Out of the Gutters Jorge J. Santos, Patrick S. Lawrence, 2025-06-10 Comics have long been a subject of moral panics no doubt thanks to their in-your-face illustrations and their association with young readers Indeed the politicians and parents behind today's book-banning campaigns reserve special ire for graphic novels What makes today's controversies different is the content of the alleged obscenity Instead of targeting sex as such censors now focus on affirmations of nonheteronormative identity as in Maia Kobabe's *Gender Queer* And while violence is a constant in comics stories that acknowledge nationalist oppression and violence such as Art Spiegelman's *Maus* are also being blacklisted *Out of the Gutters* assembles scholars from diverse disciplines to examine US comics graphic novels and cartooning that have been challenged as obscene or transgressive Covering well-known underground figures like Robert Crumb and Charles Burns newcomers such as C. Spike Trotman and Emil Ferris and mainstream creators including Chris Claremont and Archie Goodwin the collection explores the market economics of transgression historical representations of graphic violence the ever-changing meaning of pornography sex-positive comics by BIPOC authors and queerness in pop culture mega-properties like *X-Men* and *The Walking Dead*

The Naked and the Undead Cynthia Freeland, 2018-03-05 Horror is often dismissed as mass art or lowbrow entertainment that produces only short-term thrills Horror films can be bloody gory and disturbing so some people argue that they have bad moral effects inciting viewers to imitate cinematic violence or desensitizing them to atrocities In *The Naked and the Undead: Evil and the Appeal of Horror* Cynthia A. Freeland seeks to counter both aesthetic disdain and moral condemnation by focusing on a select body of important and revealing films demonstrating how the genre is capable of deep philosophical reflection about the existence and nature of evil both human and cosmic In exploring these films the author argues against a purely psychoanalytic approach and opts for both feminist and philosophical understandings She looks at what it is in these movies that serves to elicit specific reactions in viewers and why such responses as fear and disgust are ultimately pleasurable The author is particularly interested in showing how gender figures into screen presentations of evil The book is divided into three sections *Mad Scientists and Monstrous Mothers* which looks into the implications of male rationalistic scientific technology gone awry *The Vampire's Seduction* which explores the attraction of evil and the human ability or inability to distinguish active from passive subject from object and virtue from vice and *Sublime Spectacles of Disaster* which examines the human fascination with horror spectacle This section concludes with a chapter on graphic horror films like *The Texas Chainsaw Massacre* Written for both students and film enthusiasts the book

examines a wide array of films including The Silence of the Lambs Repulsion Frankenstein The Fly Dead Ringers Alien Bram Stoker s Dracula Interview with the Vampire Frenzy The Shining Eraserhead Hellraiser and many others **Sweet Salt**
