Focused Observations, Third Edition Gaye Gronlund, Marlyn James, 2025-04-22

Intentional teaching begins with focused observations and systematic documentation of children's learning and development. *Focused Observations Third Edition* explains why observation is one of the best methods to get to know each child well, track progress and plan individualized curriculum. It also provides tools and techniques to help you strengthen your observations, create portfolios with rich documentation and support each child. You will also learn how to share your findings with families and grow as an observer through review and reflection activities. Learn answers to common questions about observation including: Why should I use observation in my classroom? What does effective observation and documentation look like? How do I fit observation in so that it doesn't take away from teaching and interacting with children? How do observation and documentation work with early learning guidelines? Online videos with nineteen vignettes of children in action provide opportunities to practice observing children and capturing what you see. This updated edition includes new examples and provider anecdotes as well as fresh references and research.

Journal of Linguistics, 2015

Adverbs and Adverbial Adjuncts at the Interfaces Katalin É. Kiss, 2009-05-05

This book clarifies on the basis of mainly Hungarian data basic issues concerning the category adverb: the function adverbial and the grammar of adverbial modification. It argues for the PP analysis of adverbials and claims that they enter the derivation via left and right adjunction. Their merge in position is determined by the interplay of syntactic, semantic and prosodic factors. The semantically motivated constraints discussed also include a type restriction affecting adverbials semantically incorporated into the verbal predicate, an obligatory focus position for scalar adverbs representing negative values of bidirectional scales, cooccurrence restrictions between verbs and adverbials involving incompatible subevents etc. The order and interpretation of adverbials in the postverbal domain is shown to be affected by such phonologically motivated constraints as the Law of Growing Constituents and by intonation phrase restructuring. The shape of the light-headed chain

arising in the course of locative PP incorporation is determined by morpho phonological requirements The types of adverbs and adverbials analyzed include locatives temporals comitatives epistemic adverbs adverbs of degree manner counting and frequency quantificational adverbs and adverbial participles
