*The Making of the Scottish Countryside* M.L. Parry, T.R. Slater, 1980-01-01      **The Making of the Scottish Rural Landscape** David Turnock, 2016-12-05 This book looks at the evolution of rural settlement in Scotland from the Mesolithic period through to the improving movement of the 18th and 19th centuries The main emphasis is on changes in society and technology but the book also considers how the development of the physical landscape laid the foundation for such changes The author strikes a balance between general perspectives including relevant contextual materials such as the political structures and local studies with much emphasis on individual sites Lack of documentation prior to the 10th century places particular importance on the archaeological evidence but imaginative interpretation of this evidence has led to a major re evaluation Ideas emphasizing continuity of settlement and local adaptation are replacing older invasionist theories emphasizing Celtic war lords and broch building pirates      *Countryside Management* Mr Peter Bromley, 2013-11-05 This management handbook explains the skills and systems needed by all those involved in managing the countryside It deals with the process of management national trends establishing local policies and priorities implementing schemes as well as the legislation which surrounds countryside management      **The Georgian Triumph, 1700-1830** Michael Reed, 2024-11-01 In *The Georgian Triumph 1700 1830* originally published in 1983 Michael Reed re creates the ambience of eighteenth century Britain a period of astonishing change and paradoxically of massive stability Both the change and the stability were reflected in the landscape Dr Reed explores the visual impact on the landscape of the adoption of new ideas and practices These range from the acceptance of the Palladian style of architecture and its gradual replacement by a taste for Gothic Picturesque or Chinese designs to the practical exploration of the power of atmospheric pressure and improvements in road making techniques and the design of water wheels He describes the feel of what it must have been like to live through the years which saw the beginning of the end for the old medieval society and the birth of a modern industrial nation Traditional ways of life were slowly abandoned as ancient open fields were enclosed and divided up by straight roads and hedgerows Changes in the moral climate led to the gradual disappearance of village feasts and the suppression of cockfighting and bull running while other more acceptable pastimes such as horse racing and cricket acquired rules and institutions The book shows that these changes were brought about by people at work and at play going about their everyday affairs they wrote and re wrote upon the landscape the autobiography of the society of which they formed a part reflecting its aspirations ideals and achievements      *History of the Native Woodlands of Scotland 1500-1920* T. Fisher,2022-07-21 The rise of agrarian capitalism in Britain is usually told as a story about markets land and wages This study reveals that it was also about books knowledge and expertise challenging the dominant narrative of an agricultural enlightenment and showing how farming books appropriated traditional knowledge in pre industrial Britain

Church and State in Modern Britain 1700-1850 Richard Brown,2002-01-04 In this the second part of his history of the Industrial Revolution Richard Brown examines the political and religious developments which took place in Britain between the 1780s and 1840s in terms of the aristocratic elite and through the expression of alternative radical ideologies Opening with a discussion of the nature of history and of Britain in 1700 it goes on to consider Britain s foreign policy the emergence of the modern state and the mid century crisis of the 1840s Unlike many previous works it emphasises British not just English history It is this diversity of experience and the focus on continuity as well as change women as well as men that makes this a distinctive text Students will also find the theoretical foundations of historical narrative and analysis clearly explained

**Society and Economy in Modern Britain 1700-1850** Richard Brown,2002-11-01 For both contemporaries and later historians the Industrial Revolution is viewed as a turning point in modern British history There is no doubt that change occurred but what was the nature of that change and how did it affect rural and urban society Beginning with an examination of the nature of history and Britain in 1700 this volume focuses on the economic and social aspects of the Industrial Revolution Unlike many previous textbooks on the same period it emphasizes British history and deals with developments in Wales Scotland and Ireland in their own right It is the emphasis on the diversity not the uniformity of experience on continuities as well as change in this crucial period of development which makes this volume distinctive In his companion title Richard Brown completes his examination of the period and looks at the changes that took place in Britain s political system and in its religious affiliations

**Landscape and History since 1500** Ian D. Whyte,2004-03-03 Landscape and History explores a complex relationship over the past five centuries The book is international and interdisciplinary in scope drawing on material from social economic and cultural history as well as from geography archaeology cultural geography planning and landscape history In recent years as the author points out there has been increasing interest in and concern for many aspects of landscape within British European and wider contexts This has included the study of the history development and changes in our perception of landscape as well as research into the links between past landscapes and political ideologies economic and social structures cartography art and literature There is also considerable concern at present with the need to evaluate and classify historic

landscapes and to develop policies for their conservation and management in relation to their scenic heritage and recreational value This is manifest not only in the designation of particularly valued areas with enhanced protection from planning developments such as national parks and world heritage sites but in the countryside more generally Further Ian D Whyte argues changes in European Union policies relating to agriculture with a greater concern for the protection and sustainable management of rural landscapes are likely to be of major importance in relation to the themes of continuity and change in the landscapes of Britain and Europe

suffering of their forebears David has the eye the imagination and the descriptive density of early Bruce Chatwin Toronto Globe Mail     'The People Are Not There' David Taylor,2022-08-04 Winner of the Saltire Society Scottish History Book of the Year Award Badenoch today is a landscape of empty glens and ruined settlements but it was not always so This book examines the transformative events that shaped the region s destiny climate and market forces hunger and relief measures sheep farms and sporting estates agricultural improvement and proprietorial greed and the evolution of clanship Although this is an intensely localised study the dramatic nature of change is explored against the wider context of events not just across the Highlands but also within the British state and its global empire Badenoch s journey moves from the relative prosperity of the Napoleonic Wars into the terrible post war destitution that devastated peasant tacksman and Duke of Gordon alike Estate reform and improvement gradually brought a degree of economic and social stability but inevitably resulted in depopulation as people were forced off the land to seek refuge in the impoverished planned villages or to abandon their Gaelic homeland for life in the Lowlands For those with the means however emigration provided lucrative opportunities unimaginable at home Through extensive use of documentary evidence much of it previously unseen David Taylor paints an intimate portrait of the historically neglected region of Badenoch one that provides a compelling new perspective on Highland history     Nationality and Planning in Scotland and Wales Roderick Macdonald,Huw Thomas,1997 This study looks at the ways in which the planning problems and approaches of Scotland and Wales are sometimes similar to and sometimes very different from each other and evaluates some central elements of planning and economic development urban and rural in the two countries
