Mente Aberta Mente Integral:

Desabituação compartilhada Hugo Leonardo da Silva, 2014-03-12 Este livro est construído sobre um campo em que Arte especificamente Dan é assumida como um exercício constante sobre a perturbação dos sentidos sem deixar de estarmos atentos à ambivalência do termo sentidos referindo-se tanto às interfaces do corpo humano com seu ambiente como às dimensões semânticas. Ou seja, os sentidos que trazem as coisas do mundo à nossa presença e os sentidos que fazemos dessas coisas e a partir delas e apesar delas podemos acreditar que refletir sobre dan nessa perspectiva possa sublinhar muitas coisas sobre o funcionamento da natureza, as maravilhas e os mistérios do cérebro, mente e consciência. Ao fazermos isso como artistas não estamos fazendo outra coisa senão ajudar a cavar do nosso lado e também muitas vezes escavado de outro lado por neurocientistas, psiquiatras, psicólogos, filósofos, biólogos etc. O objeto da discussão é o Contato Improvisado, o nome que se estabeleceu em português como tradução para Contact Improvisation, uma específica proposta de investigação do movimento e dan é batizada no ano de 1972 em Nova Iorque nos EUA a partir do trabalho de dançarinos que emergiam da tradição de dança moderna com propostas vanguardistas. A premissa básica que o Contato Improvisado é uma prática que coloca dançarinos para se encontrar e atuar em estados de percepção, imaginação e subjetivação do mundo de destacada permeabilidade. Nesse encontro não apenas suas experiências subjetivas do mundo são constantemente desestabilizadas e estimuladas como um território de intensa intersubjetivação surge como uma espécie de mente compartilhada e externalizada em estado de intensificada imaginação.

O viver de luz na Terra Enky JHS, 2021-05-19 O universo das experiências e das descobertas nos mostra que o conhecimento não é um privilégio apenas do estágio evolutivo atual da humanidade, mas que ele sempre existiu, sendo a diferença expressa na capacidade de apreensão e nas suas formas de manifestação. O despertar atual da humanidade terrena já possibilita ter consciência suficiente para perceber a ilusão dos sentidos externos indo em busca de sua essência interna. Nesse contexto, o Viver de Luz apresenta formas de obtenção de sucesso funcionando como alquimia que separa o Eu físico do Eu psíquico ou seja, o denso do sutil possibilitando a interpenetração dos campos de energia oscilante e a integração com o Eu interno podendo viver de maneira sutil, equilibrada, saudável e sustentável no meio denso em que está inserida, nutrindo-se da fonte vital inesgotável do Universo. Essa integração é a mensagem dos mestres ascensionados e tem sido também a busca incessante da Ciência para descobrir a teoria de tudo. Nada está separado e tudo sempre existiu formando uma única coisa. O Processo do Viver de Luz permite às pessoas se libertarem do vício das comidas contaminadas que inundam a dieta humana, vivendo mais e melhor.

Tradição e criação de jogos - reflexões e proposta Patricio Casco, 2008 Num mundo em que a seriedade tem promovido tantas guerras por que não brincar para promover a paz? Com essa questão Patricio Casco dá o pontapé inicial em seu pensamento criativo e provocador que tira partido das atividades lúdicas para encontrar nelas um antidoto contra a violência de nossos dias. Neste livro ele questiona a utilização que é feita dos jogos nos espaços pedagógicos sempre igual e hipercompetitiva. Por outro lado, subverte o significado da prática de jogos e esportes para transformá-los em oportunidade de
