Making Majorities:

Making Majorities Dru C. Gladney, 1998 Majorities are made not born This book argues that there are no pure majorities in the Asia Pacific region broadly defined nor in the West and challenges the thesis that civilizations are composed of more or less homogeneous cultures The 14 contributors argue that emphasis on minority majority rights is based on uncritically accepted views of purity numerical superiority and social consensus **Mexico-United States**

Interparliamentary Conference, 1999 Rethinking the Union of Europe Post-Crisis Giandomenico Majone, 2014-04-24 Provocative and timely examination of European integration and the specific methods that lead to a hazardous monetary union Includes a deeper investigation of the specific crisis of monetary integration and argues how integration might be more effectively achieved with inter jurisdictional competition **The Cultural Defense of Nations** Li'av Orgad, 2015

Addressing one of the greatest challenges facing liberalism today this book asks if it is legally and morally defensible for a liberal state to restrict immigration in order to preserve the cultural rights of majority groups Orgad proposes a liberal approach to this dilemma and explores its dimensions justifications and limitations The Ashgate Research Companion to Secession Professor Peter Radan, Dr Aleksandar Pavkovic, 2013-04-28

This research companion has three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective *Majorities, Minorities, and the Future of Nationhood* Liav Orgad, Ruud Koopmans, 2022-11-24

The design of democratic institutions includes a variety of barriers to protect against the tyranny of the majority including international human rights cultural minority rights and multiculturalism In the twenty first century majorities have re asserted themselves sometimes reasonably referring to social cohesion and national identity at other times in the form of populist movements challenging core foundations of liberal democracy This volume intervenes in this debate by examining the legitimacy of conflicting majority and minority claims Are majorities a legal concept holding rights and subject to limitations How can we define a sense of nationhood that brings groups together rather than tears them apart In this volume world leading experts are brought together for the first time to debate the rights of both majorities and minorities The outcome is a fascinating exchange on one of the greatest challenges facing liberal democracies today *Institutions For Future Generations* Iñigo González-Ricoy, Axel Gosseries, 2016-12-15 In times of climate change and public debt a concern for intergenerational justice should lead us to have a closer look at theories of intergenerational justice It should also press us to provide institutional design proposals to change the decision making world that surrounds us This book provides an exhaustive overview of the most important institutional proposals as well as a systematic and theoretical discussion of their respective features and advantages It focuses on institutional proposals aimed

at taking the interests of future generations more seriously and does so from the perspective of applied political philosophy being explicit about the underlying normative choices and the latest developments in the social sciences It provides citizens activists firms charities public authorities policy analysts students and academics with the body of knowledge necessary to understand what our institutional options are and what they entail if we are concerned about today s excessive short termism

Readings in Fuzzy Sets for Intelligent Systems Didier J. Dubois, Henri Prade, Ronald R. Yager, 2014-05-12 Readings in Fuzzy Sets for Intelligent Systems is a collection of readings that explore the main facets of fuzzy sets and possibility theory and their use in intelligent systems Basic notions in fuzzy set theory are discussed along with fuzzy control and approximate reasoning Uncertainty and informativeness information processing and membership cognition neural networks and learning are also considered Comprised of eight chapters this book begins with a historical background on fuzzy sets and possibility theory citing some forerunners who discussed ideas or formal definitions very close to the basic notions introduced by Lotfi Zadeh 1978 The reader is then introduced to fundamental concepts in fuzzy set theory including symmetric summation and the setting of fuzzy logic uncertainty and informativeness and fuzzy control Subsequent chapters deal with approximate reasoning information processing decision and management sciences and membership cognition neural networks and learning Numerical methods for fuzzy clustering are described and adaptive inference in fuzzy knowledge networks is analyzed This monograph will be of interest to both students and practitioners in the fields of computer science information science applied mathematics and artificial intelligence

Subcommittee on the Constitution, 1997 *Political Theory and the European Union* Michael Nentwich, Albert Weale, 2003-09-02 The contributors to this book examine the issues of constitutional choice that face the governments and citizens of today s Europe Divided into three sections this study addresses questions of political legitimacy and the meaning of democratic deficit in the EU the reality of what institutional reforms and decision making processes are possible and the rights of citizenship and values that should be protected

The United States and Canada Paul J. Quirk, 2019-07-11 The United States and Canada share the longest border in the world maintain one of the closest alliances and are notably similar in many ways Yet the two countries also have important differences including sharply contrasting political institutions In The United States and Canada Paul J Quirk has gathered a distinguished cast of contributors to present an integrated comparative examination of the political systems of the United States and Canada with special attention to the effects of political institutions and their interaction with political values geographic and demographic factors and other influences The volume explores the differences between the American presidential or separation of powers system and the Canadian parliamentary system focusing on electoral and party systems executive leadership and the legislative process bureaucratic influence and federalism It proceeds to examine patterns of governance in a wide range of issue areas economic policy climate change policy healthcare policy civil rights

integration and immigration and abortion and gay rights A sweeping comparative account this volume serves as an authoritative guide for anyone interested in why the two countries differ and where they might be headed **Inventing the Silent Majority in Western Europe and the United States** Anna von der Goltz,Britta Waldschmidt-Nelson,2017-04-07 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe **Deliberative Democracy and Human Rights** Harold Hongju Koh,Ronald C. Slye,Ronald Slye,1999-01-01 And Ronald C Slye **Aggregation Functions in Theory and in Practise** Humberto Bustince Sola,Javier Fernandez,Radko Mesiar,Tomasa Calvo,2013-06-20 This volume collects the extended abstracts of 45 contributions of participants to the Seventh International Summer School on Aggregation Operators AGOP 2013 held at Pamplona in July 16 20 2013 These contributions cover a very broad range from the purely theoretical ones to those with a more applied focus Moreover the summaries of the plenary talks and tutorials given at the same workshop are included Together they provide a good overview of recent trends in research in aggregation functions which can be of interest to both researchers in Physics or Mathematics working on the theoretical basis of aggregation functions and to engineers who require them for applications

Classification Outline with Topical Index for Decisions of the National Labor Relations Board and Related Court Decisions United States. National Labor Relations Board,1982 **Long-term Strategies for Health Care** United States. Congress. House. Committee on Ways and Means,1992 Abstract This hearing transcript debates the current administration s degree of support for pursuing the problem of freeing the environment of lead which is poisoning approximately 3 million American each year Prescriptive Legal Positivism Tom Campbell,2024-11-01 Tom Campbell is well known for his distinctive contributions to legal and political philosophy over three decades In emphasizing the moral and political importance of taking a positivist approach to law and rights he has challenged current academic orthodoxies and made a powerful case for regaining and retaining democratic control over the content and development of human rights This collection of his essays reaches back to his pioneering work on socialist rights in the 1980s and forward from his seminal book *The Legal Theory of Ethical Positivism* 1996 An introductory essay provides an historical overview of Professor Campbell s work and argues for the continuing importance of democratic positivism at a time when it is again becoming clear that courts are ineffective protectors of human rights Making Human Rights Real Filip Spagnoli,2007 Here in a nutshell readers may find a description of the most important characteristics of human rights and a clear and concise discussion of the problem of making human rights real and not just hypothetical Building on definitions of human rights used by the United Nations and other international bodies the author describes the main characteristics of the system of human rights universality interdependence differences between types of rights absolute or limited rights the subjects of rights individuals or groups the link between rights and the judicial system and between rights and democracy He then discusses some of the instruments we can use to promote respect for human rights the means by which we might make these rights real for a

greater portion of humanity Along the way he analyzes some of the related controversies regarding sovereignty international intervention and globalization and questions of cultural imperialism as they bear upon human rights Do we have a right to impose rights or to defend ourselves from such intervention This systematic discussion presents a complex and difficult topic in an understandable framework accessible to the general public and will stand as a useful foundation for readings of more specialized scientific legal and philosophical works Where most human rights books for the nonspecialist focus on specific instances of rights abuses this work provides a more general approach focused on the logic in the system of human rights

Filip Spagnoli obtained his PhD at the University of Brussels He has written numerous OpEd articles in leading Belgian newspapers and specialized articles in philosophical periodicals and two books *Homo Democraticus On the Universal Desirability but the Not So Universal Possibility of Democracy and Human Rights* 2003 and *Democratic Imperialism A Practical Guide* 2004 Employed by the research and statistics directorate of the Belgian Central Bank Spagnoli is a guest speaker at conferences and universities and has participated in European Commission study visits to Eastern European countries with the aim of delivering statistical expertise and helping these countries to achieve membership of the European Union

The Politics of Human Rights The Belgrade Circle, Obrad Savic, 2002-10-17 Original essays on the political and philosophical underpinnings of the idea of human rights by a group of highly distinguished theorists

Minorities in Constitution Making in Turkey Eduard Alan Bulut, 2018-01-23 This book addresses the constitutional journey of religious minorities in modern Turkey specifically the Lausanne minorities who have been both coded and blacklisted in the official records for decades It focuses on the non Muslim citizens who have maintained their lives with confidential codes without knowing that these codes have been instrumentally used for strategic purposes In spite of such discriminatory practices they are on the way to a new democratic and civil constitution It is significant to note that this will be their first constitutional experience in post republic history The first book to document the role of religious minorities in constitution making in modern Turkey it lists recent discussions and findings on this controversial process One of the important findings of this study is that government led initiatives endeavouring to be inclusive have had the opposite effect
