Indeed the man never let the nation down whether as an air warrior or a strategist ever ready to voice his views irrespective of how the wind was blowing and always remaining practical in approach Ever an optimist he believed that India would inevitably rise to power by the sheer size of its economy and human resource potential A greater concern for him however was the need to sensitize his compatriots to the national security challenges that would arise as the country rose and to equip them with the capability to optimally address these He did so through his writings and talks This book is a modest compilation of his select writings on two specific issues nuclear strategy and Pakistan since he considered these as critical amongst India s many security challenges Of course the range of Jasjit Singh s writings and the expanse of his knowledge is immense and beyond capture in one book But this is a small effort in the direction of spreading his message ideas to the current and future generation of scholars and policy makers Hopefully it will encourage students of national security to look for more of his writings beyond the few that we have been able to carry in this volume Understanding Partition Yuvraj Krishan,2002 This book brings out with clarity the growth of separatist movement in India leading to her partition

**Western Realism and International Relations** Aswini K. Ray,2004 This book provides an alternative perspective of International Relations from Hiroshima to 9 11 Both its diplomacy and mainstream scholarship are linked by realpolitic in a vicious circle of retrogressive symbiosis It simultaneously undermined the UN system of collective security from its origin and the scientific credential of its scholarship The Cold War that it spawned restricted economic prosperity political stability and democratic freedom within its narrow core area of the United States and Europe at the cost of its vast periphery in the Third World Its unpredicted collapse extended insecurity across the entire globalised system including its core area as evnts since 9 11 forcefully underscores While the new hegemonic system has become globally more insecure for all its citizens its scholarship is still clueless about the collapse of teh bipolar system it

created in the midst of the massive confidence building exercise to stabilise it it is even less able to creatively respond to its orderly transition      *The Far East and Australasia 2003* Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume
