26 tenured and 45 part time instructors He provides vignettes of successful programs across the country and offers contemporary educators and students a game plan the mechanics for creating a

successful Chicana o studies discipline and a comprehensive index of current Chicana o studies programs nationwide Latinas os of which Mexican Americans are nearly seventy percent comprise a complex sector of society projected to be just shy of thirty percent of the nation s population by 2050 *The Making of Chicana o Studies* identifies what went wrong in the history of Chicana o studies and offers tangible solutions for the future *Making Histories* CCCS,2013-12-16 First published in 2006 Routledge is an imprint of Taylor Francis an informa company *Louis Althusser and the Traditions of French Marxism* William S. Lewis,2005-01-01 In a careful exposition of French Marxism William Lewis places Althusser and his thought alongside the pre and post war French communist intellectual climate the result is an excellent and unique work Part theoretical treatise on some of Althusser s more complicated and less explored ideas part intellectual history *Louis Althusser and the Traditions of French Marxism* is in total an important text for philosophy French and francophone studies political thought cultural studies marxist thought and several other disciplines interested in the intellectual life and times of the twentieth century *Ghosts* P. Buse,A. Stott,1999-01-28 Did you know that the father of psychoanalysis believed in ghosts or that Frederick Engels attended seances *Ghosts Deconstruction Psychoanalysis History* is the first collection of theoretical essays to evaluate these facts and consider the importance of the metaphor of haunting as it has appeared in literature culture and philosophy Haunting is considered as both a literal and figurative term that encapsulates social anxieties and concerns The collection includes discussions of nineteenth century spiritualism gothic and postcolonial ghost stories and popular film with essays on important theoretical writers including Freud Derrida Adorno and Walter Benjamin *The Making of a State* Tomáš Garrigue Masaryk,1927 **AMBEDKAR AND THE MAKING OF MODERN INDIA: SOCIAL TRANSFORMATION, DEMOCRACY AND GENDER JUSTICE** Dr. Chittaranjan Mallik, The idea of writing this book has been germinating in my mind for long time but due to certain unavoidable reason could not get it finished Really it is very tough task to put together Dr Babasaheb Ambedkar s ideas and thoughts on entirety in a single book yet this book is an attempt to provide a coherent account on his socio political struggles to establish an egalitarian transformative society with the ideas of liberty equality fraternity and social justice through the Constitutional means with all odds of caste indignities and challenged the age old social structure intellectually rooting on the ground and rendered unwavering contributions in making modern India *Law in the Making* Alessandro Pizzorusso,2012-12-06 The present volume presents a part of the results of a research project launched by the European Science Foundation ESF in 1977 Tribute should be paid to the late Professor Aleck Chloros Judge in the Court of the European Community whose belief in the European ideal and enthusiasm for European cooperation and the comparative study of legal problems made him an elo quent advocate of a large scale ESF venture into the field of com parative law Judge Chloros had envisaged the creation of a per manent sizable and well equipped European institute for compa rative legal studies The successive working parties convoked by the Executive Council of the ESF which I had the honour of chairing from the beginning came to the conclusion that this am bitious vision

could not be realized immediately the financial situation of the member organizations of the ESF also deteriorated making a cautious approach a necessary virtue The solution ultimately adopted by the last of the working parties the Ad Hoc Committee for Comparative Law and submitted to the General Assembly of the ESF in 1979 called for the launching of four pilot projects In November 1980 the Assembly approved detailed plans for two of these projects The first of these dealing with medical responsibility has already been presented in an impressive volume E Deutsch and H L Schreiber editors *Medical Responsibility in Western Europe* Making Transformative Geographies Benedikt Schmid,2020-06-03 In the light of social and environmental unsustainability and injustice the continuing attachment to the idea that a growth based economy is reconcilable with human prosperity and ecological limits seems increasingly implausible Tracing and dissecting the complexities of social change Making Transformative Geographies speaks about the development of visions alternatives and strategies for a radical transformation beyond accumulation and growth Covering an empirical sample of 24 eco social organizations projects and groupings in the city of Stuttgart Germany the book drills down into the social spatial and strategic dimensions of transformation It advances a conceptually and empirically grounded assessment of the possibilities and limitations of community activism and civic engagement for shifting transformative geographies towards a degrowth trajectory Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan,2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does **The Truth Shall Make You Free** Gustavo Guti rrez,1990 Building on his classic A Theology of Liberation the world's preeminent liberation theologian addresses some of the challenges that have been raised against this new way of doing theology and charts its prospects for the future The Truth Shall Make You Free brings to the forefront liberation theology's answers to its critics refining the terms of discussion and opening the way for further dialogue moving the discussion and debate to the next higher plane **The Use of Mao and the Chongqing Model** Joseph Y.S. CHENG,2015-07-10 MAO Zedong was a Chinese communist leader and founder of the People's Republic of China He developed his own ideology and methodology known as Maoism or Mao Zedong Thought and his thought has a great

influence in China or even overseas This book aims at bringing together a group of scholars to address the uses of Mao in China PRC today with special reference to the Bo Xilai case It also provides insights and detail on how and what we know about modern China Contributing authors including a number of French scholars illustrate how Maoism influences and engages in government business sector or social life This timely volume will be of considerable interest to scholars journalists and those keen to better understand the changing values in China today

Making Money Peet van Biljon,Alexandra Lajoux,2020-01-20 How much do you really know about money Everyone uses it but few know how it really works Most books about money focus on specific aspects This book breaks through the usual silos to present money as a broad social technology that serves the current needs of society It reviews the latest developments in financial technology including cryptocurrency blockchain and the prospect of a cashless future and clears up many misconceptions in the process Starting with a very brief history the authors provide insights on how money is made why money has value and what can change its value how central banks treasuries foreign exchange lending and blockchain work why you may be trading against robots and privacy and security issues in an increasingly cashless society that will change our lives While written for a broad audience this book is also essential reading for students entering courses in the area of business finance or money and banking
