A Genealogy of Cyborgothic Dongshin Yi,2017-03-02 In his provocative and timely study of posthumanism Dongshin Yi adopts an imaginary imaginative approach to exploring the transformative power of the cyborg a strategy that introduces balance to the current discourses dominated by the practicalities of technoscience and the dictates of anthropocentrism Proposing the term cyborgothic to characterize a new genre that may emerge from gothic literature and science fiction Yi introduces mothering as an aesthetic and ethical practice that can enable a posthumanist relationship

between human and non human beings Yi examines the cyborg s literary manifestations in novels including *The Mysteries of Udolpho* *Frankenstein* *Dracula* *Arrowsmith* and *He She and It* alongside philosophical and critical texts such as Edmund Burke s *A Philosophical Enquiry into the Origins of Our ideas of the Sublime and Beautiful* Immanuel Kant s *Critique of Judgment* John Stuart Mill s *Utilitarianism* and *System of Logic* William James s essays on pragmatism ethical treatises on otherness and things feminist writings on motherhood and recent studies of posthumanism Arguing humans imagine the cyborg in ways that are seriously limited by fear of the unknown and current understandings of science and technology Yi identifies in gothic literature a practice of the beautiful that extends the operation of sensibility heightened by gothic manifestations or situations to surrounding objects and people so that new feelings flow in and attenuate fear In science fiction which demonstrates how society has accommodated science Yi locates ethical corrections to the anthropocentric trajectory that such accommodation has taken Thus *A Genealogy of Cyborgothic* imagines a new literary genre that helps envision a cyborg friendly non anthropocentric posthuman society Encoded with gothic literature s aesthetic embrace of fear and science fiction s ethical criticism of anthropocentrism the cyborgothic retains the prospective nature of these genres and develops mothering as an aesthetico ethical practice that both humans and cyborgs should perform *The Transylvanian Clockworks* Don Nigro,1996 **Hammer Complete** Howard Maxford,2019-11-08 Think you know everything there is to know about Hammer Films the fabled Studio that Dripped Blood The lowdown on all the imperishable classics of horror like *The Curse of Frankenstein* *Horror of Dracula* and *The Devil Rides Out* What about the company s less blood curdling back catalog What about the musicals comedies and travelogues the fantasies and historical epics not to mention the pirate adventures This lavishly illustrated encyclopedia covers every Hammer film and television production in thorough detail including budgets shooting schedules publicity and more along with all the actors supporting players writers directors producers composers and technicians Packed with quotes behind the scenes anecdotes credit lists and production specifics this all inclusive reference work is the last word on this cherished cinematic institution **Twisted Tales of Terror** Jeanine Harvey,2009 Flexible cast of 16 m and 21 f or 8 m and 12 f with doubling Comedy Jr High High School Simple set In a spooky graveyard the darkly lovely Claudia a Guardian of Dark Tales retells famous horror stories much to the delight of her lumpy husband Igor As she tells classics such as *Dracula* *Frankenstein* *The Three Werewolves* *Jekyll and Hyde* *The Tragic Tale of the Mummy* and *The Three Witches* the characters come to life However the stories are all a bit different than we ex *The Ecogothic Werewolf in Literature* Kaja Franck,2025-08-21 Using an Ecogothic lens this book offers a new conceptual framework for the werewolf in literature recasting the lycanthrope as an emblem for society s fear of untamed wilderness Tracing lycanthropy from a place of liminality to hybridity and to myriad and complex subjectivities *The Ecogothic Werewolf in Literature* reassesses the Gothic werewolf to show how the relationship between humans and wolves has influenced its representation in literature Starting with *Dracula* and tracing lycanthropic imaginings through natural histories folk and fairy
