Making Of A Slum:

The Making of a Slum Michael Dorman, 1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt s Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt s Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter s feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay s now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history Making the Modern Slum shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded

In Pursuit of Proof Tarangini Sriraman, 2018-04-28 Weaving together a hitherto unattempted history of making and verifying identification documents In Pursuit of Proof tells stories from the ground about the urban margins of India and Delhi in particular The book moves with agility across the late colonial era and the postcolonial years marked by ration cards refugee registration certificates permits licences and affidavits How did the ration card introduced during the Second World War crystallize into proof of residence After the Partition how did the Indian state classify refugees as poor displaced and lower caste Might there be alternative conceptualizations of the much maligned Licence Raj How does proof manifest itself for those living in Delhi's slums And how does the unique identification number termed the Aadhaar impinge on rural migrants dwelling in the city Relying on intensive ethnographic and archival methods the book answers these

questions and theorizes the Indian state as one whose welfare capacities of governing are drawn from popular knowledge practices of documenting and proving identities *The Spectator* ,1927
