Faraldo, 2020-01-01 The Russian Revolution of 1917 born of the collapses of the War exerted its influence all along the globe and for a long time In Europe and the Mediterranean world the effects of World War I were overwhelming Taking as point of departure the year of the Russian revolutions this book focus on the consequences of the imperial and state collapses after 1917 in spatial and chronological dialogue researching the changing of institutions that created narratives and representations of national memories exploring the nationalist movements that shaped the new countries and describing the communist activists that helped to transform the old world within the framework of a tragedy of terrible dimensions Jos M Faraldo is Associate Professor in the Department of Modern and Contemporary History of the Universidad Complutense de Madrid **English Convents in Exile, 1600-1800, Part I, vol 2** Caroline Bowden, Laurence Lux-Sterritt, Nicky Hallett, Elizabeth Perry, Victoria Van Hynning, 2024-08-01 Between 1600 and 1800 around 4 000 Catholic women left England for a life of exile in the convents of France Flanders Portugal and America These closed communities offered religious contemplation and safety but also provided an environment of concentrated female intellectualism The nuns writings from this time form a unique resource *State and Society in the Palaiologan Era* Marie-Hélène Blanchet, Raúl Estangüi Gómez, 2025-04-09 Often described as a period of decline and decadence the history of the Byzantine Empire under the emperors of the Palaiologan dynasty 1261 1453 has undergone a considerable historiographical revival that has allowed this deeply negative image to be nuanced State and Society in the Palaiologan Era brings together articles by some of the best specialists in the field and addresses various aspects of the functioning of the Byzantine state and society in the Palaiologan period These contributions reflect not only the dynamism of the Byzantine society but also the divisions and challenges created by the deep transformations in the socioeconomic conditions of the time and by the Ottoman conquest of the Byzantine territory They show the capacity of the Byzantine state and institutions to adapt to a new political context one of territorial shrinkage and instability as well as the consequences of this instability for the society of the time for its economic and charitable activities for its spirituality and beliefs and for the splits and conflicts opposing different categories of social actors This book aims to provide researchers with a series of studies whose methodology and results offer new insights into the complex often contradictory phenomena that ran through the Byzantine world during the Palaiologan period This collection of chapters will thus prove useful to all those interested in the Byzantine Empire at the end of the Middle Ages
