Michael Collins, 2018-03-28 Financial struggles of American families are headline news In communities across the nation families feel the pinch of stagnant and sometimes declining incomes Many have not recovered from the Great Recession when millions lost their homes and retirement savings They are bombarded daily with vexing financial decisions Which bills to pay Where to cash checks How to cover an emergency How to improve a credit report How to bank online How to save for the future Low and moderate income families have few places to turn for guidance on financial matters Not many can afford to pay a financial advisor to help navigate an increasingly complex financial world They do their best with advice from family and trusted individuals Social workers financial counselors and human services professionals can help As first responders they assist families and help in finding financial support from public and private sources But these professionals are too often unprepared to address the full range of financial troubles of ordinary working families *Financial Capability and Asset Building in Vulnerable Households* prepares social workers financial counselors and other human service professionals for financial practice with vulnerable families Building on more than 20 years of research the book sets the stage with key concepts historical antecedents and current financial challenges of families in America It provides knowledge and tools to assist families in pressing financial circumstances and offers a lifespan perspective of financial capability and environmental influences on financial behaviors and actions Furthermore the text details practice principles and skills for direct interventions as well as for designing financial services and policy innovations It is an essential resource for preparing the next generation of practitioners who can enable families to achieve economic security and development *Cryptoassets: The Guide to Bitcoin, Blockchain, and Cryptocurrency for Investment Professionals* Matt Hougan, David Lawant, 2021-01-07 Bitcoin blockchain and cryptocurrencies burst onto the world stage in 2008 when the online posting of a pseudonymous white paper provided a vision of a new way to transfer value over the internet In the decade plus since the cryptoasset market has gone through all the classic phases of a disruptive technology massive bull markets and crushing pullbacks periods of euphoria and moments of despair FOMO fear of missing out fear and everything in between As the cryptomarket enters its second decade one thing is clear Crypto is not going away Cryptoasset markets are rallying toward new all time highs and many of the world's largest investors and financial institutions are getting involved Investors looking into crypto however face significant challenges The quality of information is poor Theories about the drivers of cryptoasset valuations are untested and often poorly designed and they are rarely if ever published in peer reviewed journals Due diligence efforts from leading consultants are in their infancy and few people have carefully thought

through the role if any that cryptoassets should have in a professionally managed portfolio More fundamentally few people even understand what crypto really is or why it might matter Is it an alternative currency A technology A venture capital investment A specious bubble The goal of this document is to provide the inquisitive investor with a clear eyed guide to crypto and blockchain what they are what they are not and where they might go from here
