Making A Comeback:

Wildlife Making a Comeback, 1987 **Tomorrow on Cassette** Benjamin Duester, 2025-05-15 Growing sales numbers for cassette tapes in the Global North since the early 2010s have led mass media outlets to repeatedly proclaim a tape revival Yet the grassroots projects of devotees in niche punk noise and hip hop DIY music scenes have continuously upheld the unique material benefits of cassettes while wider society considered them a relic of bygone times Contrasting the popular notion of current cassette use being a mere side effect of the blazing interest in the vinyl record this book argues that the lasting embrace of tapes is based on complex cultural economic and material factors that shape cassettes as hybrid artefacts of music in the new media age Drawing on interviews with 85 experts active in DIY music cultures as independent record shop operators musicians event promoters fans and collectors across Japan Australia and the United States Tomorrow on Cassette presents a seminal exploration of how the cassette tape s significance as a tool for material expression creativity and sociality perseveres in the 21st century **Agriculture and Related Agencies Appropriations for 1976** United States. the argument that megaprojects embody the dynamics of multiscalar strategic relations that determine the process and outcome of urbanization. These projects create iconic landmarks, new towns, central business districts, and infrastructure showcasing intertwined political and economic interests. By examining contemporary megaprojects in China, South Korea, Taiwan, India, Malaysia, and Turkey, the contributing authors reveal the complexity of urbanizing forces and their multiscalar nature in shaping the built environment and shed light on the intricate interplay of state strategies, economic needs, and sociopolitical forces that influence urban landscapes. This interdisciplinary work provides a nuanced understanding of the political economy underpinning Asian urbanization and contributes to ongoing debates on urban development, state-society relations, and the production of space in the context of globalization. Crisis Gardening Jonathan Kingsley, Monika Egerer, 2025-08-01 Gardening during times of crisis can have significant benefits to individuals and populations in terms of health, well-being, social, and economic outcomes. So-called crisis gardening can even be linked to transformative change in food systems through socio-ecological aspects of agroecology. In this book, crisis gardening is explored to better define, describe, and provide recommendations about this activity globally. Diverse perspectives are offered from scholars around the world, providing an overview of gardening during crises with ties to agroecology. Such a perspective is critical as we grapple with food system crises, pandemics, climate change, biodiversity loss, mental health issues, and political conflict globally. The first section defines and explains crisis gardening in relation to agroecology, transformative change in food systems, and public health. The second section describes case studies from around the world of crisis gardening from various social-ecological perspectives. The third section provides policy and practice recommendations and how to scale up the lessons from crisis gardening to transform food systems, public health systems, and policy and landscape planning processes. Bringing together leaders and experts, academics, policy makers, and practitioners from around the world, the book provides case studies of crisis gardening and develops recommendations to harness the lessons from this practice.
