Making Babies

Mary L. Shanley

Making Babies:

Making Babies Peter Singer, Deane Wells, 1985 Explains the technologies of in vitro fertilization embryo freezing artificial insemination by donor surrogate motherhood and prospective methods of conception **Making Babies, Making Families**

Mary L. Shanley, 2002-04-16 Thanks to new reproductive technologies and new ways of forming families the world of parenting is opening up as never before What defines a legal family Should there be any restrictions on buying and selling eggs and sperm or hiring surrogate mothers How many parents can a child have While there s no going back to the traditional family Mary Lyndon Shanley shows us that we don t have to live in moral chaos She offers a new vision of family law that puts each child s right to be cared for at its center while also taking into account the complex needs of every family member **Making Babies** Jill Blakeway, Sami S. David, 2009-08-12 Making Babies offers a proven 3 month program

designed to help any woman get pregnant Fertility medicine today is all about aggressive surgical chemical and technological intervention but Dr David and Blakeway know a better way Starting by identifying fertility types they cover everything from recognizing the causes of fertility problems to making lifestyle choices that enhance fertility to trying surprising strategies such as taking cough medicine decreasing doses of fertility drugs or getting acupuncture along with IVF Making Babies is a must have for every woman trying to conceive whether naturally or through medical intervention Dr David and Blakeway are revolutionizing the fertility field one baby at a time Making Babies Sandra Sabatini, 2006-01-01 Although the infant has

been a consistent figure in literature and for many people a significant figure in personal life there s been little attention focused on infants or on their place in Canadian fiction until now In this book Sandra Sabatini examines Canadian fiction to trace the ideological charge behind the represented infant Examining writers from L M Montgomery and Frederick Philip Grove to Thomas King and Terry Griggs Sabatini compares women s writing about babies with the way infants appear in texts by men over the course of a century She discovers a range of changing attitudes toward babies After being seen as a source of financial burden social shame or sentimental fantasy infants have increasingly become a source of value and meaning The book challenges the perception of babies as passive objects of care and argues for a reading of the infant as a subject in itself It also reflects upon how the representations of infancy in Canadian literature offer an intriguing portrait of how we imagine ourselves *Making Babies* David Bainbridge, 2001 Drawing on past speculation and present knowledge a

reproductive biologist conducts readers through the 40 weeks of human pregnancy explaining the complex biology behind human gestation in a clear and entertaining manner 16 halftones **Making Babies** Mary Warnock, 2002-07-18 The

development of new reproductive technologies has raised urgent questions and debates about how and by whom these treatments should be controlled On the one hand individuals and groups have claimed access to assisted reproduction as a right and some have also claimed that this access should be available free of charge As well as clinically infertile heterosexual couples this right has been claimed by single women gay couples post menopausal women and couples who

wish to delay having children for various reasons Others have argued that a desire to have children does not make it a human right and moreover that there are some people who should not be assisted to become parents on grounds of age sexuality or lifestyle Mary Warnock steers a clear path through the web of complex issues underlying these views She begins by analysing what it means to claim something as a right and goes on to discuss the cases of different groups of people She also examines the ethical problems faced by particular types of assisted reproduction including artificial insemination in vitro fertilization and surrogacy and argues that in the future human cloning may well be a viable and acceptable form of treatment for some types of infertility

Making Babies the Hard Way Caroline Gallup,2007-04-15 Making Babies the Hard Way is a frank account of one couple s discovery that they cannot have children of their own and their ensuing struggle through four years of fertility treatment Writing with humour and honesty Caroline Gallup describes the social emotional spiritual and physical impact of infertility on her and her husband Bruce
