Monks Hermits And Crusaders In Medieval Europe:

Monks, Hermits and Crusaders in Medieval Europe Giles Constable,1988 *Monks, Hermits and Crusaders in Medieval Europe (Collected Studies CS 273)*. Giles Constable,1988 Perfection of Solitude Andrew Jotischky,2010-11-01

Culture and Spirituality in Medieval Europe Giles Constable,2024-10-28 The studies in the present selection of Giles Constable's work concentrate on culture and spirituality in the 11th and 12th centuries though they also touch on the early and late Middle Ages The cultural articles are concerned respectively with perceptions of time and the past history seen as a reflection of social and religious concerns entry to religious life preaching and letters and letter writing The articles on spirituality deal with the themes of suffering and attitudes towards the self especially the growing concentration on the individual in the religious life of the 12th century

The Perfection of Solitude Andrew Jotischky,2008-01-31 Crusaders were not the only Europeans drawn to the Holy Land during the twelfth century Many lay people and followers of religious orders made pilgrimages to the East to visit the holy sites and many felt compelled to stay there settling as monks or hermits in established monasteries or founding hermitages of their own So widespread was the exodus that Bernard of Clairvaux spoke out against Cistercian monks who were deserting the flock The Perfection of Solitude is the first comprehensive study of the Latin monastic presence in the Holy Land at this time Andrew Jotischky looks at the reasons why Latin monks were drawn to the Holy Land building upon the work of historical geographer J K Wright and what happened after they arrived there Since very little is known about the history of western monastic settlement in the Holy Land this book navigates mostly uncharted territory Jotischky makes use of the recently discovered but little exploited writings of Gerard of Nazareth whose collection of brief lives of twelfth century Frankish hermits sheds new light on the nature of the Latin Church in the Crusader States Jotischky's most important conclusions are that solitary and communal monastic practices overlapped each other in the East and that this was due in part to the influence of Eastern practice which was less structured than its counterpart in Europe

The New Cambridge Medieval History: c. 1024-c. 1198. Pt. 1 and 2 Rosamond McKitterick,Paul Fouracre,Timothy Reuter,David Edward Luscombe,David Abulafia,Jonathan Riley-Smith,Christopher Allmand,Michael Jones,1995 *The Crusades* James F. McEaney,2002 *Crusades A Bibliography With Indexes* *Medieval Monastic Preaching* Carolyn Muessig,1998 This book demonstrates that monastic preaching was a diverse activity which included preaching by monks nuns and heretics The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages

The Crusades, Holy War and Canon Law James A. Brundage,2024-10-28 This volume is concerned above all with the legal background and the juristic issues behind the ideology and practice of the medieval Crusades This is an area that the author was the first to investigate systematically and there are two particular reasons for his approach one the conviction that the historical phenomenon of the Crusades can only be adequately understood within the context of the legal systems that permeated the age the other that so much of the documentary evidence be it charters

decrees even chronicles was produced by people whose perceptions had been shaped by the law. A number of articles focus on the roles of individual crusaders or address ideological questions including the very concept of Holy War. Others deal with practical issues and the nature of the obligations incurred by a crusader and examine the consequences these had both for the institutions of medieval Europe and for the crusader's own family relationships. Ce recueil s'attache avant tout au contexte légal et aux questions juridiques qui se trouvent à la base de l'idéologie et de la pratique des Croisades au Moyen Âge. L'auteur a tenté le premier d'entreprendre des recherches de fond systématique dans ce domaine. Deux raisons précises sont l'origine de cette démarche : premièrement la conviction que seule la connaissance du contexte des systèmes légaux dont l'époque était imprégnée permet de bien comprendre le phénomène historique des Croisades ; deuxièmement le fait que quantité de documents témoins (chartes, décrets ou encore chroniques) sont l'œuvre de gens dont la perception était grandement influencée par la loi. Un nombre d'études se concentrent sur la relation individuel de certains croisades ou s'adressent des questions d'idéologie y compris le concept même de la Guerre Sainte. D'autres traitent de questions d'ordre pratique ainsi que de la nature des engagements contractés par le croisade en examinant le

Crusaders and Heretics, Twelfth to Fourteenth Centuries Malcolm Barber, 2024-10-28. These articles seek to understand the attitudes and reactions of medieval society to both external threat and internal dissension whether real or imagined. The crusaders encompass the Templars and the Knights of St Lazarus, members of military orders committed to the cause of perpetual battle for the faith, more reluctant secular knights urged into the complicated conflicts of Latin Greece by the papacy and peasant enthusiasts from northern France ultimately turning their frustration on the clergy and the Jews. Heretics range from Cathars, real opponents of the Church, to the lepers, imaginary subverters of society allegedly in league with the two other perceived enemies of Western Christendom, the Jews and the Muslims.

The Saints' Lives of Jocelin of Furness Helen Birkett, 2010. First comprehensive study of four important medieval saints' lives setting them in their political and ecclesiastical context. Jocelin of Furness (fl. 1175-1214), the Cistercian hagiographer, composed four substantial and significant saints' lives varying widely in both subject and patron; they offer a rich corpus of medieval hagiographical writing. Jocelin's *Vita S. Patricii* and *Vita S. Kentegerni* provide updated versions of each saint's legend and are carefully adapted to reflect the interests of their respective patrons in Ireland and Scotland. The *Vita S. Helenae* was probably commissioned by a female community in England; it represents an idealized narrative mirror of its early thirteenth-century context. In contrast, the *Vita S. Waldevi* was written to promote the formal canonization of a new saint. Waltheof (d. 1159), abbot of the Cistercian house of Melrose in the Scottish borders. This is the first full-length study of the *Lives*. It combines detailed analyses of the composition of the texts with study of their patronage, audiences, and contemporary contexts, and it provides new insights into Jocelin's works and the writing of hagiography in the period.

Dr HELEN BIRKETT is Lecturer in Medieval History, University of Exeter.

The Cistercian Evolution Constance Hoffman Berman, 2010-08-03. According to the received history, the Cistercian order was founded in Chartreuse, France, in 1098 by a group of Benedictine

monks who wished for a stricter community They sought a monastic life that called for extreme asceticism rejection of feudal revenues and manual labor for monks Their third leader Stephen Harding issued a constitution the Carta Caritatis that called for the uniformity of custom in all Cistercian monasteries and the establishment of an annual general chapter meeting at Cîteaux The Cistercian order grew phenomenally in the mid twelfth century reaching beyond France to Portugal in the west Sweden in the north and the eastern Mediterranean ostensibly through a process of apostolic gestation whereby members of a motherhouse would go forth to establish a new house The abbey at Clairvaux founded by Bernard in 1115 was alone responsible for founding 68 of the 338 Cistercian abbeys in existence by 1153 But this well established view of a centrally organized order whose founders envisioned the shape and form of a religious order at its prime is not borne out in the historical record Through an investigation of early Cistercian documents Constance Hoffman Berman proves that no reliable reference to Stephen's Carta Caritatis appears before the mid twelfth century and that the document is more likely to date from 1165 than from 1119 The implications of this fact are profound Instead of being a charter by which more than 300 Cistercian houses were set up by a central authority the document becomes a means of bringing under centralized administrative control a large number of loosely affiliated and already existing monastic houses of monks as well as nuns who shared Cistercian customs The likely reason for this administrative structuring was to check the influence of the overdominant house of Clairvaux which threatened the authority of Cîteaux through Bernard's highly successful creation of new monastic communities For centuries the growth of the Cistercian order has been presented as a spontaneous spirituality that swept western Europe through the power of the first house at Cîteaux Berman suggests instead that the creation of the religious order was a collaborative activity less driven by centralized institutions its formation was intended to solve practical problems about monastic administration With the publication of *The Cistercian Evolution* for the first time the mechanisms are revealed by which the monks of Cîteaux reshaped fact to build and administer one of the most powerful and influential religious orders of the Middle Ages

Crusading Spirituality in the Holy Land and Iberia, C.1095-c.1187 William J. Purkis, 2008 For much of the twelfth century the ideals and activities of crusaders were often described in language more normally associated with a monastic rather than a military vocation This book argues that the significance of these descriptions has yet to be fully appreciated

Faithful Narratives Andrea Sterk, Nina Caputo, 2014-01-24 Historians of religion face complex interpretive issues when examining religious texts practices and experiences Faithful Narratives presents the work of twelve eminent scholars whose research has exemplified compelling strategies for negotiating the difficulties inherent in this increasingly important area of historical inquiry The chapters range chronologically from Late Antiquity to modern America and thematically from the spirituality of near eastern monks to women's agency in religion considering familiar religious communities alongside those on the margins and bringing a range of spiritual and religious practices into historical focus Focusing on Judaism Christianity and Islam the essays address matters central to the study of religion in history in particular texts and traditions of authority interreligious discourse and religious practice and experience Some examine mainstream communities and traditions others explore individuals who crossed religious or confessional boundaries and still others study the peripheries of what is considered orthodox religious tradition Encompassing a wide geographical as well as chronological scope Faithful Narratives illustrates the persistence of central themes and common analytical challenges for historians working in all periods

Kings and Lords in the Latin Kingdom of Jerusalem Hans Eberhard Mayer, 2024-10-28 In the present volume the third selection of his articles to be published Professor Mayer deals with questions of royal authority and power in the Crusader kingdom of Jerusalem He first examines the relationship between the monarchy and the Church questions of royal succession and aspects of the royal chancery but is also concerned to trace the king's efforts to create a

new clientele of loyal vassals The second group of studies reverses the perspective and looks at the origins and development of the lordships of the kingdom notably at the important county of Jaffa and at the role of the Ibelin the most significant family in the land

Rediscovering Sainthood in Italy Edward M. Schoolman, 2016-08-31 Beginning with Saint Barbatianus a fifth century wonderworking monk and confessor to the Empress Galla Placidia this book focuses on the changes in the religious landscape of Ravenna a former capital of the Late Roman Empire through the Middle Ages During this period written stories about saints and their relics not only offered guidance and solace but were also used by those living among the ruins of a once great city particularly its archbishops monks and the urban aristocracy to reflect on its past glory This practice remained important to the citizens of Ravenna as they came to terms with the city's revival and renewed relevance in the tenth century under Ottonian rule In using the vita of Barbatianus as a central text Edward M Schoolman explores how saints and sanctity were created and ultimately came to influence complex political and social networks from the Late Roman Empire to the High Middle Ages
