Making Of Chinese Foreign Security Policy Etc:

China's Foreign Policy since 1949 Kevin Cai, 2022-01-24 This book provides a systematic and comprehensive analysis and overview of China's foreign policy since 1949. It starts with constructing an analytical framework for explaining Chinese foreign policy and then on the basis of that outlines and analyzes developments in different areas of foreign policy such as security policy, international economic policy, and policy toward multilateralism and foreign policy toward different areas of the world such as the United States, East Asia, Europe, and developing countries. The book also examines decision making in Chinese foreign policy, discusses issues of current concern including maritime disputes, Xi Jinping's more assertive approach to foreign policy, the One Belt One Road initiative, and the trade war with the United States. The book concludes with a comparative analysis of the three phases of China's foreign policy since 1949 and provides a brief assessment of how China's foreign policy is likely to develop going forward.

Chinese International Relations Theory Jonathan Ping, Anna Hayes, Brett McCormick, 2025-05-05 This book explores how fundamental aspects of China's rapidly evolving arena of international relations theory are emerging directly from the realms of practice and policy. As a unique explanation of the Chinese School by those actually making the decisions, assisted and researched in collaboration with eminent global scholars, the book guides the global reader through the building of Chinese international relations theory and how China may be accounted for behaviour predicted and useful policy developed. With chapters examining critical issues such as Statecraft and party, The Belt and Road Initiative, Diplomacy and Security in the Asia Pacific, China-US relations, The South China Sea, This book will provide new theory to policy makers and prove an invaluable guide to students and scholars of Chinese politics, international relations theory, diplomacy, global studies, and international relations.

Critical Decade, A: China's Foreign Policy (2008-2018) Zhiquan Zhu, 2019-07-09 China emerged as a major economic, diplomatic, and military power during the critical decade from 2008 to 2018. As a result, China's foreign policy has become more active and dynamic. This book provides a unique perspective to understand Chinese foreign policy during this decade by examining continuities and changes in both internal and external factors that have shaped China's development. The book focuses on key challenges in China's diplomacy such as US-China relations, the Korean Peninsula, Taiwan, Japan, India, Chinese investment overseas, the Belt and Road Initiative, global and regional cooperation, soft power, etc. It also includes an extensive annotated bibliography of major recent publications on various aspects of Chinese foreign policy. This is the first scholarly book that studies the evolution and key challenges of China's foreign relations during the critical decade 2008-2018 when China grew into a crucial, sometimes assertive power in international affairs.

The Making of China's Artificial Intelligence and Cyber Security Policy Suisheng Zhao, 2025-08-08 The rise of digital technology, particularly artificial intelligence (AI), has transformed societies and international politics. China has responded to the transformation and strived to become one of the global leaders. What is China's approach toward the objective? Who are the major players and stakeholders in the making of digital policy? How has

the Chinese state worked with various stakeholders To what extent has digital technology influenced China's authoritarian governance How has Chinese society responded to digital authoritarianism Can China prevail in shaping global digital rulemaking This edited volume seeks answers to these important questions Divided into three parts Part I examines how the central state has become a leading player and coordinated with various stakeholders such as academic institutions corporations and local governments in making digital technology policy Part II analyses how the Chinese party state used digital technology to strengthen authoritarian governance and how society has responded to digital authoritarianism Part III explores China's attempt to shape global digital rulemaking in competition with the US and other Western countries This book is aimed at scholars researchers policymakers and students with an interest in digital technology international relations Chinese politics and authoritarian governance It will also appeal to those studying AI digital governance and global power dynamics The chapters in this book were originally published in the Journal of Contemporary China and come with a new introduction

Emerging Powers in a Comparative Perspective Vidya Nadkarni, Norma C. Noonan, 2013-02-14 The book examines the rising influence of emerging powers in global politics with a special focus on the BRIC countries Brazil Russia India China Chapters contributed by international scholars first look at the changing status of the US in the 21st century and at the EU as both an emerging and innovative power China's rising power status India's regional and global influence Russia's re emergence and Brazil's growing regional and international role are then analyzed comparatively to explain how the BRIC states are poised to become vital players not only in politics and economy but also in key international concerns such as terrorism globalization and climate change The book provides a detailed analysis of political economic security and foreign policy trends in the BRIC countries to address such questions as to whether they will seek to revise the international order or work within it and how they will deal with transnational global problems Using a unique comparative approach the text will appeal to undergraduate students in world politics international relations and foreign policy

A Handbook of China's International Relations Shaun Breslin, 2012-07-12 This Handbook comprising around twenty five chapters provided by numerous experts in the field will prove invaluable to students of international affairs academics researchers businesspeople and policy analysts Chapters will give up to date and unbiased information on the current state of Chinese international relations in historical perspective

The Chinese Chameleon Revisited Zheng Yangwen 郑阳文, 2014-09-01 By examining how the Middle Kingdom has been portrayed by foreigners and the Chinese themselves this volume advances a new perspective in our reading and interpretation of the Chinese past by placing these producers and presenters of China in the spotlight The chapters probe how these figures produced or presented the country cross examining their backgrounds and circumstances Their gaze upon the Middle Kingdom was dictated by religious and political conviction but also particularly by the consumers of that gaze Like invisible hands producers and consumers of China continue to constrain representations of the country looming larger than the literary artistic or journalistic works they produce This volume also addresses scholars of Europe and

America who have overlooked what Western writers on China reveal about their own contexts which is indeed often more than they reveal about their ostensible subject As such the Middle Kingdom serves as a convenient mirror to reflect European and American anxieties and ambitions *U.S. Security Policy Toward Rogue Regimes* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Security, International Organizations, and Human Rights,1994 *National Security, Military Power & the Role of Force in International Relations* Army Library (U.S.),1976

Routledge Handbook of Chinese and Eurasian International Relations Mher Sahakyan,2024-07-26 The Routledge Handbook of Chinese and Eurasian International Relations explores China s relations with the Eurasian continent s regions and countries in a multipolar era providing an equal and balanced platform for scholars and practitioners from East West North and South This diversity enriches the contribution giving it a dynamic ability to examine sources in different languages and cover a vast geography Divided into ten parts this handbook analyses the major powers in a Multipolar World Order China s political and economic interests in post Soviet Eurasia Middle East Europe Asia Pacific and Arctic and China s relations with the US Russia Eurasian Economic Union NATO and other players International technology and environmental experts consider the impact of the Belt and Road Initiative along with other international economic and transport corridors and examine China s multilateral relations and Digital Silk Road and e governance roles The Routledge Handbook of Chinese and Eurasian International Relations also contains official documents detailing the establishment of diplomatic relations between China and several European and Asian states making it an authoritative source on diplomatic affairs This groundbreaking book will be of interest to policymakers businessmen scholars and students of international relations area studies cybersecurity and digitalization economics and the politics of international trade security studies foreign policy global governance international organizations and environmental studies *National Security Policy, 1969 - 1972: Vol. XXXIV* ,

Modern Industrial IoT, Big Data and Supply Chain Victor Chang,Muthu Ramachandran,Víctor Méndez Muñoz,2021-03-31 This book is a collection of selected papers presented at the First International Conference on Industrial IoT Big Data and Supply Chain IIoTBDSC held as an online conference due to COVID 19 initially to be held in Macao Special Administration Region SAR of China during September 15 17 2020 It includes novel and innovative work from experts practitioners scientists and decision makers from academia and industry It brings multi disciplines together on IIoT data science cloud computing software engineering approaches to design development testing and quality of products and services **Chinese (Taiwan) Yearbook of International Law and Affairs, Volume 29 (2011)** ,2020-02-03 The Chinese Taiwan Yearbook of International Law and Affairs commenced publication in 1981 under the auspices of the Chinese Taiwan Society of International Law The Yearbook publishes on multi disciplinary topics with a focus on international and comparative law issues regarding Taiwan Mainland China and the Asia Pacific region The Yearbook is one of the foremost publications in the world concentrating on issues of greater China **Beyond Lisbon** Laurent Cohen-Tanugi,2008 Recoge Europe in the global

economy the state of play 2 The short term 2008 2010 3 Euroworld 2015 a european strategy for globalisation *Greenland in Arctic Security* Marc Jacobsen,Ulrik Pram Gad,Ole Wæver,2024-02-13 Greenland has increasingly captivated imaginations around the globe Yet while it is central to the Arctic region its role has been poorly understood *Greenland in Arctic Security* delivers a comprehensive overview of how security dynamics unfold in and in relation to Greenland Each individual chapter analyzes specific discourses and dynamics pertaining to hard or soft security questions These span from great power interests in geostrategic infrastructure to domestic debates centered on promoting and protecting Greenland identity when engaging with the outside world In addition the book offers perspectives on other security questions that have been catalyzed by the effects of climate change By combining these different analyses *Greenland in Arctic Security* provides new theoretically informed discussions on how security politics can manifest across different scales and territorial borders At times these politics can have consequences beyond their original intent With Greenland geopolitics and securitization theory of current interest to political and academic debates this book offers timely insights for readers *China, an Analytical Survey of Literature* United States. Department of the Army,1978 *Cyber Security Policies and Strategies of the World's Leading States* Chitadze, Nika,2023-10-11 Cyber attacks significantly impact all sectors of the economy reduce public confidence in e services and threaten the development of the economy using information and communication technologies The security of information systems and electronic services is crucial to each citizen s social and economic well being health and life As cyber threats continue to grow developing introducing and improving defense mechanisms becomes an important issue *Cyber Security Policies and Strategies of the World s Leading States* is a comprehensive book that analyzes the impact of cyberwarfare on world politics political conflicts and the identification of new types of threats It establishes a definition of civil cyberwarfare and explores its impact on political processes This book is essential for government officials academics researchers non government organization NGO representatives mass media representatives business sector representatives and students interested in cyber warfare cyber security information security defense and security and world political issues With its comprehensive coverage of cyber security policies and strategies of the world s leading states it is a valuable resource for those seeking to understand the evolving landscape of cyber security and its impact on global politics It provides methods to identify prevent reduce and eliminate existing threats through a comprehensive understanding of cyber security policies and strategies used by leading countries worldwide **National Security Policy, 1969-1972** United States. Department of State,2012-04-05 This volume documents U S national security policy in the context of the Vietnam War and the changing Cold War strategic balance between the United States and the Soviet Union When President Richard Nixon assumed office in January 1969 he was confronted with the fact that the United States no longer held commanding military superiority over its superpower rival Since the end of his stint as Vice President in 1961 the Soviets had achieved a rough strategic parity that left the United States with significant vulnerabilities vis vis the USSR This work documents the Nixon

administration's efforts to grapple with this new strategic situation and provides coverage of the following: The administration's review of U.S. nuclear and general purpose forces and strategic doctrine; its attempts to ascertain the level of technological sophistication achieved by the Soviet missile program and its decision to deploy Safeguard, a modified anti-ballistic missile system. The page contained in this volume also examines chemical and biological weapons policy, U.S. nuclear policy in Asia, the evolution of the administration's strategic priorities in light of an ever-shrinking defense budget and the transition from military conscription to an all-volunteer armed force. Additionally, it provides previously unreleased material regarding the October 1969 Joint Chiefs of Staff Readiness Test in which Nixon secretly placed on alert portions of the United States military including its nuclear forces. Throughout this comprehensive and historical volume, a consistent theme is the relationship between military strength and diplomatic strength, in particular the importance of military might, real or perceived, to the United States' ability to maintain credibility in the eyes of allies and adversaries alike.

The Rise of China and International Security Kevin J. Cooney, Yoichiro Sato, 2008-08-29 This comprehensive volume fills a gap in the existing literature by focusing on the responses of other East Asian states to China's rise, exploring its implications for the region and beyond.

The Arctic in China's National Strategy Martin Kossa, 2024-02-02 This book locates the Arctic within the context of the People's Republic of China's PRC national strategy of the Great Rejuvenation of the Chinese Nation. Drawing on a range of sources published in Chinese and English, the author analyses Beijing's Arctic scientific activities and technological capabilities, including the research infrastructure, long-term goals, and the significance for China's understanding of the region, its Arctic identity, and international perceptions. Examining the region from the perspective of the Comprehensive National Security Outlook developed during the Xi Jinping era, the book focuses on military, economic, technological, and political components and considers the PRC's official and academic discourses and the views of the region within bilateral relations with Arctic states, outlining a science, security, and governance nexus in China's Arctic engagement. This volume will be of interest to scholars and students of Arctic geopolitics, Chinese studies, security studies, and foreign policy analysis. It will also appeal to policymakers and defence analysts in Arctic states and other regional stakeholders.

Unveiling the Power of Verbal Art: An Psychological Sojourn through **Making Of Chinese Foreign Security Policy Etc**

In a world inundated with monitors and the cacophony of quick transmission, the profound energy and emotional resonance of verbal art often diminish into obscurity, eclipsed by the regular onslaught of noise and distractions.
