**The Taoists of Peking, 1800-1949** Vincent Goossaert, 2020-03-23

By looking at the activities of Taoist clerics in Peking this book explores the workings of religion as a profession in one Chinese city during a period of dramatic modernization The author focuses on ordinary religious professionals most of whom remained obscure temple employees Although almost forgotten they were all major actors in urban religious and cultural life The clerics at the heart of this study spent their time training disciples practicing and teaching self cultivation performing rituals and managing temples Vincent Goossaert shows that these Taoists were neither the socially despised illiterates dismissed in so many studies nor otherworldly ascetics but active participants in the religious economy of the city In exploring exactly what their crucial role was he addresses the day to day life of modern Chinese religion from the perspective of ordinary religious specialists This approach highlights the social processes institutions and networks that transmit religious knowledge and mediate between prestigious religious traditions and the people in the street In modern Chinese religion the Taoists are such key actors Without them Taoist ritual and Taoist self cultivation are just empty words

*Tea in China* James A. Benn, 2015-04-23

*Tea in China* explores the contours of religious and cultural transformation in traditional China from the point of view of an everyday commodity and popular beverage The work traces the development of tea drinking from its mythical origins to the nineteenth century and examines the changes in aesthetics ritual science health and knowledge that tea brought with it The shift in drinking habits that occurred in late medieval China cannot be understood without an appreciation of the fact that Buddhist monks were responsible for not only changing people's attitudes toward the intoxicating substance but also the proliferation of tea drinking Monks had enjoyed a long association with tea in South China but it was not until Lu Yu's compilation of the *Chajing* The Classic of Tea and the spread of tea drinking by itinerant Chan monastics that tea culture became popular throughout the empire and beyond Tea was important for maintaining long periods of meditation it also provided inspiration for poets and profoundly affected the ways in which ideas were exchanged Prior to the eighth century the aristocratic drinking party had excluded monks from participating in elite culture Over cups of tea however monks and literati could meet on equal footing and share in the same aesthetic values Monks and scholars thus found common ground in the popular stimulant one with few side effects that was easily obtainable and provided inspiration and energy for composing poetry and meditating In addition rituals associated with tea drinking were developed in Chan monasteries aiding in the transformation of China's sacred landscape at the popular and elite level Pilgrimages to monasteries that grew their own tea were essential in the spread of tea culture and some monasteries owned vast tea plantations By the end of the ninth century tea was a vital component in the Chinese economy and in everyday life *Tea in China* transcends the boundaries of religious studies and cultural history as it draws on a broad range of materials poetry

histories liturgical texts monastic regulations many translated or analyzed for the first time The book will be of interest to scholars of East Asia and all those concerned with the religious dimensions of commodity culture in the premodern world

**Making Transcendents** Robert Ford Campany, 2009-02-18 Honorable Mention Joseph Levenson Prize pre 1900 category Association for Asian Studies By the middle of the third century B C E in China there were individuals who sought to become transcendents xian deathless godlike beings endowed with supernormal powers This quest for transcendence became a major form of religious expression and helped lay the foundation on which the first Daoist religion was built Both xian and those who aspired to this exalted status in the centuries leading up to 350 C E have traditionally been portrayed as secretive and hermit like figures This groundbreaking study offers a very different view of xian seekers in late classical and early medieval China It suggests that transcendence did not involve a withdrawal from society but rather should be seen as a religious role situated among other social roles and conceived in contrast to them Robert Campany argues that the much discussed secrecy surrounding ascetic disciplines was actually one important way in which practitioners presented themselves to others He contends moreover that many adepts were not socially isolated at all but were much sought after for their power to heal the sick divine the future and narrate their exotic experiences The book moves from a description of the roles of xian and xian seekers to an account of how individuals filled these roles whether by their own agency or by others or often by both Campany summarizes the repertoire of features that constituted xian roles and presents a detailed example of what analyses of those cultural repertoires look like He charts the functions of a basic dialectic in the self presentations of adepts and examines their narratives and relations with others including family members and officials Finally he looks at hagiographies as attempts to persuade readers as to the identities and reputations of past individuals His interpretation of these stories allows us to see how reputations were shaped and even co-opted sometimes quite surprisingly into the ranks of xian Making Transcendents provides a nuanced discussion that draws on a sophisticated grasp of diverse theoretical sources while being thoroughly grounded in traditional Chinese hagiographical historiographical and scriptural texts The picture it presents of the quest for transcendence as a social phenomenon in early medieval China is original and provocative as is the paradigm it offers for understanding the roles of holy persons in other societies ***Illusory Abiding*** Natasha

Heller, 2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism *Illusory Abiding* offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese

Buddhism in late imperial China and demonstrates the importance of situating monks as actors within broader sociocultural fields of practice and exchange     Debt David Graeber, 2014-12-09 Now in paperback the updated and expanded edition David Graeber's fresh fascinating thought provoking and exceedingly timely Financial Times history of debt Here anthropologist David Graeber presents a stunning reversal of conventional wisdom he shows that before there was money there was debt For more than 5 000 years since the beginnings of the first agrarian empires humans have used elaborate credit systems to buy and sell goods that is long before the invention of coins or cash It is in this era Graeber argues that we also first encounter a society divided into debtors and creditors Graeber shows that arguments about debt and debt forgiveness have been at the center of political debates from Italy to China as well as sparking innumerable insurrections He also brilliantly demonstrates that the language of the ancient works of law and religion words like guilt sin and redemption derive in large part from ancient debates about debt and shape even our most basic ideas of right and wrong We are still fighting these battles today without knowing it     *The Making of a Savior Bodhisattva* Shi Zhiru, 2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld Such a model the author argues obscures the many faceted personality and iconography of Dizang Rejecting it she deploys a broad array of materials art epigraphy ritual texts scripture and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries Rather than privilege any one genre of evidence the author treats both material artifacts and literary works canonical and noncanonical sources Adopting an archaeological approach she excavates motifs from and finds resonances across disparate genres to paint a vibrant detailed picture of the medieval Dizang cult Through her analysis the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism functioning as a kaleidoscopic lens encompassing a multivalent religio cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion *The Making of a Savior Bodhisattva* presents a fascinating wealth of material on the personality iconography and lore associated with the medieval Dizang It elucidates the complex cultural religious and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field Zhiru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history she also brings both canonical and

noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism

**Making Saints in Modern China** David Ownby, 2017 Sainthood has been and remains a contested category in China given the commitment of China's modern leadership to secularization modernization and revolution and the discomfort of China's elite with matters concerning religion However sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government's censure This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present Edited by noted authorities in the field of Chinese religion *Making Saints in Modern China* offers biographies of prominent Daoists and Buddhists as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People's Republic The focus of the volume is largely on figures in China proper although some attention is accorded to those in Taiwan Hong Kong and other areas of the Chinese diaspora Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace Negotiation with often hostile authorities was also an important aspect of religious leadership and many of the saints stories reveal unexpected reserves of creativity and determination The volume's contributors from the United States Canada France Italy China and Taiwan provide cutting edge scholarship Taken together these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state's commitment to wholesale secularization
